

THE CHARLOTTE HERALD

(Founded January, 1917.)
Official Organ of The North Carolina State Federation of Labor, The Charlotte Central Labor Union and Affiliated Crafts And The North Carolina Farmers' Union.

Published Weekly By The Herald Publishing Company of Charlotte
At 82 South College Street, Charlotte, N. C.
Telephone 4126 Postoffice Box 163

Always boosting for a better community, stronger men, protected womanhood and unlimited opportunities for childhood.
We are endeavoring to promote a closer affiliation and a more effective co-operation between producers and consumers for the common good of all.

Entered as second-class matter at the Postoffice in Charlotte, N. C., under Act of Congress, March 3, 1879.

AND IN THE BEGINNING WAS PROTEST

BY CHESTER M. WRIGHT
Editor, International Labor News Service.

No. 1
LABOR began the long fight to establish its right to life as a part of the community, then to tear away the vast structure that separated it from the rest of the community—long days of toil, low wages and other economic restrictions.

COURT FINES UNIONS FOR QUITTING WORK.

The right to strike is challenged by the Supreme Court of Washington in its decision awarding \$20,000 damages to the Pacific Typsetting company against the Seattle local of the International Typographical union and the International itself.

LYING ABOUT MISS KELLEHER.

Just as another reminder that David Clark publishes incorrect and untruthful statements about people he doesn't like, we call attention to his reference to Miss Mary Kelleher in the issue of The Textile Bulletin, September 20.

tainly had time to ascertain the facts, though, before he publishes such statements about just as good a woman as David Clark ever met in his life.

HOW ABOUT THE EMANCIPATION?

"Remmel, of Arkansas, Declares Northern Migration Must Stop."
"Request Will Be Made for Legislation by Congress to Check the Movement."
Such were the headlines in The Charlotte Observer last Sunday, over a Washington Post story, telling of the visit of Remmel to the President, and the interview with Mr. Coolidge, in which the Arkansas informed the President that the "farmer and the business men of the south are alarmed over the labor shortage caused by the negroes going north."

Now Mr. Remmel wants Congress to enact a law that will prohibit the negro from going north, "where the demand for labor takes him away from the business men of the South."
Wonder just what the plan will be, an effective plan, that will keep any man, white or black, from going into any part of this great country of ours that he may want to visit.

AS TO MR. FLOWERS.

The special article written by Rev. Tom P. Jimison about Hon. J. Frank Flowers, which is but the beginning of a series of articles by the gifted Spencer minister about progressive and liberal citizens of North Carolina, is well worth reading. Of course it does not mention all the activities that Mr. Flowers has been engaged in for the advancement and elevation of the state's citizenship.

LABOR WILL KEEP ITS WORD.

Suggestion that the labor movement is seriously threatened by the "outlaw" strike was voiced by the directors of the National Association of Credit Men, meeting in Atlantic City.

SECRETARY DAVIS NOW KNOWS WHAT TO DO.

Secretary of Labor Davis will no longer be in doubt as to the proper course to pursue in his official duties. David Clark has given the cabinet members full instructions as to how best run the affairs of the nation.

The Herald is under obligation to the interested readers who write to this paper, and who send in clippings from other papers that they think will be interesting to the readers of The Herald.

J. L. Bradford, representing the International Carpenters Union, is in the city. He is well pleased with the growth the locals are making in this section.

Painters Local Union is climbing rapidly. The officers vow this city will be one hundred per cent by New Year's, and it begins to look like it.

The Plumbers Union has surprised the balance of the crafts with the rapid increase in membership being made now.

One contractor in the city, and a big one, too, is bringing bricklayers here from out of town. There is no bricklayers union here, and this contractor will have of other kind, it is high time somebody is getting busy.

Letters To The Editor

JUST KEEP THE GOOD WORK GOING.

Editor, The Herald:
I want to thank you for the very excellent editorial headed: "The Y. M. C. A. Night School—Road to Success," appearing in your September 28th issue and also for the excellent space given our little advertisement.

MOST VALUABLE THING IN THE LIFE OF THE WORKING MAN

Editor, The Herald:
Since good health is the worker's greatest asset, greater in fact than his wages, it is astonishing that so few workers are seriously interested in their physical well-being.

So many diseases are preventable that every man should become acquainted with the simple rules of disease prevention and apply them to his own life for the sake of his happiness and his pocketbook.

The worker's day is generally divided up into three parts; work, recreation, and sleep. The simplest way to begin a program of healthful living is to see that during each period he lives in such a way that he will be able to use to the utmost all of his capacities for earning a living and getting out of life.

The recreation period, of course, includes the lunch hour. A man who works at hard physical labor needs a substantial, nourishing lunch. This should include as large a variety of food as possible, as each food supplies the body with certain greatly needed food elements and only one or two contain them all.

To return to the recreation period. A short walk outdoors after lunch fills the lungs with fresh air which purifies the blood. If possible, walk to and from work, or at least a few blocks of the way.

These rules are simple, but they are far-reaching in their effect. If they are strictly observed, the amount of sickness for the whole family is bound to be reduced.

HELENA LORENZ WILLIAMS.
The preventable disease which causes the greatest amount of sickness and death among workers is tuberculosis. An organized national campaign is under way to educate people in regard to the rules of general health in order to prevent infection and active disease.

FIND TIME FOR PLAY UNDER 8-HOUR DAY

Gary, Ind., Oct. 3.—With the coming of the 8-hour day in the steel mills, thousands of workmen are finding time for outdoor recreation, which they had no opportunity of enjoying when working 12 hours a day.

Peter J. Peel, president of the United States Football association, which governs soccer in the United States, reports that soccer experts from Chicago are having great success in organizing soccer teams among the mill workers.

"When they worked 12 hours a day they had neither the time, the inclination nor the energy to play at anything. Now that they have four more free hours a day, the most natural thing in the world for them to do is to revive their interest in soccer.

"As a result the game of soccer is taking a greater boom in the vicinity of northern Indiana than in any other section of the United States at the present time.

"Employers are discovering that devotion to athletics is the finest thing in the world to develop efficient, happy and self-respecting workers. To play a good game of soccer at least once a week a man must take care of himself. He must get a little practice every day and he has no time for dissipation.

Judge Sam B. Hill, Democratic nominee for Congress in the Fifth Congressional district of Washington, who was endorsed by organized labor, defeats his Republican opponent, in special election.
