(From the Overland Monthly.] About Christmas, in the 1856, Snowe Thompson saved the life of James sson, who had been lying in an old that time he ate the flour raw, just as it fur ez I've obsarved them. came from the sack. On the fifth day, while rummaging about the shanty, he had the good fortune to find some matches. These were where no one would have thought of looking for matches, as they were scattered about

under some hay that lay on the floor. After finding the matches Sisson made a fire and thawed out his boots, when he was able to get them off. For four days he had lain in the cabin with his boots frozen to his feet. When found by Mr. Thompson, eight days later, Sisson's legs were purple to the knees. Sisson was confident from the appearance of his legs that mortification had set in He knew that unless his legs were amputated he must soon die. As he could expect no assistance from the outside world he had concluded to himself to undertake to perform the required operation. There was an axe in the cabin, and with this he had determined to cut off his frozen legs. But for the opportune arrival of Thompson, Sisson would the next day have attempted to disjoint his legs at the knees; for that was the day he had fixed upon for undertaking

the operation. At the time he found Sisson, Thompson was on his way from Placerville to occupied in the summer as a trading and was knocking the snow off his shoes side he found Sisson situated as related above. A considerable amount of provisions had been left in the cabin in the fall, but all except the flour had been stolen by the Indians.

Thompson chopped a supply of wood for the unfortunate man, and making means at hand, left for Genoa to obtain assistance. While Thompson was cut ting the wood Sisson called out to him and begged him not to dull the axethe place being full of rocks as he might yet want it for the purpose of taking off his legs. Sisson was firmly of the opinion that when Thompson left him he would never see him again. He thought Thompson would never be able to get down out of the mountains, and was of the opinion that in case he did not attempt to return to the cabin.

Thompson told Sisson he would surely heat outen of Sol to sarcumveut it. return and take him away, and advised be pressed upon the arteries. Then with firebrands he would sear the ends promise that he would wait three days | fer keeps." before attempting to use it on his

Saturday I sail for New I beat two of the strongest Whigs in night Lord George got under way and my district, and I could have beat two went out of the harbor of Honolulu, more had they brought them on." - and when the Hawaiian ilag was hoisted next day, Admiral Kearney gave a Na-

tional salute. "An, Brown, don't you want to go on stopped drinking."

## A HEARTRENDING TRAGEDY.

Wife Drowns Herself and Four Children After a Quarrel With Her Hus-

A Coroner of London is now impanel ing a jury to investigate a domestic tragedy of world wide interest. It seems that a resident of Fulham, near the Thames, named Wilcox, passed a boy, aged seven, sobbing so acutely that Wilcox felt that something unusual had happened. To all his questions the little fellow, who was soaking wet, muddy and hatless, could only answer by heartbreaking sobs. Nothing vas left except to take the wandering waif to the police station hard by, where, before a roaring cannel fire, he managed to jerk out, "Mother is dead in the water, with baby, sister and my brothers, Harry and Frank. I want my father. lectures defying the plain law against It became evident that the boy was shockingly frightened, yet sooner growing calmer under the reviving influence of heat and some food, he gave his home as "133 Denmark road, Camberwell," a, suburban district on the Surrey side of the Thames and miles distant.

A telegram sent to the nearest station there soon produced the father, who is a well to do butcher, and who, on seeing the child, seemed to realize that some tragedy had occurred and almost fainted before the story was told. To his eager questions the child, reassured, now gave coherent answers, and these made up a story like this: - His mother left home neighbors cursed God, saying that he in the afternoon, carrying her cabe, five would cut His heart out if He would months old with her sons- Harry, aged come, calling him a liar and edwards nine; the narrator of the story himself, and flashing a knife. #### DANGEROUS DRUGS. How to Control Effectually All Such Hor-

A gentleman who has spent the summ abroad, said to our reporter, that the thing that impressed him most of all was the nun ber of holidays one encounters abroad and the little anxiety the people display in the conduct of business affairs. "Men boast here, he said, "that they work for years with out a day off; in Europe that would be con-Mr. H. H. Warner, who was present at the "This is the first summer in years that I have not spent on the water.

leen too busy." Then, I suppose you have been advertising extensively? Not at all. We have always beretofore closed our laboratory during July, August and September, but this summer we have kept it running day and night to supply th emand, which has been three times greater than ever before in our history at this sea-

"How do you account for this!" \*The increase has come from the univer-sal recognition of the excellence of our preparations. We have been nearly to years before the public, and the sales are enstantly increasing, while our newspaper advertising is constantly diminishing Why, high scientific and medical author ies now publicly concelle that our Warner's safe cure is the only scientific specific for kidney and liver diseases, and for all the many diseases caused by them."

Have you evidence of this." 'Abundance! Only a few weeks ago Dr Stephens, of Lebanon, Chio, a specialist for the cure of narcotic, etc. habits, told me that a number of eminent scientific medical men had teen experimenting for years, test ing and activeng all known remedies for the kidneys and liver, for, as you may be aware, the excessive u c of all narcotics and stimulants destroys the e organs, and until they can be rest red to health the habit cannot be broken up! Among the investigators were such men as J. M. Hall, M. D. President of the State Board of Health of Iowa, and Alexander Neil, M. D., Professor Surgery in the College of Physicians and Surgeons and president of the Academy of Medicine at Columbus, who, after exhaustive inquiry, reported that there was no remedy known to schools or to scientific inquiry equal to Warner's safe cure 'Are many persons addicted to the use of

deadly drugs "There are forty millions of people in the world who use opium alone, and there are many hundreds of thousands in this country who are victims of morphine, opium, quinine bere nothing now in the peculiar feel- a sudden impulse, the mother turned and cocains. They think they have no such ing of your tongue or nothing in the into the Broomhouse dock yard, near habit about them-so many recopie are unnumbness of your brain that indicates the Harlingham Polo Grounds, and all conscious victims of these habits. They have pains and symptoms of what they phemies or is already avenging them? dock water, and with her babe in arms, reality it is the demand in the system There are hundreds of such cases Fam- herself jumped in. Charlie, who must for these terrible drugs, a demand that lies keep them still to avoid the horri- have fallen in a somewhat shallow is caused largely by physicians pres riptions which contain so many dangerous drugs, and strong spirits, and one that must be answered or silenced in the kidneys and liver Mr. Talmage was asked for a circum- escape. When the inspector questioned by what Dr. Stephens ays is the only kidney stantial account of the blasphemer who the father, who, sobbing as badly as the and liver specific. He also says that moderate was miraculously hurned to death. His child, said:— "My wife and I had a clium and other drug eaters, if they sustain the kidney and liver vigor with that great remedy, an keep up these habits in modera-

"Well does not this discovery give you s new revelation of the power of safe cure?"
"No sic for years I have tried to convince the public that nearly all the diseases of the numan system originate in some disorder of and become deprayed and discused. "When these eminent authorities thus publicly admit that there is no remedy like ours to enable the kidneys and liver to throw off the frightful effects of all deadly drugs and excessive use of stimulants it is an admission f its power as great as any one could desire; for if through its influence alone the op u n, morphine, quinine, coe sine and it quor habits an be overcome, what higher testimon at of its specific power could be asked for " "You really believe then, Mr. Warner, that the majority of diseases come from hidney and liver complaints f'
"I do! When you see a person moping and groveling about, balf deal and half alive, Fulham Bridge the body of Frank, clad vear after year, you may surely put him in a neat gray frock and pinafore, once down as having some kilney and liver "The other day I was talking with Dr.

sler, the emment could tof this city, who and that half the patients who came to him for eye treatment were affected by a lyan ed kidney disease. Now many people wonder why in middle life their eye sight becomes so roor. A thorough course of treatment with Warner's sa'e cure is what they need more than a rair of eye glasses. The kidney poison in the blood always attacks the weak-est part of the body, with some it affects the eyes; with others the head; with others the stomach or the lungs, or rheumatic disorder follows and neuralgia tears them to pieces, or they lose the powers of taste, smell, or become invotent in other functions of the body. What man would not give his all to have the vigor of youth at comman if" only witness available being young and these complaints are but somptons, they are having had his memory obscured by ter-not the disorder, and they are symptoms not ror. Psychologists thus have no clew of disease of the head, the eye or stoma h, or of virility, necessarily, but of the kidney poison in the blood and they may prevail

and no pain occur in the ki nevs. It is not strange that the outnusiasm which Mr. Warner displays in his appreciation of his own remedy, which restored him to health when the doctors said he could not live six months, should become infectious a id that the entire world should pay tribute to its power. For, as Mr. Warner says, the sales are constantly increasing, while his awspaper advertising is constantly dimin-

ishing. This speaks volumes in praise of the extraordinary merits of his preparations. ONE YEAR'S PENSION PAYMENTS

# The Commissioner's Report Shows 365,-

783 Names on the Rolls. The Commissioner of Pensions has just issued his annual report, which shows that at the close of the fiscal year there were 365,783 pensioner, classified as follows: 265,854 army in valids, 80162 army widows, minor children and dependent relatives, 2,953 survivors of the war of 1812, and 13,397 widows of those who served in that war, showing a diminution in survivors For Spectar, Bares for advertising in this paper during the year of 1,406, and of widows apply to the publisher of the paper. to the rolls, making an aggregate of 43,086 pensioners added during the year. During the same period 22,089

to the rolls of 20,658. The average annual value of each pension at the close of the year is shown to he s122.23, a gain of average annual States; I niversal filstory of all Before Bismarck reconstructed the value over last year of \$11 88. The aggregate annual value of all pensions

are hunted so much.

## A Good Name

At home is a tower of strength abreat. This is fully verified by Hood's Sarsaparilla, which has a reputation at home unequaled by any other medicine. In Lowell, Mass., where it is made, whole neighbor boods are taking it at the same time, and the most remarkable unsolicited testimonials are received from Lowell people. The druggists of Lowell say th y sell more of Hood's Sarsapardia than of al other sarsapariilas or blood purifiers. The same wonderful success is extending all over the country as the superior curative powers of Hood's Sarsapa rilla become known. For any affection camed by impure blood or low state of the system try the peculiar medicine " "All I ask of any one is to try one bottle of Hood's Sarsaparilla and see its quick effect. It takes less

preparation I ever heard of. I would not be without it in the house."-MRS. C. A. M. HUBBARD, North Hood's Sarsaparilla

time and quantity to drawits effect than any other

#### Phil. Armour's Dandy.

Millionaire Phil. Armour has a pleasant custom of buying a suit of clothes once a year for each of his office emplovees. This year all but one of the poys visited a certain tailor on the south side and were measured for suits ranging from \$30 to \$35. The exception was a dude, who scorned the selections made by his colleagues. He wanted something gorgeous and tight fitting. After pawing over the fashion plates of the tailer he finally selected a piece of goods which would cost \$125 to build into garments. When the tailor, a few weeks later, sent his itemized bill to the big pork packer, the latter made inquiries for the purpose of finding out whether this young man with such esthetic taste was really so unfortunate

as to have to work. "Is he at work in any of our depart ments?" Mr. Amour asked, turning to one of his lieutenants. "Yes; he works in the \_\_\_ room.

was the reply.
"Eh, eh; has he drawn his money for this month?"

"No, sir; not yet." "Well, then, go get his salars and give it to me, and tell him I want to see im at once." When the dude tripped up to the millionaire the latter cleared his thoat

and said : "Young man, I like to have my clerks consider themselves on an equality with one another. In lo king over the tailor's bill I find that you rate yourself \$00 higher than the figures your colleanues. my service. Remember I'm an expert on hogs and know how to salt them .-

#### Chicago He ald. Hints to Consumptives. 2 nsumptives should use food as nourishing as can be had, and in a shape that will best

agree with the stomach and taste of the pa-Out-door exercise is earnestly recommended. f you are unable to take such exercise on perseback or on foot, that should furnish no excuse for shutting yourself in-doors, but, you

should take exercise in a carriage, or in some other way bring yourself in contact with the open air. Medicines which cause expectoration must be avoided. For five hundred years phy-

sicians have tried to cure Consumption by u ing them, and have falled. Where there is great derangement of the secretions, with engorgement of air-cells, there is always profuse expectoration. Now Piso's Cure removes the engorgement and the derangement of the secretions, and consequently (and in this way only) diminishes the amount of matter expectorated. This medicine does not dry up a cough, but removes the cause of it. When it is imposs ble from debility or other causes to exercise freely in the open air, apart ments o cupied by the patient should be so ments o cupied by the patient should be so vertilated as to ensure the constant accession of fresh air in abundance.

The surface of the body should be sponged as often as every third day with tepid water and a little soft-soap. (This is preferable to any other.) After thoroughly drying, use friction with the hand moistened with oil, Cod-Liver or Olive is the test. This keeps the

po es of the skin in a soft, pliable condition, which contributes mate ially to the unloading of waste matter from the system through this You will please recolore we care this d sease by enabling the opa's of the system to perform their functions in a normal way. other words, we remove obstruction, the recuperative powers of the system We will here say a word in regard to a cough n the f runng stage, where there is no constitutional or not coable disease. A cough may or may not foreshadow serious cyll; take its mi des form, to say the least, it is a A cough is unlike any other symptom of dis-

ease. It stands a conspirator, with threatening voice, menacing the health and existence of a vital organ. Its first approach is in whispers unintelligible, and at first too often unheaded, but in time it never falls to ma e itself understood -never fails to claim the attention understood—never fails to claim the attention of those on whom it calls.

If you have a court without disease of the lungs or serious constitutional disturbance, so much the better, as a few do es of Piso's Curs will be all you may need, while if you re far alvanced in Consumption, several bottles may be required to affect a permanent curs.

years thinking it was the holier.
