DEATH RESULTED FROM ROLLER SKATING ACCIDENT.

New Bern, April 28.—The roller skate claimed its first victim here yesterday when Ellis Meekins, the 17-year-old son of Mr. and Mrs. Isaac Meekins, who reside at No. 312 New South Front street, died from injuries received from a fall sustained while he was skating on Pollock street last Sunday night. The young man, in company with several companions, was skating on Pollock street and some playful threw a small strip of wood across the sidewalk. Not seeing this obstruction Meekins

went down the sidewalk at a pretty fast clip and when his skates struck the stick he was thrown to the pavement with great force and his hip and three ribs were broken. He was taken to his home and medical attention rendered, but he did not rally and Saturday congestion of the brain set in and death occurred a few hours later.

Oakdale Items.

We have been so very busy attending to our own business we have not had time do any writing but hope we will not be turned down.

Several of our people attended the T. P. Sunday school convention at Mt. Zion the 13: inst they all pronounced it the best they ever attended. Quite a number of good talks were made by the Pastor Messrs. June Hornaday and Blake Isley of Sylvan.

Just before the class two banners were awarded one to the Baraca class the other to the Phalathill both classes of Pleasant Hill school. We would be unjust to the leaders if we did not say the singing was fine led in the morning by F. L. Spoon in the evening by T. C. Carter.

Officers elected for the next year were for Pres. June Hornaday, Vice Pres. T. C. Carter Sec. and Pres. Miss Larene Green. It was quite a treat to us to attend the closing exercises of Sylvan Grad school the children and all did well showing the careful training they had this winter.

In spite of the cold weather wheat rye and oats are looking fine. Corn planting is making good headway the weather has been ideal for farm work this month.

The cemetery at Mt. Zion is getting so near full that it was necessary to buy another lot so the trustees have secured a very suitable and valuable lot at the back of the old one. And all wishing to help to pay for same are requested to send a contribution to the trustees soon. So we are informed by one of them.

is 65 years old and is suffering from tuberculosis. Physicians at the hospital say he will live less than a month. Here is his story as he tells it:

"It was May 10, 1869 he has told the story so many times to the nurses at the hospital that he remembers the dates perfectly) when I ran the first locomotive of the Union Pacific out of Denver. The road had just been completed that far west. I had been in the employ of the Union Pacific longer than any other employe. They trusted me with their first big engine. I worked for them 40 years.

"I was engaged to marry a young woman who lived in Centralia, Ill. My home was in Macon, Mo., where I lived with my sister Frances. By speculation I made a lot of money and determined to give my sister the education my parents had been unable to afford her. So I sent her to a private school in Maryland.

"After my sister Frances went to school she would write me every week. One day the letters stopped. I wondered but thinking she was busy with her school work, waited patiently. Two years passed and I did not hear from her. I decided to go to the school and find my sister.

"When I arrived at the school the instructor told me that Frances had married a rich young man and had left school two years before.

"I began to search for her. I finally found her in Atlanta Ga. But her husband had left her. Frances confessed to me that he had led her into a mock marriage with the usual result. I took my sister to the home of my fiancé at Centralia. Because of the disgrace she committed suicide two days later.

"Then I began another search one which lasted 26 years. This time for the rich young man. I took up the trail at Washington, D. C., and followed him to England. There I saw him, but he dodged me. Down through Germany, France, Spain and Italy he went but I was never able to get hold of him. He was always a week ahead me. He knew I was following him.

He fled to Canada. I lost track of him for two months, but I picked up the trail again in New Orleans. He shipped over to Mexico and down thru Central America into South America. I had a little money and I was determined to spend it all, if necessary to catch him.

"He went to Johannesburg, Africa. But I was right after him. He came back to the states so did I. He was three weeks ahead of me now. Down to New Zealand and Australia I trailed him. He was gaining all the while. Then I lost him. I came back to California with half my fortune spent.

"It was Christmas night, 1897. I was dining at the Yosemite hotel at Stockton, Calif. He came in. I shot him five times and killed him.

"I spent the rest of my fortune, \$140,000, for my trial. The trial lasted six years. Four juries hung and the fifth acquitted in 1902."

STRIKE ON ASHEVILLE STREET CAR SYSTEM

Asheville, N. C., April 26.—Nearly 100 employes of the Asheville Power & Light Co., comprising the entire force of motormen and conductors operating the street railway system of this city, went out on a strike at noon today after taking their cars to the barns.

The strikers who are being advised and counseled by George Keenan of Rochester, N. Y., fourth vice president of the Amalgamated Association of Street Car Men of the United States and Canada, demand an increase in pay at a rate of from 21 to 25 cents an hour, instead of the old rate, 18 to 21 cents an hour.

The demands of the men were first presented to the company April 19, and various meetings have since been held. Negotiations terminated at noon today when the company was informed by telephone that the cars were "on the way to the barns." The company, the strikers say, refuse to submit the claims of the men to arbitration.

Officer employes and street workers of the company operated about half the usual number of cars today but all were withdrawn about 8:30 tonight. This action followed successful attempts on the part of a mob of boys and young men to cut the trolley ropes of the cars. The company announced tonight that no cars will be operated tomorrow but it is expected that sufficient men to operate the entire system will arrive here for work on Monday.
