THE ULTIMATUM IS GIVEN. We have formerly referred to the general orders from Boss Cleveland that all the two hundred and more thousands of Democratic office-holders must organize and fight for the continuation of the gold money standard and the permanency of hard times, and heart and mind breaking oppression. The order seems to be absolute. The office-holders must get to work or get out!

The Big Boss-Beef, Belly and Brass Cleveland-has written another letter. He wrote it to Governor Stone, of Mississippi. Gov. Stone appears to have appointed some men the commands of the Boss, and Governor Stone says so. In his letter Cleveland says:

I am glad you are frank enough to admit your participation in bringing about a condition in office-holding which may not be all that could now be desired. Whether those appointed to place shall, in speech and action, behave decently toward the ad-ministration under which they hold office must remain, to a large extent, a matter of taste and good breeding. There are, howso industriously to villification and abuse of those under whom they hold office as to in-dicate that their fidelity cannot be trusted for the performance of their duties in a manner creditable to the administration, and who apparently assume they may spend the time they owe the public service in do ing political mischief. In the interest of good government such office-holders must be surprised if they are summarily dealt with

Whoo-o-oosh! This is refreshing. It is nerve-thrilling. It is hair raising. It is soul-stirring, and it is man-stiring, too; for after such a broadside as this many an old moss back spoils hunter will begin to howl for gold, especially if he now holds an office. Just study this document a little. Mr. Cleveland is very glad that Mr. Stone is so frank and free as to acknowledge that the officeholding gang he (Stone) has appointed, is not all that could be desired. Why? Simply because some of them want to stay on the Democratic platform if they can. They rebel against the goldbug order; and consequently they are not all that could now be desirable. Do you see?

Again, in the general "divide up" of the spoils by Cleveland himself. some got in whose fidelity cannot be trusted for the performance of their duties. Whoop! Whoey! Isn't this a matter that ought to be looked after before appointments are made!

But it is yeary probable that when But it is very probable that when which it is constantly putting out in all di these fellows were appointed, Cleve-land did not know that he would land and to the European countries and is have such a stupendously grand opportunity for making secret bond deals as has come to him; and perhaps he did not know what a great bargain he could make by scheming with the Rosthchilds and other money apeculators for keeping this country on a gold basis. And he didn't think it necessary then to bargain with appointees for strict adherence to commands. Do you still seef

We ask again: Have you seen or heard anything from Cleveland which say anything about what these men 'owe the public service?" Not much! And why? Because they are doing Cleve land's bidding. And while they ar doing this they are getting big sala ries from the government.

But just let some office-holder kiel against the orders. Just let some o them take issue with the Boss and criticise his proceeding! Then they become "officials who devote them carry the day!

the Supreme Court was concluded at 3 p. m. to-day, and the nine Justices took the question under consideration. On the 20th of of this month the court will probably meet isions in pending cases, and it is expected cisions in pending cases, and it is expected that its conclusions upon the Income tax will be announced at that time. In that event the President will have no alternative but to call an extra session of Congress or to issue another batch of bonds to provide for the current expenses of the Government. We do not know how to forecast

events. The above despatch may not be a true prediction, but it is so much in line with what the Groverites and plutocrats want, that there is hardly any hope that it will not prove true. In fact, we believe that the last Democratic Congress would never have passed the income tax law, if it had not been understood that the Supreme court would declare it unconstitutional. These schemes are so cleverly worked by the money power, things which occur. to the trusting people as untell you the money powers know long in advance what kind of law is apt to be passed concerning their interto office who are in rebellion against ests. The latter alternative is the one mos generally expected.

And it seems that the matter wa pretty well settled before it came be fore the court a second time.
