THE EDITOR'S CHAIR.

HOW THINGS LOOK FROM OUR STAND POINT.

The Opinion of The Caucasian and the Opinion of others which we Can Endorse on the Various Topics of the Day.

Yesterday was the 25th anniversary of the sublimely sad climax of the most terrible war and grandest tragedy recorded in history. On April 9th, 1865, the peerless and beloved Gen. Lee surrendered to Gen. Grant at Appomattox Court House.

A number of our subscribers have mistaken the article on the "Monetization of Land" in the last issue, under the head of "Forum of Public Opinion," for an Editorial, and we suppose the mistake arose from the position of the article.

Mr. Bartholdi, the great artist, in whose brain was conceived the idea, and by whose hands was moulded the great statue of Liberty, expresses himself as being horrified at the idea and plan of Secretary Windom to turn Bedloe's Island, the foot-stool of "Liberty Enlightening the World," in New York harbor, into a dumping ground for immigrants.

Our Farmers' Column.

SOMETHING INTERESTING TO THOSE WHO TILL THE SOIL.

"There is no material progress that is well named and permanent without agricultural progress."

THE FARMERS' INSTITUTE.

A Well Attended, Very Interesting and Highly Profitable Meeting.

MUCH LEARNING AND EXPERIENCE, VALUABLE POINTERS, AND INTERESTING DISCUSSIONS ON MANY SUBJECTS OF PRIME IMPORTANCE.

Home-Made Fertilizers, Stock and Swine Raising, Silos and Ensilage, Fruit Culture, Etc., Etc., Etc.

In response to an invitation from the Sampson County Agricultural Society, Col. John Robinson, State Commissioner of Agriculture, and Prof. Massey and Chamberlain, of the Agricultural and Mechanical College, arrived in Clinton on last Thursday evening for the purpose of holding a County Farmers' Institute on Friday and Saturday.

FIRST DAY.

On Friday morning, in a spite of the inclement weather, a goodly number of our best farmers had put in their appearance to attend the Institute.

SECOND DAY.

The Eastern Reflector, in a leading editorial, has the following to say of our distinguished townsman: His Honor, Judge Boykin, has just closed a two weeks term of our court, and it is no reflection upon the distinguished Jurist who have preceded him to say that no court was ever held in the county which gave more universal satisfaction.

WOMAN'S SPHERE.

DRESS.

It is every woman's duty, first to herself, second to her family, and third to society to appear neat, attractive and to an advantage in every way possible.

The Charm of a Woman's Dress is its HEATH AND BEAUTY.

Mrs. Patti the famous beauty is a philosopher as well as an artist. "Good looks, which are nothing more than perfect health," she says, "are a woman's stock in trade, while her talent, whatever it may be, is her capital. I have treasured both, but in doing so I had foregone many of the pleasures that the multitude of women enjoy. I never fret! I not only believe but know for a certainty that women fret away their youth and beauty. Care is a disease of the mind and as insidious as any that preys upon the body. At table I eat to live. I have what I want, but I never want what I know to be unhealthy. Rare beef, fresh fruit and vegetables, bread and enough wine to keep me from choking make up my menu. I am very fond of coffee, but use it moderately. I am also fond of pastry and sweets, but never touch them. Success, if that is what you call my good health, I owe to fresh air, moderation and a quiet life."

HOME-MADE FERTILIZERS.

The following is the gist of the Professor's highly interesting and instructive discussion of the very important subject:

The slow and gradual development of farming can be traced down to the ages of antiquity. Each epoch has its improvements in agriculture, the same as in all departments of trade and professions. He who neglects to keep step with the march of time must, in the course of events, be behind and become the little fish in the great sea of progress.

THE TABLE.

It has been said, "there are but few things on which health and happiness depend more than on the manner in which food is cooked."

A List of Flavorings.

Last week in discussing the variety of preparation of food for the table, and pointing out the mistake most cooks make in using salt and pepper as a seasoning for every thing and at all times, we advised every housekeeper to take an inventory of her kitchen closet, and if it did not contain a dozen or more different kinds of seasoning, to make haste to supply the deficiency.
