**KING HEROD WAS NOT SO REAL BAD**

**America Kills More Babies in A Month Than Herod Murdered Altogether.**

BY L. E. MONTGOMERY.

In the Bible we are told that King Herod was advised that a child was born in Bethlehem that would one day be king of the Jews. Then Herod was wroth, and sent some soldiers into Bethlehem and killed all male children under two years old. This was approximately 250 children.

A few years ago, it was said that the German Kaiser's army killed some Belgian children when his kingdom was in danger.

The following conclusions have been reached by the Children's Bureau of the United States Department of Labor:

"There were, in 1921, in the whole of the United States, 2,625,208 births, and 1,264,182 deaths (under one year of age).

"Low mortality rates were found among the babies of foreign-born Jewish mothers, and in families of the highest earnings groups.

"Employment of the mother away from home in the pre-natal period (chiefly in factory work) was accompanied by a high percentage of premature births and high infant mortality, especially from the causes peculiar to early infancy.

"Employment of mothers away from home during the first year of their babies lives also markedly increased the hazard to the baby.

"Room congestion and lack of sanitary equipment in the house were accompanied by death rates above the average.

"In the poorest families studied about one baby in six died within the year; in the most prosperous families about one baby in 26 died within the year."

Assuming that the most prosperous families constitute 30 per cent of the people of the United States; and the poorer families 70 per cent, and the death rate of the prosperous is one in 26, or about one-fourth that of the poorer families; we must admit that three-fourths of 70 per cent, or 608,534 babies died in 1921 because the families' income was not sufficient to provide for them properly.

It would have taken Herod 300 years to kill that many babies at the rate of 250 a year. And if we could manage some way to save these babies for 12 years, we would have as many people as Belgium ever had at one time. But, alas, that would have an attendant decrease the production of millionaires in America, and that will never do, gentle worker. You just be good and work hard and be contented with what you get. Vote just like your dady voted. Believe just what you say in the lick-spittle papers. Sit down and put your elbows on your knees, and rest your chin in your hands, and curse old Herod and Kaiser Bill. Then you will be a one-hundred per cent American or a dampfool one and I can't tell you which.
