No chance for a bath appeared, so he washed his burning face and took a rest, enjoying the splendid view far over valley and intervale through the gap in the mountain range. He was desperately tired with these hours Now, as like as not, I can't get out of rough travel, and very hungry; alone! Now, which hidded spring. Eagerly Corny ate way shall I go,-up or down? A pretty hard prospect, either way."

The sight of an eagle soaring above him seemed to answer his question, and fill him with new strength and ardor. To shoot the king of birds and take him home in triumph would cover the hunter with glory. It should be done! And away he went, climbing, tumbling, leaping from rock to rock, toward the place a farm seven miles west of Clinton, where the eagle had alighted. Eloquent Sermon by Rev. Thomas Dixon, Jr.-A Horrible Hour With a Neusboy. Visit to the Newsstands-Cases of Youthful Depravity-The Cause of the Evil.

NEW YORE, May 21.-Extraordinary interest continue to be manifested in New York in the delivery of a series of sermons on "The Gates of Hell In Modern Babylon." On some days more people are turned from the doors than gain admission to the hall. Rev. Thomas Dixon, Jr., delivered this morning the fifth sermon of the series. The subject was "Obscene Literature." The text chosen was from Matthew xill, 25, "While men slept his enemy came and sowed tares among "wheat."

The invention of . ers was one of the events in the development of hur manity. The power to record man's thoughts and ways be transfer them to future generations

without practical limitation meant the endowment of man's personality on the earth with practical immortality. "There is no past so long as books shall live." Books bind age to age, century to century. The power of a book is a power that cannot be estimated because we cannot estimate the different forces it will touch in different generations, ages and centuries. The invention of printing marked the climax of power in the prog-

ress of immortalizing thought. It has been said that books are embalmed minds. It is a mistake. They are the thing worse than that, might ensue incarnation of immortal minds. The wars of the future will not be fought ber of Deputies yielded, and on with ironclads upon the seas, with guns April 18th reversed their former de- echoing from the hills, the charge of cavcision, and conceded manhood suf- alry, of infantry, in action. At once the The weapons used will be the pen and country became tranquil, and the the printed page. The printing press, with its lever and its wheels, will be the engine of war in the coming centuries. Here the battles of humanity will be fought, and here they will be settled. Books, after all, are the powers that today are slowly fashioning the characters for the two great armies in this decisive struggle. Well has the poet said:

Hark, the world so loud, And yet the movers of the world so still.

Emerson has most forcefully said, "In every man's memory, with the hours when life culminated are usually associated certain books which met his views." Benjamin Franklin declares that his character was formed and his life shaped by the reading of a little book of Cotton Mather's entitled "Doing Good." The murderer of Lord Russell confessed before his execution that he was started on his career of crime by the reading of a trashy book. If every could not get home now even if he some time and like it very much. 1 privileged people usually do-they wrecked character could be uncovered and its secrets shown to the world, the beginnings of wrongdoing would be found in thousands of cases to have their source in these silent fashioners of men's characters through their thoughts. The French novel as translated by our American scavengers, is bad enough. But the vilest stories of literary corruption seem just now to be pouring from the west. The western rascal, who seeks in a clumsy way to imitate the French, sinks to a depth of infamy, a clumsy bestiality, that would drive the modern Frenchman into a monastery if he had his choice between the perusal of such a book and the abdication of life. Let me enote the announcement of two of these books that are fair samples of the hundreds found on the average newsstand: This story is considered by many to be the most interesting and entertaining ROMANCE depths than The Police News. So we OF GAY LIFE ever written. There is something about it that Charms and Fascinates and wins the admiration of every reader. Some of the situations in this story are Frightful in their Fiendishness, while others are Ridiculous in their Ludicrousness. It is a well told taleone that will be carefully preserved long after trashy yarns are dead and forgotten-and is destined to take Front Rank among the Realistic Romances of this Fast Age.

The story told by the author is one that relates entirely to the Night Side of -, nearly every scene, from commencement to end, be ing at or near the Ghostly Midnight Hour. The characters are all taken from life, many rea names being used. Every phase of City Life is depicted so truthfully as to make each chapter of the book one of Sensational Excitement Nothing is omitted that may be seen Under the Gaslight. "The Tiger" is visited in his lair. The Scarlet Woman is pictured in her Mag nificence and her Degradation. The Assigna tion Fiend plays a prominent part. The plot i one admirably calculated to bring out the Fiery Element in writing that has made the author famous. Every chapter contains some

thing Hairraising and Bloodcurdling. It con tains every element of popularity as a Sensational Romance, abounding in Abductions, Street fights, Stabbings, Shootings, Plottings that cannot fail to interest those who like t read of city life as it is. It is fully illustrated with full page engravings. These are not exceptional books taken

have their scores of rivals. There is scarcely a day that passes o'er our head that a set of dirty scoundrels do not originate a new scheme for flooding the world with this illustrated filth. At least a half dozen of these villainous publications have originated in New York within the past year and have met, some of them, with remarkable sales. A paper called Music and Drama is now being issued in New York which is dirtier to the square itch that even The Police Gazette has dared to be since its publication. Another villainous sheet called Broadway likewise touches lower

might name scores of other papers that seek to live as the distributers of filth. WORSE THAN SODOM AND GOMORRAH. The amount of obscene matter circalated today in pictures is something incalculable to those who have not investigated it. The picture has come to be a part of literature as much as the letters itself. Our daily newspapers are now all illustrated. Our weekly newspapers are using illustrations. The pow-

er of a picture to bless or to curse is as the power of the living, vital personality itself. We look at the frescoes of buried Pompeii with disgust and horror and strive in our imagination to picture the depth of their degradation. We look with amazement upon the scenes at Corinth in which the worship of Aphrodite was conducted. But Corinth in her degradation and Pompeii in her vulgarity of art, if they should rise from the dead, would certainly find new lessons in their art from their modern ancestors.

The venders of obscene matter in our cities have gone to lower depths than the ancient debauchee of these old world centers. And not only so, but men who pretend to respectability in the business world use these means of public debauchery to advertise their wares. Every saloon is filled with lascivious pictures. Every cigar store is full of the most vicions prints. Every whisky and beer manufactory uses the vilest possible pictures which they think will pass the notice of the police and the district attorney for the purpose of attracting the crowd of boys that passes the open show window.

When I returned to Cleveland on the day referred to after the conversation with the newsboy on the train, he brought to my hotel his sample album against Virtue, and many more exciting themes of pictures. If a man had told me there were persons in America mean enough to take such pictures, devil enough to sell them as a business, I would utterly
