

THE CAUCASIAN.

Entered according to Postal Laws at Clinton, N. C., as second class mail matter.

CLINTON, N. C.,—JULY 18, 1889.

THE CAUCASIAN'S RECORD. CIRCULATION: 1,542.

Cleveland said: "Public office is a Public Trust." Now we have it "Public office is a Family Roost."—Greensboro North State.

Why don't the workmen rally and make Mr. Carnegie a Senator from Pennsylvania?—Louisville Courier Journal.

The first bale of cotton of the season is reported from Georgia. It sold in New York for 16 1/2 cents. Are our people here not foolish in attempting to compete with a climate that can put cotton into market before the middle of July?

The Farmers' Encampment Association will convene this year at Mt. Holly, Gaston county, and remain five days from August 5th to August 10th. Five delegates from each township of every county in the State will be appointed to represent the various counties at the Encampment.

The Durham Plant, after congratulating Raleigh upon the removal of Trinity College to place, adds:

Raleigh is congratulated upon the further fact that her citizens have at last awakened to the importance of establishing manufacturing enterprises. The final location of her first cotton factory marks a new era in her progress. We look to see many new enterprises springing up there in the near future. The wagon factory and the cotton factory will act as incentives to starting other like enterprises.

Col. Bryce, the Chairman of the Democratic National Committee, has his eyes fixed on the four new States of the Northwest and is quietly laying his plans for a stubborn fight there next fall. He says there is a reasonable probability that two of the new States can be added to the Democratic column and that he will make a strong and vigilant fight in all four.

The clergymen of Charleston have held a meeting denouncing the verdict in the McDow murder case. They call it a "miscarriage of justice" and claim that it was the result of a vicious public sentiment, which regards the settlement of disputes by force with indifference, if not with approval. They very appropriately ask the question: "How can men like McDow be deterred from lawless acts except by the fear of punishment?"

Gov. Lowry, of Mississippi expresses himself as very much surprised that the prize fight between Sullivan and Kilrain was not stopped by the Sheriff of Hancock county, where it took place. If the Governor had faced the thousands of things at the ring that the Sheriff encountered, he would probably have appreciated the wisdom of preferring discretion to valor.—N. Y. Star.

"Thugs," yes "Thugs," is an appropriate name for the thousands of demoralized and degraded specimens of humanity who stood around the ring yelling and gloating over that seditious brute barbarism.

The Statesville Landmark in commenting upon the low and brutal attitude toward Sullivan and Kilrain finds in the disgusting affair another argument for Darwin's theory. It is very gratifying to find so able and level-headed an editor as Joe Caldwell taking about the same view of such a barbarism as did THE CAUCASIAN last week since so few other editors have been able to see anything in the affair to condemn. The Landmark concludes with the following paragraph:

And yet, the interest that the whole country has taken in these men and in this fight—an interest second only to that born of a national election—shows how much of the brute there is left in us all. Surely it must be that the evolutionists are correct and that we are, after all, descended from monkeys; else how is it that our instincts are so low?

AGRICULTURAL AND MECHANICAL COLLEGE.

Officers and Professors Elected and Many Details Perfected.

The trustees of the Agricultural and Mechanical College, who were in session in Raleigh last week, adjourned Friday night. Rep. W. E. Stevens, of this county, who is one of the trustees, returned Saturday, and through an interview we gather from him the following facts:

The Board elected the following officers and Professors for the new institution:

President—Ex-Gov. Thos. J. Jarvis. Professor of Agriculture, Live Stock and Dairying—Mr. Jos. R. Chamberlain, of Cornell University, now of the North Carolina Agricultural Experiment Station.

Professor of Horticulture, Arboriculture and Botany—Mr. W. Massey, of the Miller Manual School of Virginia.

Professor of Chemistry—pure and agricultural—Mr. W. A. Withers, of Cornell University, formerly of North Carolina Experiment Station.

Professor of English and Book-keeping—Mr. D. H. Hill, Jr., (son of Gen. D. H. Hill), now Professor of English in the Military and Agricultural College of Central Georgia.

Professor of Practical Mechanics and Mathematics—pure and applied—Mr. J. H. Kinley, of Texas Agricultural and Mechanical College.

Foreman of Farm and Garden—Mr. B. S. Skinner, of Hertford county.

Stewart—Mr. J. M. Hubbard, of Wake, (a one leg Confederate soldier).

Matron—Mrs. Susan C. Carroll, of Harrell's Store, Sampson county, N. C.

Gov. Jarvis declined to accept the position of President, whereupon the Board elected Prof. D. H. Hill Chairman of the Faculty to act as President till the Board sees fit to elect a man for the place.

The Board ordered that each county be allowed as many pupils, with free tuition, as it has representatives in the House branch of the Legislature. A competitive examination will be held at the courthouse of each county on Saturday, Aug. 3rd next for these positions. The applicants are required to stand fairly well in English, Arithmetic, Geography and N. C. History. The questions will be prepared by the Executive Committee of the Board, and will be conducted by the County Superintendent of Public Instruction, assisted by at least two members of the Board of Education of each county. The College will open for work on Thursday, October 3rd.

D. B. NICHOLSON, ESQ., AT TRINITY.

We clipped the following comment on Mr. Nicholson's Alumni Address at Trinity from the State Chronicle a few weeks since, but had overlooked it till just now. It is such deserving praise on such an excellent, appropriate and masterly effort by one of Sampson's sons that we publish it even at this late day:

At eight o'clock Wednesday night, D. B. Nicholson, Esq., of Clinton, greatly delighted a large audience which had assembled to hear the alumni address. He took an old but seldom used subject—"Our Alma Mat." He went far back in her history and brought her from her humble days of a log cabin to the light that now stands in the presence of a large building. He paid just tributes to old Dr. Brantly York, Mr. L. M. Leach, Jno. A. Gilmer, and delivered quite a eulogium on Dr. Braxton Caven. Coming to the present time he undertook to show Methodists what they should do for their educational center and called for them to rally. He touched upon the idea of removal and did so in very striking words, after which he sketched college life at present. Referring to the athletic sports he mentioned "roving ball," and in naming the different positions rusher, half-back, quarter-back, &c., he thought that it was well to amend by adding broken backs. He also recommended that they add a twelfth man called the Smasher, and told us that if they established that position he would gladly offer his services for the coming season. [In all this Mr. Nicholson was wise. This thing of college boys running all over the State playing football is dangerous to body, and is certain to retard progress in study. We salute Mr. "Smasher" Nicholson.—Editor.]

The address was well delivered and was most entertaining and instructive as well as abounding in glorious little references to the mischievous side of college life. It held its own and reflected great credit to the honored alumnus.

Mr. Nicholson's speech was by all odds the finest Alumni address delivered at Trinity since the war, in fact we may say in the whole history of the institution. This is the verdict of those who heard him.—Editor, CAUCASIAN.

CUMBERLAND NEWS.

[Continued from 1st Page.]

ed upon the boys with umbrellas and walking canes. This was an interesting and exciting moment.

Hon. E. T. Roykin, Sheriff J. M. Spell, Dr. R. H. Holliday and M. M. Hall, Esq., of Sampson, paid pleasant visits to the boys of Co. F. during the past week.

The boys of Co. F. are all enjoying themselves and are sustaining their past record fully. No sickness of any consequence has yet been in camp.

Several boys, from different companies, were overcome with heat while on parade in the heat of Wednesday, before noon, but all soon entirely recovered.

The Const Battery was completed Saturday and artillery practice will take place some day in the early part of this week. The battery is furnished with two large guns and four mortars, six guns in all.

The Encampment is a grand success, and those of contrary opinion should only come and see it to be convinced of the error of their opinion. The boys get tanning here that they would never get anywhere else, training that is necessary in order to get even a slight conception of military life. The small appropriation made by the State is not more than is due the soldier boys, and it is only to be regretted that the State is not able to do more for them.

Many distinguished visitors have been present at the Encampment, and all we have heard express themselves, as of the opinion that the Encampment is a grand thing.

The readers of THE CAUCASIAN will be furnished next week with an account of everything of interest that may occur within the remaining days of the Encampment.

A SIGN OF PROMISE.

The Statesville Landmark in its last issue clipped our item about the Cleveland and Fowle flag pole at this place, and points a moral thereto by citing a biblical passage in proof.

During the last presidential campaign a flag pole of cypress was erected in Clinton and a Cleveland and Fowle banner attached thereto. Some months ago the pole was cut down and a vigorous sprout has risen from the stump and is rapidly growing. This is probably indicative that though Cleveland was downed in the last election yet Democracy will be rejuvenated and he will come again in 1892.—Clinton Caucasian.

We feel warranted in saying that the brother has read the sign correctly. The case has its exact parallel in the Scriptures. The brother will remember that on divers occasions while the children of Israel were in the wilderness they were very fussy, and on one occasion they got into a wrangle as to the superiority of the houses of Levi and Aaron in the priesthood. Thereupon the Lord told Moses to speak unto them "and take of every one of them a rod according to the house of their fathers, twelve rods, and to write every man's name upon his rod and to lay them all up in the tabernacle of the congregation. Now see the promise and what followed:

"And it shall come to pass, that the man's rod, whom I shall choose, shall blossom; and I will make to cease from me the murmurings of the children of Israel, whereby they murmur against you.

"And Moses spake unto the children of Israel, and every one of the rods gave him a rod apiece, for each prince one, according to their father's houses, even twelve rods; and the rod of Aaron was among the rods.

"And Moses laid up the rods before the Lord in the tabernacle of witness.

"and it came to pass, that on the morrow Moses went into the tabernacle of witness; and behold, the rod of Aaron for the house of Levi was budded, and brought forth buds, and bloomed blossoms, and yielded almonds."

This is the history of "Aaron's rod that budded," and it throws a world of meaning into a large fact that Grover's stump has sprouted.

10,000 Customers WANTED!

We are still continuing the fight, and are leading in Low Prices. We do not intend to have any summer goods left on hand by August 15th. Everything in the line of D-Y Goods, Clothing, Hats and Shoes must and will be sold.

Lee's Backache Plasters. In North Carolina's sunny climate, their warm rosin vapors, fumes, and odors exert an influence seldom met with in our climate. In rubbing to the skin, they produce a tingling, itching, and burning sensation, and many a pang along the spine is relieved. Lee's Plasters do it all. You can cure a bad case of Backache quicker with one of these plasters than by any other application, and after the backache is cured, you can still wear the plaster with comfort for a month, or longer. This plaster is a great discovery, and it is hard to find any pain or ache that will not yield to its power. Prepared only by T. J. LEE, Druggist.

LEE'S WART SPECIFIC. A certain cure for warts on horses and mules as Col. John Ashford, Capt. Cornelius Patrick, Capt. W. Lucius Faison, Mr. W. H. Faison, Col. Abner M. Faison, and hundreds of others in Sampson and adjoining counties will testify. Sold only by T. J. LEE, Druggist.

WORMS IN HORSES. Lee's Worm Specific never fails to expel worms from horses and mules. Warranted in every case. Sold only by T. J. LEE, Druggist.

HORSES AND CATTLE POWDERS. We offer under this head the best condition Powders in the market. They are prepared by the leading Drug House of the United States, from the formula of Dr. Williams, of England, the most distinguished Veterinary Surgeon living. They are excellent appetizers, a general alterative and tonic, and can be relied upon as a remedy for all diseases of domestic animals. They are composed of Licorice Root, Juniper Berries, Flaxseed, Gentian, Ginger, Iron and Astimony. Sold only by DR. A. M. LEE & BRO., Druggists.

Owing to the continued cold weather our stock of Summer Clothing is much larger than we had hoped for it to be at this time of the year and the short space allowed us to sell it in forces us to push things and sell when we can. It's for you to strike the iron while it is hot.

We are going to sell. We have the cash old stock over year. Its origin each season and clean Stock hand must be before the fall. 10,000 customers to do it. Therefore call and let us begin our annual closing sale.
