THE EDITOR'S CHAIR.

HOW THINGS LOOK FROM OUR STAND POINT.

The Opinion of The Editor and the Opinion of others which we Can Endorse on the Various Topics of the Day.

Hon. C. W. Macure's and Col. L. L. Polk's speeches before the Senate Agricultural Committee, at Washington, a few days ago, were able and effective and will attract wide spread attention.

Many thanks to Hon. Z. B. Vance for his speech on the Montana election case. He never does anything by halves and is ever on the right path.

It seems to us that there ought to be one change made in the sub-Treasury Bill. It provides for government warehouses to be built in such counties as may market \$500,000 worth of product.

Gov. Fowle yesterday received a letter from Hodgson & Vaughan, Oil Merchants at Philadelphia, in which they say: "The American people will overwhelmingly endorse the acts of your Legislature against trusts."

The position of the wisest leaders of the Alliance, as we understand it, is that they believe in the Democratic theory of government: that the best government in the world is that in which the people are governed.

THE AIM OF THE TWO PARTIES.

Ex-Speaker Carlisle in the May Forum, replying to Dawes' review of the administration says: "It is true, as stated by Senator Dawes, that the issue between the two parties was clearly and sharply defined in the last campaign; but it is not true that the Democratic policy went down 'before the current of popular disapproval.'"

SAMPSON'S BILLARD.

A Farmer's Trials.—These New Fangled Days.

[Special Correspondence to THE CAUCASIAN.]

I like to plow right well, but when you go to planting cotton in a new ground where the roots are not all picked up, and a plenty of clods and they keep the planter knocked off about every ten steps, and your suspenders work down off of your shoulders and you feel like your pants were on a strike for a rest spell, and your shoes are full of dirt and got your toes cramped up so you can't walk good, and got an old mule that has had all the fine hair cut out of his ears to make him look younger and they then have filled up with dust so bad he can't hear good and looks like he had a good case of dyspepsia and don't feel good no how.

THE MONEY QUESTION.

Many Sound Views on the Great and Important Question.

[By Allison (History of Europe).]

The evils complained of arose from the unavoidable result of a stationary currency, co-existing with a rapid increase in the numbers and transactions of mankind, and there were only aggravated by every addition made to the energies and productive powers of society.

[By Faucett.]

The increased burden of debt, the increase of traffic (thus requiring a larger volume of the circulating medium), and the demonetization of silver, have all contributed to increase the value of gold beyond its equitable value as a measure for values of commodities.

[By Prof. A. L. Perry.]

Price is indeed only a case under the class values, but practically it becomes a very important thing in Political Economy, because the value of almost all exchangeable things is determined through price.

THE COMMITTEE ADJOURNED.

The Railroad Committee Completes Its Work and Adjourns Till June.

THE OPINION OF OUR READERS ON THE VARIOUS TOPICS OF THE DAY.

We offer this column to our readers in which to discuss topics of interest and profit to them.

THE MONETIZATION OF LAND.

BY F. R. COOPER. No. 3.

Every man has a natural right to the products of his own labor and skill, but if one could enjoy only the work of his own hands he would be cut off from many of the comforts and luxuries of existence, and any high degree of skill in any pursuit would be unattainable by reason of the great diversity of occupations into which each would be driven to supply his wants.

[By Hancock.]

BISHOP A. A. WATSON.
