Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health.

Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. E. Ayers, of Sabin St., Montpelier, Vt., says: "I was afflicted with constipation and biliousness for years, and at times became so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are suffering from habitual constipation and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "keep your bowels clean," and it's good advice.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory, your money is returned.

MILES MEDICAL CO., Elkhart, Ind.

SELFISH MEN.

Representative Martin B. Madden, in an address in favor of woman suffrage, said:

"It seems to me that the men who oppose the suffrage are selfish. They want to have the best of everything without paying for it. They remind me of the clerk.

"A clerk and a lawyer were on the way down town on the trolley the other morning when the lawyer looked up from his paper and said:

"My, that's a pretty girl over there in the corner."

"The clerk looked up from his paper in his turn. Then he smiled.

"I know her," he said. I know her well."

"Holy smoke, man," said the lawyer, "if you know her why don't you go over and sit with her?"

"I will," the clerk answered, "as soon as she pays her fare." —Washington Post.

HIS OCCUPATION.

The Housewife—you have the appearance of a hard drinker. The Hobo—Madam, you wrong me. Since we specialized the profession I am regarded merely as an expert sampler. Tanks for de pie.—Cleveland Plain Dealer.

HEALTH SUPERVISION OF CHILDREN BEFORE SCHOOL AGE.

(Department of the Interior Bureau of Education.)

That special medical attention should be given to children in the four or five early years before school begins is asserted by Dr. David Forsyth, an English physician, whose views are published in a bulletin just issued by the United States Bureau of Education. Dr. Forsyth declares that medical inspection of elementary school children points to a wide spread physical deterioration during the first four or five years of life, which leaves the majority of children with serious but preventable defects.

"Little or nothing has been done as yet by way of solution," says Dr. Forsyth. "Preventive measures limited to the first years are unlikely to have much influence in warding off later troubles. A gap, at present unbridged, stretches from the first year to the fifth, when the school medical inspection begins."

As suggested remedy Dr. Forsyth describes a plan adopted in the city of Westminster, England. In January 1912 a medical inspection center was opened for children of school age in the Northern half of the city. Here a staff of health visitors is maintained, to get into touch at once with every family where a child is newly born. Through this staff every child in the district is kept under medical supervision from the time of its birth until the end of its fifth year, the purpose being to hand the child over sound and healthy, to the school authorities.

Of 374 children examined during the first year of the center, 131 were under 1 year of age, 77 under 2 years, 83, 50, and 33 under 3, 4, and 5 years, respectively. The medical record cards showed a rapid rise in the tide of disease with each year of life. It was found that while most children in the first period are healthy, only a small minority come through to the fifth year without at least one physical defect of some kind.

Dr. Forsyth concludes: "Large numbers of children, healthy in all respect at birth, become within five years the physically defective entrants whom the education authorities have to receive at no small cost, to restore, so far as possible, to their original state of health. Yet most of these cases are preventable, or, if taken in time, can be remedied more speedily, and therefore more cheaply, than if left until school age, by which time not a few will have received permanent damage—physical or mental. The problem of the defective child largely resolves itself into the problem of the under-school age child, and seems hardly likely to be solved by anything short of a general plan insuring to all children regular medical supervision from birth to school age. And this, to be fully successful, must run side by side with educational measures for instructing the mothers themselves who, from ignorance far more than from willful neglect or even from indigence, are unable to safeguard their children's health."

A DANGEROUS TOWN.

"Hiram writes that the first day he was in London he lost 12 pounds."

"Great Caesar's ghost! Ain't they got any health laws in that town?"—Buffalo Express.

MUTUAL PERFORMANCE.

"That widower seems all broken down."

"Then why doesn't he get repaired?"—Baltimore American.

WHAT CHICAGO DID TO THE DEMOCRATS.

(New York American Democrat)

Local issues were, of course, largely involved in the Chicago election which has resulted in the election to the Mayorality of Mr. William Hale Thompson, Republican, by the unprecedented plurality of 139,000. But Chicago is normally a Democratic city. Local issues have always been before the electorate, yet in the last fifteen years only one Republican has sat in the Mayor's chair. It is obvious, therefore, that this tremendous disaster to the Democratic party is of more than merely local political significance.

Throughout his campaign Mr. Thompson persistently pushed national issues to the front. For this he was ridiculed and criticized—and justly so—by those who rightly believe that municipal elections should be determinative of municipal policies only. But whatever may be said of his political ethics there can be no question of Mr. Thompson's political shrewdness. He rung the changes upon the Administration's vapid and futile policy in Mexico. He denounced the Wilson tariff law for its failure to produce revenue and its success in depressing American industry. He levelled shafts of irony at piffle diplomacy and grape-juice naval administration. He excoriated the failure of the administration to seize this opportunity for advancing the shipping interests of American shipping. And he assiduously pointed out the fact that his Democratic opponent was the selection of Roger Sullivan, who as the representative of the Administration in Illinois, had just sustained an exemplary beating in his contest for United States Senator.

All of which was very repre-

hensible on the part of Mr. Thompson. He ought to have discussed the street railway problem, the finances of the city, or the perils and pleasures of a "wide-open town." But with keen political sagacity he saw that the way to overthrow the opposition was to tie its neck and crop to the Washington Administration. This he did, and the plurality of 139,000 in his favor is sufficient proof of the soundness of his judgment.

To Drive Out Malaria And Build Up The System Take The Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

PARKER'S TRIBUTE TO TAFT

The tribute paid by former Judge Alton B. Parker, Democrat, to William Howard Taft, Republican, at the Suffolk county dinner Saturday night was graceful and sincere. It is true that for the dignity of the bench and for conservative thought in general the former president has been a persistent, dauntless champion, and an efficient one judging by recent election returns, despite one great defeat. The applause with which the name Taft was greeted by the Suffolk county men was warmly spontaneous. Suffolk has never had much patience with the fads and frills of Progressivism.—Brooklyn Eagle.

THE SON OF A GUN.

SALE OF REAL ESTATE.

By virtue of the power contained in a certain mortgage executed by Henry Rogers to the undersigned on the 22nd day of September, 1914, and duly registered in the office of the Register of Deeds for Alamance county, North Carolina, in book No. 66 of Mortgage Deeds, pages 314-317, to secure the payment of a certain bond, conveyed a certain real estate, and whereas default having been made in the payment of said bond and interest, I will expose to public sale to the highest bidder for cash at the courthouse door of the county of Alamance, on Monday, May 10, 1915, at twelve o'clock P. M., the land conveyed in said Mortgage Deed to-wit:

A certain tract or parcel of land in Thompson township, Alamance county, State of North Carolina, adjoining the lands of William Bason and others and bounded as follows:

BEGINNING at a stone, corner with Bason and Newlin's line running North 45 deg. East with Bason's line 19 poles to a stone; thence 45 deg. West 24 poles to a stone; thence South 34 deg. West 4 poles to a stone, corner of Church lot; thence South 12 deg. East with said line to first starting, containing one and one-half acres, more or less, upon which is situate a three room frame dwelling.

This 31st day of March, 1915.
G. W. HOFFMAN,
Mortgagee.

NO BURNING DECKS FOR THEODORE ROOSEVELT.

Perhaps some of the Progressive leaders still think their party has a future, but Colonel Roosevelt is not one of them. He knows the jig's up, and is governing himself accordingly. —Kansas City Journal.

Pepsi-Cola Makes Rosy Cheeks and Healthy Children

We know of a large number of families who have adopted Pepsi-Cola as the beverage to use in the home, to drink between meals, and with the meals, who have the healthiest and most robust children to be seen today. There is no longer any doubt as to the

Superior Merits of Pepsi-Cola

As a beverage unequalled for indigestion. It is the very best drink available today for relieving that heavy, uneasy feeling after eating—AND WHEN USED CONTINUOUSLY you will never have indigestion.

Pepsi-Cola is The King of Drinks.
