**Automobile Burned.**

One of the worst automobile wrecks yet ever seen in these parts occurred near Whitsett Thursday night last. An Overland five passenger car in making the turn in the road just north of Whitsett ran into a side ditch and the jar was sufficient to so break the machine that the gasoline began to escape, and was soon afire. In a short while the car was consumed, leaving only a mass of twisted iron to show where it had fallen by the roadside. The name of the owner has not been learned, but the car is said to have come from Mebane. It is said that the occupants of the car escaped with only slight injuries, but the car was of course, a total loss.

**Take a Stitch in Time.**

When one stops and considers seriously for a moment the daily toll of human lives that are flickered out, without a moment's warning, by unforeseen accidents, he realizes the necessity of having his affairs in such shape at all times that, in the event of a fatal accident to himself, his loved ones will get the full benefit of the property he has worked hard to accumulate, and not lose a part, or all of it, through some freak of the law, or the trickery of a dishonest executor.

A will, properly executed and lodged for safe keeping, under lock and seal, in the vaults of a strong Trust Company, such as this, is the only sure way.

You can make a will today and, if you acquire more property tomorrow the will can be changed immediately so as to include the new possessions; in fact, a will can be altered at will by the testator, or revoked entirely.

You can rest assured, there will be no errors in your will and that your wishes will be carried out faithfully according to the provisions of it, when you appoint us as your Executor.—And there is no charge.
