THE SUPREME COURT OVERRULED.

After the adoption of the amendments of 1876, to the constitution of North Carolina, by which the county government system was established the Legislature passed election law. This statute may be found in the laws of 1876,-*77, a page 516, being chapter 275. Section 25 of that chapter was afterward brought forward (in 1883) in th code of North Carolina, section 2694.

The words of the section, (before the amendment of 1889, hereafter quoted.) was as follows:

"SEC. 2694. The board of county canvassers shall, at their said meet ing, in the presence of the Sheriff and of such electors as choose to attend, open and canvass and judici ally determine the returns, and make abstracts, stating the number of legal ballots cast in each precinct for each office, the name of each person yoted for, and the number of votes given to each person for each different office, and shall sign the same.'

Before this section was brought forward in the code, it was construed by the Supreme Court of North Carolina, in the case of Peebles vs. Chief Justice Smith writing the opinion. The point presented in the case was this (see page 387 of the associate judges of election, to strike wisdom of their course was apparent. sons of negro Post Masters stuck infrom the roll the names of all such Other men, elected from other conn-

He was surprised at the profusion of gold and silver ornaments, worn by even the children, denoting a source near and easily worked from which the precious metals had been obtained.

Perplexing as was the situation in which he found himself, he felt that he was fortunate in the opportunity it afforded him for a delightful study of an unknown race. The occurrence was seen by the entire populace, and for an instant there was a deep silence, which was followed by cries of intense rejoicing-the event was accepted instantly by the Atzians as a natural and proper one. They felt that the evil god had failen and bowed before his master, and that his dread reign was ended.
