

WATCH CHARLOTTE GROW 200,000 by 1930

THEY OWN THEIR HOMES IN CHARLOTTE

Sixty (60) per cent. of the dwellings in Charlotte, excepting only such as are occupied by the very small tenement class, are occupied by the owners.

No other city in the United States, with approximately the same population as Charlotte, has as large a number of home owners.

Charlotte has four Building and Loan Associations, with seventy-six thousand shares, owned by six thousand people.

Charlotte's Building and Loan Associations' disbursements

to six thousand shareholders for 1923 were \$2,300,000.00
Assets of the four associations (1923) 3,500,000.00

One of the four associations is forty-one, and the other is forty-three years old; and not one of the four ever sustained a loss from loans.

2 SERVICE STATIONS

Two plants of the Bierman Engraving Company render prompt and efficient service to the printers and engraving buyers of the Carolinas.

This map shows clearly the location of these service stations with respect to the principal cities and towns. We have available Highway Maps of both North and South Carolina, that with slight alterations will show the location of your service stations.

Our Art Department will help you prepare it. Come in while at the show and let's talk it over. The map in the corner shows our Charlotte location.
