CIVIL GOVERNMENT A DIVINE ORDINANCE.

God has called you to teach the nations of this world something realcalled you to lead them in the development of a world's liberties. I saw the the other day where the prime minister of Spain went into the room of the king, a little fellow 6 years old. They had taken him with a triumphal procession through the nation, and they fired so many guns that it made the little boy sick. And the prime minister came in in the morning to see his majesty and ask, in his offhand way, "How is Alphonsito this morning?" The little fellow drew himself up and looked at him and said, "To my mamma I am Alphon-

sito, but to you I am the king." Think of a little fellow only 6 years old-and that great, strong man, with his big brain, staggering back out of the room and covering his head in shame. the utmost servility to bow down to that past because it belongs to another world. God has called you to lead the world in ternal equality and fraternal manhood Let every American, then, believe in his nation as a Divine ordinance. God has chosen you for a purpose and is leading you today and revealing himself to the world through you.

Then Paul said another thing. He said: Third-The true nation will be the family group of an international brotherthe face of the earth." One heart, one bind all together round a common homestead-a true nation, a family group around a central heart and life.

The riches of all the earth belong to me and to you. God hath made of oneownership of the earth is thus universal. Because I am God's I have a joint ownership of all this world, and so I need not confine myself to loving one little spot of earth. There are beautiful mountains down in my native state, the highest and fairest east of the Rockies, but I love the Alps as well. They are mine. I look with amazement on all I have seen of their beauty and glory. Whether in rural England or the fatherland of Germany, or whether in France, with her sunlit hills, or Italy, with her beautiful skies, or far away in Africa, with her wild forests and Mountains of the Moon, it is God's work, and I am his, and they belong to me, because they are part of the race inheritance. So in historytheir heroes and martyrs—they belong to me. I have a right to them.

For that reason justice and love must rule at last between nations. We are bound together by common bonds that cannot separate us if we try. The glories rent fiscal year, makes no further of England and France and Germany are mine. I thank the tradesman who spreads his eastern rug on my floor, who brings his wares from the far east to make my home bright and beautiful. I done is my inheritence. You could not separate with a war the glory of England from the glory of this nation. Shakespeare is mine. Goethe is mine. The glories of German science are mine. The glory of her musicians as they have swept the keys of God's harmonies and translated them that human ears might hear-they are my inheritance. The glories of Italy, as she has given to the world the first lefters of the alphabet of art—they are mine.
