A SAMPSON INVENTION
That Supplies a Long Felt Want.
The Farmer's Non-Friction Rein Ring, invented and patented by Mr. J. C. Hobbs, a member of our present efficient Board of County Commissioners, is fast growing in popular favor. We give below a cut showing how it is attached to the backbands.

It is cheap, simple, convenient and useful, and when once used is almost indispensable to complete a set of plow harness. The plowboy everywhere will hail the invention with delight, and the man who buys the plow-lines will be no less pleased with the saving of expense. There will be no more sawing and trimming of harness into rings in an effort to supply what Yankee ingenuity had so far failed to furnish. Yes, Mr. Hobbs has got the drop on the Yankee, and at the same time has conferred a great blessing upon his brother farmers. Every one who has used the rolling ring is greatly pleased with it. Read testimonials from men whom you know, in another column.

Corner Stone.
The corner stone of the Methodist Church at Clinton will be laid by the Masons and Odd Fellows on Friday, March 7th, 1890. The public generally are invited to be present. There will be an address by some distinguished speaker from abroad. The ladies of the church will serve refreshments at reasonable prices, and everybody will be offered an opportunity to contribute to the building fund. The object is to raise funds to push the church to a hasty completion. Let everybody help. When completed the church will indeed be a thing of beauty, and an ornament to our town and county.

We also found one dwelling in course of erection, and learned that several more will be commenced. We learned that Capt. Autry had shipped eighteen carloads of rosin and four car loads of spirits. A Sampsonian at Trinity.
(SPECIAL TO THE CAUCASIAN.)
TRINITY COLLEGE, N. C.,
February 1st, 1890.
Mr. Editor—It is with cherished anticipations that I look forward to the distribution of the mail on Friday days to find THE CAUCASIAN. Its reading matter is much more interesting to one who is excluded from the direct current of neighborhood news. Even the advertisements are interesting and tend to revert the mind to the neighborhood, its station or industry.
There are four "newies" (one of whom are we) who matriculated for the spring term, making about 100 students.
Trinity is a healthy and pretty place. The landscape and scenery infuse a higher degree of idealism in the most sluggish or dormant.
Within a radius of several miles, we can see houses, hill-tops and mountains, including the beautiful Shepherd mountain, distant twelve miles; just far enough to lend enchantment to the view.
The terrible disease, La Grippe, has been threatening several of the students during the last two weeks, though no serious attacks have developed. It appears to be very spasmodic in its nature, but the spasms don't arrive till just before examination days, and gradually subsided as the shout of the football team is heard on the campus. It was this writer's pleasure or astonishment rather to witness this evening the first game of football according to the Rugby plan. He had often pictured in his mind the encounters they have from the vivid description of its technicalities by Thomas Hughes' "Tom Brown at Rugby." But you can imagine his chagrin when he takes a stand a little behind "Beety Black," "Cub," and a few others, as "half back," and receives the ball "half front" in the forehead, and then was asked by several "Why didn't you rush and make good the goal?" But as yet this writer and student has been unable to find its goal, and its purpose is much more obscure.
The ladies gave an oyster supper at the College building last night, the proceeds, (which netted about \$30) was to furnish the parsonage at this place.
Mr. Chas. Ober, National Secretary of the Inter-collegiate Y. M. C. A. held a meeting in the Chapel yesterday. He is well posted in his work, and delights to give any information that he can as to the best methods of organization.
We saw quite an odd sign over the store door of a merchant at a station on the P. & L. railroad. It was this: "M— dealer in Grocers." We desire to know where he bought his stock of goods. T. T. J.

Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50 cents a bottle, at R. H. HOLLIDAY'S Drug-store."

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, purgative, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, writes her experience below.
To Get
"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's, he told me they would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it. Miss ELLA A.
