

THE CAUCASIAN.

Entered according to Postal Laws at Clinton, N. C., as second class mail matter.

CLINTON, N. C., - MAR. 28, 1889.

The State Guard will go into camp at Wrightsville on the 9th of July and remain until the 19th - ten days.

The party of North Carolina Teachers for a trip to Europe next summer is made up. Time, 6 weeks; cost, \$150.

John Bright, the great English statesman, is dying. He is unwell and has not tasted food for thirty six hours.

The fertilizer men say that so far they have sold only one-tenth as much of their stuff as last year. We hope it is so.

The Wilmington star was 21 1/2 years old Monday. We are glad to know that its circulation is larger now than ever before.

The Scotch Irish of the United States will hold a general meeting in Columbia, Tenn., on the 8th of May. Our Zeb is one of the speakers.

There was a meeting of Union and Confederate soldiers at the Academy of Music in New York City, one night this week with a view to aid the cause of the National Confederate Soldier's Home at Austin, Texas. Speeches were made by eminent men from both the Union and Confederate armies, and the meeting was a very harmonious one.

It is thought that when all the returns of the meeting will be counted that they will foot up into the thousands. This is a noble spirit in our Northern brethren to aid the maimed and suffering of their less fortunate brethren of the South, and it is meeting with approval all over the North, and genuine appreciation at the South.

When they saw the great smooth sheet of water which we call Albemarle Sound, saw the flocks of waterfowl skimming over it, saw the pleasant islands and the mainland and the beautiful (to them) strange-looking woods full of singing birds of rare plumage, full of grapes and full of flowers that made all the soft and sunny air sweet, they thought it was like Paradise.

The Indians came down to the shores to gaze at them, met them kindly, took them to their chief village to visit their king, and gave them the best they had to eat.

The English did not stay long. They were in a hurry to get back home and tell of this splendid, bright, fruitful country. They took with them many things which they easily bought from the Indians - furs of wild animals and specimens of native woods - the pine, the red cedar, the sassafras. They took tobacco, corn, and potatoes, none of which had ever been seen in England. They invited some of the Indians to go with them, and two did go.

And again in telling how Raleigh tried to smoke some of the tobacco and how one of his servants thought him on fire and threw a pail of water "over him to put him out," she says:

"Queen Elizabeth wished to try the tobacco too, and was made very sick by it. So she called up two of her maids of honor, and made them finish her pipe. And then, no doubt, they were all sick together.

How interesting this will be to the children of our State; they are not burdened with any unnecessary distasteful dates and figures, but are treated to a delightful story apparently told to them by Mrs. Spencer with them all together around her in her study. This fascinating style, however, is not kept up all the way through, but gradually drifts to that of the ordinary student's history. To illustrate again, we give another extract from the latter part of the book:

Our State has hitherto been almost exclusively agricultural. One natural gift points out that our greatest prosperity is yet perhaps to come from manufactures, and that is the enormous water-power distributed over our whole territory except on the seaboard. Our rivers and creeks, though we have none very large, are innumerable, and flow rapidly in their course. This is especially the case in the middle and mountain regions, where the descent of the streams from higher ground gives not only to the main rivers, but to every one of their branches, an immense amount of force. We probably have not the coal necessary to great manufacturing enterprise, but we have a water power in our streams equal to the labor of three million horses, or the force derived from four million tons of coal.

There is considerable difference between the styles of the two paragraphs, the latter is not so well adapted to, and will not prove interesting to children.

We notice that Lodge's History of the English Colonies is one of the books of reference used. We hope Mrs. S. was not influenced in what she says about the want of educational facilities in our State, prior to the Revolution, by this author whose book is very unjust

to our State. She says that as late as 1850 there was not a public library in the State except those at the Charles L. Smith's "History of Education in North Carolina" shows that there was a public library with many learned and valuable books in Edenton as early as 1725, one hundred and twenty five years previous, and the work also says that there were various schools in the state as early as 1704 and that in 1749 the legislature passed an act establishing a free school, while Mrs. Spencer's book leaves the impression that there was no school established by legislative enactment earlier than 1766.

But our article is growing too long. Upon the whole Mrs. Spencer's book is a valuable addition to North Carolina literature, and we would advise all our teachers to use it in their schools. Mrs. Spencer is the best equipped woman in the State for writing such a work and probably none could have done it better, save President Battle or Dr. Kingsbury of the Wilmington Star. We suppose she consulted with the former and if she had also consulted the latter we might have had a perfect book. The teachers and pupils of our state are under many obligations to the authors of which must have been a work of love and pride, for our people buy and read so few books that she can certainly not be repaid in money for her research and labor in preparing it.

SENATOR E. W. KERR INTERVIEWED.

Senator E. W. Kerr was in Raleigh last week, when the Raleigh correspondent of the Wilmington Messenger elected the following information and opinion from him:

Senator Kerr, of Sampson, is here. He says that his idea as to the cause of the negro exodus is that the farmers work only four months in the year. In other words, they do not work enough. The negroes on the farm are therefore employed regularly only from March to August. The Senator says that the remedy for this is more work and steady work on the farms. The colored labor needs to be better directed and more steadily utilized.

Senator Kerr was to day complimented upon the progress made by Sampson county. A gentleman said "I am told you ship \$36,000 worth of whortle berries a year." "Make the figure \$80,000 and you will be right," said the Senator.

The shipment of \$80,000 worth of huckleberries is not the only thing Sampson boasts on. Our county, and especially Clinton, is making wonderful progress in many respects. If we knew who the gentlemen was, above referred to, we would send him a copy of THE CAUCASIAN, for in every issue it is pointing out with pride some industry or increased enterprise.

Y. M. C. A.

As stated in last week's CAUCASIAN the State convention of the Young Men's Christian Association convened in its 13th session in Wilmington last Thursday. There were thirty three Associations represented, numbering in all one hundred and seventy one delegates. Prof. W. A. Blair of Winston was elected President for the ensuing year. The next session will be held in Goldsboro.

This very commendable organization seems to be doing good. It is hardly fifty years since the first Y. M. C. A. of the world was organized in London, and it has not been much more than thirty since they began to be organized in this country.

President Harrison has nominated Frederick D. Grant, of New York, son of General U. S. Grant, to be Envoy Extraordinary and Minister Plenipotentiary of the United States to Austria; and John C. New, of Indiana, to be Consul-General to Lisbon.

How is this?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by taking Hall's Catarrh Cure.

MRS. SPENCER'S HISTORY.

In our issue of the 14th we referred to a little book just published, "First Steps in North Carolina History," written by Mrs. Conelia P. Spencer of Chapel Hill. Through the courtesy of the publishers, Messrs. Alfred Williams & Co., we received a copy for examination, which we have just finished reading. It is cleverly written and will be widely used as a valuable text book in our schools; it is to N. C. History what Benes' Primary History is to U. S. History. The most essential feature in a Primary History is to interest and hold the attention of children. The most effective way to do this is to give simply an outline of the story of our progress in a purely narrative style, with pleasant stories of little incidents woven around the leading characters in the most important events. This inspires in the child a love for history, makes an indelible impression upon its mind of the leading points in history that will be distinctly remembered even in ripe old age.

There are more people to day who were first inspired with a love for history and who have now on their tongues ends leading points in ancient and modern history from a reading of Abbott's interesting series of little narrative biographies from Cyrus to Napoleon than from any other books ever written.

The style of the first part of Mrs. Spencer's book is admirable for this purpose. As probably none of you have yet seen the work, we will give an extract. In giving the account of Sir Walter Raleigh's first expedition sent to North Carolina that entered the inlet near Roanoke Island in July, she says:

When they saw the great smooth sheet of water which we call Albemarle Sound, saw the flocks of waterfowl skimming over it, saw the pleasant islands and the mainland and the beautiful (to them) strange-looking woods full of singing birds of rare plumage, full of grapes and full of flowers that made all the soft and sunny air sweet, they thought it was like Paradise.

The Indians came down to the shores to gaze at them, met them kindly, took them to their chief village to visit their king, and gave them the best they had to eat.

The English did not stay long. They were in a hurry to get back home and tell of this splendid, bright, fruitful country. They took with them many things which they easily bought from the Indians - furs of wild animals and specimens of native woods - the pine, the red cedar, the sassafras. They took tobacco, corn, and potatoes, none of which had ever been seen in England. They invited some of the Indians to go with them, and two did go.

And again in telling how Raleigh tried to smoke some of the tobacco and how one of his servants thought him on fire and threw a pail of water "over him to put him out," she says:

"Queen Elizabeth wished to try the tobacco too, and was made very sick by it. So she called up two of her maids of honor, and made them finish her pipe. And then, no doubt, they were all sick together.

How interesting this will be to the children of our State; they are not burdened with any unnecessary distasteful dates and figures, but are treated to a delightful story apparently told to them by Mrs. Spencer with them all together around her in her study. This fascinating style, however, is not kept up all the way through, but gradually drifts to that of the ordinary student's history. To illustrate again, we give another extract from the latter part of the book:

Our State has hitherto been almost exclusively agricultural. One natural gift points out that our greatest prosperity is yet perhaps to come from manufactures, and that is the enormous water-power distributed over our whole territory except on the seaboard. Our rivers and creeks, though we have none very large, are innumerable, and flow rapidly in their course. This is especially the case in the middle and mountain regions, where the descent of the streams from higher ground gives not only to the main rivers, but to every one of their branches, an immense amount of force. We probably have not the coal necessary to great manufacturing enterprise, but we have a water power in our streams equal to the labor of three million horses, or the force derived from four million tons of coal.

There is considerable difference between the styles of the two paragraphs, the latter is not so well adapted to, and will not prove interesting to children.

We notice that Lodge's History of the English Colonies is one of the books of reference used. We hope Mrs. S. was not influenced in what she says about the want of educational facilities in our State, prior to the Revolution, by this author whose book is very unjust

to our State. She says that as late as 1850 there was not a public library in the State except those at the Charles L. If we knew who the gentlemen was, above referred to, we would send him a copy of THE CAUCASIAN, for in every issue it is pointing out with pride some industry or increased enterprise.

Y. M. C. A.

As stated in last week's CAUCASIAN the State convention of the Young Men's Christian Association convened in its 13th session in Wilmington last Thursday. There were thirty three Associations represented, numbering in all one hundred and seventy one delegates. Prof. W. A. Blair of Winston was elected President for the ensuing year. The next session will be held in Goldsboro.

This very commendable organization seems to be doing good. It is hardly fifty years since the first Y. M. C. A. of the world was organized in London, and it has not been much more than thirty since they began to be organized in this country.

President Harrison has nominated Frederick D. Grant, of New York, son of General U. S. Grant, to be Envoy Extraordinary and Minister Plenipotentiary of the United States to Austria; and John C. New, of Indiana, to be Consul-General to Lisbon.

How is this?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by taking Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 16 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm.

WALDING, KINMAN & MARVIN, Wholesale Druggists, Toledo, O.

E. H. VAN HORN, Cashier Toledo National Bank, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists.

Alliance Department.

ORGANIZATION. President - Marion Butler; Vice-President - E. Rich; Secretary - J. D. Ezzell; Treasurer - S. A. Howard; Business Agent - G. A. Tate; Lecturer - N. H. Fennell; Chaplain - J. O. Tew; Sergeant-at-Arms - J. H. Jernigan; Doorkeeper - Charlie Crumpler.

Executive Committee - J. A. Oates, Chairman; R. M. Crumpler, M. M. Killeit, W. H. Thomas, W. K. Piggford.

Committee on the Good of the Order - J. A. Oates, B. S. Peterson, C. H. Johnson.

Query Committee - W. J. Craddock, M. M. Killeit, Abram Hobbs.

THE CAUCASIAN was adopted as the official organ of the County Alliance by the County Alliance, January 19th.

SEND NAMES OF DELEGATES. The Secretaries of the sub-Alliances will please bear in mind, that the list of delegates must accompany the report.

J. D. EZZELL, Sec'y.

STRAW POND. Our last regular meeting last Saturday was an interesting one. After the Order adjourned we were favored by a lecture by Bro. Marion Butler, President of the County Alliance.

SALEM ALLIANCE. At our last meeting last Saturday night, might have arrived before the business was completed, so we adjourned to meet again Wednesday to finish up business before the meeting of the County Alliance.

WILSON COUNTY ALLIANCE. We do not believe there is an Alliance in the State that works more congenially than does the Wilson County Farmers' Alliance. The membership of this Alliance are of our best and most prosperous farmers. The Alliance meets in regular monthly meetings on the first Friday in each month - Wilson Advance.

BLUFF ALLIANCE. At a regular meeting of Bluff Alliance, No. 577, it was unanimously resolved that this Alliance use not another ounce of premium guano now and forever, and it could doubtless have been of great advantage to them if they had resolved not to use any bought fertilizer six months ago and manufactured home-made manure. When farmers depend on buying guano, provisions and everything needed on a credit, they can't expect anything but a load on their "devoted" shoulders the remainder of their lives.

HOLDS OUT THE OLIVE BRANCH. How or why any farmer can be opposed to the Farmers' Alliance is really astonishing, because it is not in opposition to any profession but offers the olive branch of peace and good will to all men. When the farmers speak out boldly as they have for some time for equal rights, fair dealing, and justice to all, its enemies in coward-like accents are ever ready to explain: "Those insignificant organized farmers can't do anything; they are too poor, and need not organize for protection." The farmers who bravely stand shoulder to shoulder, hearts and hands united in one common brotherhood, with a determination to be a unit even to death, will eventually succeed. Let croaking members learn a lesson of patience, forbearance and brotherly love from those who are doing their duty by strictly abiding by the constitution; and I predict that the Farmers' Alliance will live throughout the succeeding years of time. There are outside friends who rejoice over its success, and speak very many words of encouragement. It is not an enemy to any profession, but is ever willing and ready to strike hands with them all. W. J. C.

RALLY UP, BRETHREN! THE CAUCASIAN looks very becoming in its bran-new suit. One subscriber says it reminds him of his sweetheart when rigged up in her Sunday clothes. Another says it looks like his wife in her best new dress; and writer thinks all old subscribers ought to pay up and renew their subscriptions with cash accompanying each order, and then an addition of 1,000 new cash subscribers. Rally up to this call, men and brethren!

W. J. C.

ORGANIZER'S REPORT. On Monday, March 18th, I lectured at Subordinate Alliance, Evergreen, No. 1,510, and exemplified the secret work of the Order. Tuesday, the 19th, I lectured at Clear Run School Alliance, No. 1,510. The officers are as follows: President, Dallas Herring; Vice-President, H. K. Herring; Secretary, W. Lee Robinson; Treasurer, Columbus G. Robinson; Chaplain, John O. Herring; Lecturer, Geo. Sikes; Assistant Lecturer, J. F. Brown;

Door Keeper, W. E. Herring; Assistant Door Keeper, Lucien Herring.

This Alliance is composed of excellent material but will never be very large in numbers, though strong, with good working members.

Wednesday, the 20th, I lectured at the School house in school district, No. 61. The attendance was not very large. I did not receive much encouragement to organize a Subordinate Alliance.

ISHAM ROYAL, Deputy Organizer.

DIRECTORY OF SUB-ALLIANCES. Hope Well, No. 676 D. C. McPhail, Sec'y; postoffice, Beaman's X Roads. White Oak, No. 343, J. D. Parker, Secretary; postoffice, Clinton. Delta, No. 874, W. H. Russ, Secretary; postoffice, Delta. Reddick, No. 1,120, W. J. Rivenbark, Secretary; postoffice, Magnolia. Laurel Hill, No. 583, M. M. Killeit, Secretary; postoffice, Clinton. Rye's Bridge, No. 582, D. W. Tew, Sec'y; postoffice, Beaman's X Roads. Keener's, No. 578, G. W. Highsmith, Secretary; postoffice, Keener. Ingold, No. 653, J. W. Green, Secretary; postoffice, Ingold. A True Tonic. When you don't feel well and hardly know what ails you, give B. B. B. (Botanic Blood Balm) a trial. It is a true tonic.

T. O. Callahan, Charlotte, N. C., writes: "B. B. B. is a fine tonic, and has done me great good."

L. W. Thompson, Damascus, Ga., writes: "I believe B. B. B. is the best blood purifier made. It has greatly improved my general health."

Ad old gentleman writes: "B. B. B. gives me new life and new strength. If there is anything that will make an old man young it is B. B. B."

P. A. Shepherd, Norfolk, Va., August 10th, 1888, writes: "I depend on B. B. B. for the preservation of my health. I have lived in my family now nearly two years, and in all that time have not had to have a doctor."

Thos. Paulk, Alapaha, Ga., writes: "I suffered terribly from dyspepsia. The use of B. B. B. has made me feel like a new man. I would not take a thousand dollars for the good it has done me."

W. M. Beshire, Atlanta, Georgia, writes: "I had a long spell of Typhoid Fever, which at last seemed to settle in my right leg, which swelled up enormously. An ulcer also appeared which discharged a painful matter a day. I then gave B. B. B. a trial and it cured me."

Do you not take an interest in the development and progress of Sampson county? THE CAUCASIAN is laboring for that very purpose.

NOTICE. LAND SALE. ON MONDAY THE 1ST DAY of April, 1889, at the Court-house door in Clinton, by virtue of decree of the Superior Court of Sampson county, the undersigned will sell at public sale, to the highest bidder, on a credit of 12 months, except 20 per cent. cash, the tract of land belonging to the estate of the late Ross Peterson, on the east side of Six runs, adjoining the lands of the heirs of Josiah Johnson, Samsen Johnson and others, containing one hundred and seventy acres.

G. W. MOSELEY, Adm'r Feb 21-tdc and Commissioner.

NEW ADVERTISEMENTS. NEW ADVERTISEMENTS.

WM. A. JOHNSON. Takes pleasure in announcing the arrival of early invoices of NEW SPRING GOODS!

And invites the attention of all buyers to the very low prices of same.

He is now preparing for his semi-annual purchasing trip to New York and is offering some Special Bargains!

To make room for his NEW SPRING AND SUMMER STOCK!

New Millinery Goods Will be received next week direct from the largest importers in America.

Don't buy till you examine the very latest styles, to be found only at WM. A. JOHNSON'S.

NEW GOODS AT J. A. FERRELL'S!

NEW CLOTHING, SHOES, DRY-GOODS AND HARDWARE

One lot of Calicoes at 5 cents per yard. Spring Goods will be coming in constantly. Cash customers would do well to call in and examine stock before buying elsewhere.

Respectfully, J. A. FERRELL.

Clinton Harness ESTABLISHMENT. IN NEW QUARTERS.

I have moved this week into my new quarters on Fayetteville street, neatly opposite the CAUCASIAN Printing Office, where I will be pleased to serve the general public as in the past.

It is unnecessary to tell you anything or my own make of Harness, for they always speak for their own merits when used. In addition I always keep a good supply of Northern Saddles and Harness, which I will sell at the lowest possible margin. Also the cheapest and largest assortment of Whips to be found anywhere. When you come to town be sure to call in and see for yourself.

Respectfully, W. B. STETSON.

March 8th, 1889.-3m

At My New Stand! Moved Yesterday, March 27th.

NEYT DOOR TO HANSTEIN'S, ON WALL STREET, FORMERLY OCCUPIED BY W. H. STETSON.)

I have moved to a larger store so that I can carry a Larger and Fuller Stock of General Merchandise

To meet the demands of my greatly increasing trade.

NEW GOODS COMING IN DAILY!

The same motto: "THE LOWEST POSSIBLE MARGIN," which has built up my trade, will be strictly observed in the future. Be sure to call in before buying.

Respectfully, T. M. FERRELL.
