MERCHANTS' SUPPLY CO.

"Recognized Leader Among Typewriters"

Consider all that is meant by these words

Leadership means superiority of product—a superiority which produces leadership and is proved by leadership. It means more than this. It means everything associated with the word **FIRST**.

The Remington Typewriter is first in history, first in prestige, first in quality, first in recent improvements, first in size and completeness of organization, first in distribution, and first in service to the customer.

The word **FIRST** in every department of leadership applies only to the

Persons calling for any of these letters will please say "Advertised," and give date of advertised list.

F. L. Williamson, P. M.

Value of Cover Crops.

1. It prevents loss of soil fertility by washing. Lands that lie bare during the winter may lose more plant food by leaching than is used by the crop that grows there during the summer.
2. It furnishes grazing to stock at a time when food of all kinds is scarce. It also produces health and vigor in animals and keeps up a good flow of milk of dairy cows.
3. If we establish an enduring and prosperous agriculture in the State we shall have to get humus (vegetable or organic matter) into our soils. Growing a winter cover crop is one of doing this. All farmed lands should grow at least two crops per year, a sale crop and a soil improvement crop whether this is left on the land or first fed to the stock and then returned there. A decline in soil fertility is not always due to the absence of nitrogen, potash or phosphoric acid. It is often due to the absence of humus.

There are ten or twelve plants that are suitable for winter growing in North Carolina. One or more of them is adapted to the various soil types and sections of the State. We shall be pleased to enroll all farmers who will carry forward this all important movement.

Cordially yours,
 Raleigh, N. C. C. R. Hudson

Vital Educational Questions Discussed. Publication Bristling With Interest. Free While They Last. New Buildings Approach Completion.

Elon College, N. C. August 8, 1913.

The Vacation Number of the College Bulletin is just from the press of the publishing house here. It is dedicated to the outgoing senior class and stamped blue, the class color. This number is beautified by bright new views of the College building and grounds. The views that will attract most attention are those of the new \$26,000 gymnasium for men and the New dormitory for the young ladies, which is to furnish board on the cooperative basis at cost.

But the most remarkable thing connected with this number is the straightforward, frank, masterly way in which the most vital questions of the modern day are discussed. The elective system, specialization, practical education, vocational training, spiritual development these and kindred themes make it a most valuable addition to educational thought.

Dr. W. W. Staley discussed a trite theme in his article on Christian Education, but the discussion is not at all a trite. He gives a new interpretation to the matter and grips the readers interest from the start.

Information from the Presidents Office authorizes your correspondent to state this publication may be had free postpaid while the issue lasts. The Opening Number of the Bulletin is now in the press.

The work on the New West Dormitory is rapidly forging ahead and will be completed before the opening of the fall term. Most of the rooms in it have already been engaged and it bids fair to be most popular centre of college life and spirit. The new water tank is also nearly completed.

Preparations are being made for the Farmers Institute here August 21. It is to have the picnic feature and the farmers' wives and daughters will also have parts of interest to them and helpful to their work, aside from the big dinner they will prepare. The picnic will be on the College Campus and the institute will be held in the Administration building.

Farms for Sale!

183 acre red land farm 1-2 mile South of Mebane.
 100 acre red land farm 2 miles South of Mebane.
 200 acre red land farm 2 miles West of Mebane.

Aid to Busy Folks

The telephone aids the busy farmer to keep in touch with neighborhood affairs even during the rush season. He can call his neighbors in the evening and discuss the events of the day and arrange plans for community work after the crops are laid by.

Every farmer needs the help of the telephone. See the nearest Bell Manager or send a postal for our free booklet and see how small the cost is.
