If the average man tried to put away as much candy, sundaes, ice cream and sodas as some girls he'd be flat on his back with all the doctors in the neighborhood shaking their heads over him, the undertaker listening for the telephone to ring, and the minister and the lawyer stumbling over each other in their haste to get to his bedside.

Offer some men a chance to invest in something in their home town and they'll give you the laugh. Offer them stock in a gold mine or an oil well a thousand miles away and they're ready to sign on the dotted line before the salesman has gotten half way through his spiel.

For sometime past the colored residents of the community have been receiving a good grade of firearms through the mails. We are not sure but what this alone is an infraction on the law. But on last Sunday a bunch of colored boys loaded up with whiskey and guns, got a car to carry them for a joy ride and by noontime had safely landed in the lockup in Jonesboro, arrested for public drunkenness and carrying concealed weapons. We trust that the penalty inflicted on these boys will be at least enough to cure them from gun toting and drunkenness on Sunday—Chatham Record.

Savers and Winners.

It is very interesting to observe enthusiastic savers. We watch them as they come regularly to the bank to make their deposits. There is on their faces the smile that is peculiar to winners.

Their glory is not alone in the amount they save: they know that it is not always easy to save and are proud to have succeeded.

And then there is the fascination of growth! Only those who have really saved know the pleasure of watching a savings account grow.

A growing savings account is something to be proud of!
