never have before. We have been looking for the Democrats to do something for us, but their past record is that they do just the opposite of what they say they will do.

Some of the Democrats here say they are for free silver but they can't do anything but the Democratic ticket. Great Scott! How do they ever expect to get free silver by voting Democratic? They promised us free silver time and again and every time they have gotten a chance at a silver bill they have killed it; but now they don't even promise it.

I heard one old Democrat say if he could believe the Populists were for the common people he would vote that ticket. I walked five miles to give him THE CAUCASIAN and told him that if he would read it and reason with himself it would convince him. THE CAUCASIAN will convince any one who will read it with an unpoisoned mind, but here are some who will not see the truth because they don't want to.

Long live THE CAUCASIAN.

R. M. THOMAS.

He Came Close - But Did Not Get Ahead.

For the Caucasians.

LITTLE RIVER ACADEMY, N. C., Oct. 14.—I saw in your paper of October 10th where you offer \$100 to any one who can tell a bigger lie than the New York State convention. As I am in need of a little ready cash I will try my hand.

A statesman is a gentleman and a statesman. Now, sir, I have one my best and I think I am entitled to the prize. But to be sure of it I will say Jefferson was a clerk.

E. T. COLLIER.

But for the fact that some selfish shlytoku goldbugs really think that Cleveland is a statesman—and but for the fact that everybody knows that the Democracy of Cleveland is not the Democracy of Jefferson, our correspondent would get the prize. He made an able bodied effort for it any way. Ed.]

Bertie Is Booming.

For the Caucasians.

HELENA, N. C., Oct. 14.—I think old Bertie is on a boom for better than he has been in a long time. He is getting stronger and stronger every day. Case-hardened Democrats are flocking to the party of "equal rights to all and special privileges to none." That means freedom to the bondage people of America.

When I say bondage I mean slaves to the money power.

I agree with the writer in your paper of recent date who said that the parents of children ought to teach them to hate the name of Grover Cleveland.

MAY THE CAUCASIAN, Senator Butler, Henry, Kitchen, Sibley, Early, New, and a host of others, long live to do more good to this poverty-stricken country.

J. P. MORRIS.

For the Caucasians.

KERR, N. C., Oct. 12.—We are not making much headway in the interest of reform, but we are solid for reform. Sampson is overwhelmingly for free silver. Let all the true friends of the white metal come together and enlist under one banner and fight to a finish on this issue. Let us come together and drive the enemies of our prosperity from our shores. We can do it. Let us act. The British are once driven from our land with the bullet; let us now drive them with the ballot.

THE CAUCASIAN is making the truth plain. That is right. It takes plain talk for some folks.

Let the good work continue.

"H."

"Voted Her Straight" For Forty Years.

For the Caucasians.

SANS SOU, N. C., Oct. 12, '95.—Most of us are poor down in this part of Bertie and dollars are hard to gather; still those who read THE CAUCASIAN are hopeful of the future and are, or will ere long, embrace the Populist cause and principles and make their presence known and felt at roll call.

I am an old fashioned Democrat—"voted her straight" for nearly forty years—but the old party is dead, or has departed from the true worship, or has become a new following on her track.

J. C. FREEMAN.

Free Silver and the Populists in Bladen For the Caucasians.

PARKERSBURG, N. C., Oct. 12.—Most of the Democrats I talk with on the question of money say that they are free silver Democrats. When they are asked to vote when the Democratic party puts up a gold standard candidate for President, or a free silver candidate on a gold standard or straddle platform, I have not learned. I truly hope they will not be rash, like some of the Democrats did in the silver convention at Raleigh. Let me say that they are the Raleigh convention was purely political, so that the people might see that the big howler free silver by the leaders of Democracy recently in North Carolina was simply a trick to fool the people, like they did in 1892. But every one in the Democratic party is not the same. Thousands of those who voted with them in 1892, and who are not now, are not the same. Deception will not and cannot lead the poor farmers and laborers much longer. Several who voted Democratic in 1894 in my township (Cypress Creek), say that they are now with the Democratic party, done with the "bosses." They have listened to the "bosses" and they are now reading THE CAUCASIAN, and it is shedding the most brilliant rays of light along the political pathway, and is fast bringing them out of the political darkness. But the unfaithful failing to carry out its promise to the people has done a great deal to enlighten them. It has been said by some one that there were only eight goldbugs in Bladen county, and they Democrats have any gold. Many Democrats have begun to read THE CAUCASIAN. The Democrats say many hard things about the Populists before the election, but they have quit it.

DR. PRITCHARD TAKEN TO TASK.

A Glaring Want of Logic in Some of the D. Sh.'s Positions Disclosed.

SHUNTS THE POINT AT ISSUE

And Champions the Cause of a "Bent" Four Propositions Laid Down for Consideration—The "Doctors" are Called on to Prove Them—Extra—Of Accept the Truth of Thompson's Remarks.

We have often had occasion to admire the logic of Dr. Pritchard's words as expressed in Charity and Children, not so much on account of what was said as on account of the animus behind them, plainly seen through the gauze. The first thing we wish to notice is that Dr. Pritchard ought to have studied logic when at college and be able to keep to the point at issue; and the next a good dose of theology would not hurt—enough at least.

KNOW THAT MISREPRESENTATION IS IN.

Dr. Thompson at Cary did not say the "Christian church" but he said the church. Dr. T. H. Pritchard makes him say the Christian Church, and by inference he exculpates the Baptist sect from the charge as the "Christian Church."

Then he intimates that Dr. Thompson is "the leader of a party." Dr. Thompson is not the leader of any party.

Then he says Dr. Thompson's charge is a slander on the Christian Church—alias the Baptist Church, and he feels it his duty to refute Dr. Thompson's charge against the holy religion of our Lord Jesus Christ, alias the Baptist Church, alias the Christian Church, alias the Church, as a false allegation. This is the logic of a graduate and Doctor of Divinity. That word "church," "Christian Church" "Church of Christ," has several meanings, and the Doctor of Divinity ought to have chosen one of its meanings for his syllogism. What he has done and is doing so makes Dr. Thompson's charge solely against the Baptist Church as the "Church" spoken of, and recognizing no other worthy of the name. Then he says it is a false allegation, that is to say, against the Baptist Church, a slander, that is to say, against the Baptist church, the religion of our Lord Jesus Christ. Dr. Pritchard ought not to have mixed things up in this way. Is it not a slander on Dr. Thompson to make him say that the Baptist Church is on the side of human slavery? Is it not false to make Dr. Thompson say that religion of our Lord Jesus Christ is on the side of human slavery? But Dr. Pritchard's mind is so illogical and misrepresenting that he comes forth as the bold champion in behalf of the Baptist Church and the religion of our Lord Jesus Christ saying, by this course, that Dr. Thompson had slandered and falsified them. We say that it is to be the criterion by which we are to judge effects from causes, if Dr. Pritchard's church is not now on the side of human slavery it soon will be.

The most amazing thing—and it shows not only the weakness of Dr. Pritchard but the truth of the criterion by which we are to judge effects from causes, if Dr. Pritchard's church is not now on the side of human slavery it soon will be.

It is believed that they were here used. What a strange thing W. R. Henry commenced to speak. It was the only answer that Ransom could make to the terrible castigation which Henry gave him in his treatise on the subject of the people.

Senator Butler spoke first. In the course of his speech he told how patriots in old Mecklenburg looked upon the British and the famous Mecklenburg Declaration of Independence at the risk of their property and their lives. He told how these same patriots were so grieved and determined to fight not only British soldiers but also Tories and traitors at home. He pictured the great battle of Kings Mountain, and how the British soldiers showed that not a British soldier was in the fight but that it was Tories and traitors that patriots had to fight. Senator Butler looked at the speaker and said, "are any of the descendants of any of these Tories now living in Mecklenburg county? Are there any of them in the State? Is it here that the gold standard and the interests of Great Britain now as it was in 1775? Can you not see that the Tories are the patriots when they fight for England and against the American principle and American liberty?"

The "boys" and the street thugs who had been sent to the meeting by the goldbugs and who had no other motive than the disturbance commenced. It was the most infamous conduct that has ever disgraced the State. There is not a man in Charlotte who does not know the goldbugs. The police are as criminal as the street "thugs."

"RETURNING PROSPERITY."

Potatoes are Selling for Fifteen Cents a Bushel.

ROCHESTER, N. Y., Oct. 8.—There has been a great drop in the price of potatoes, and in consequence the farmers in many sections of Western New York are in distressing circumstances.

In Orleans county the price is quoted at 25 cents a bushel; in Genesee county, from 15 to 18 cents, and in Yates county, 15 cents, with a threatened reduction to 10 cents.

Some farmers are using potatoes for fertilizing, while others are not even digging them.

The Blind Workings.

From Lessing, the German Philosopher.]

A hen which had become blind continued to scratch for food as she had been used. What a valued it the industrious fool. Another hen that could see, but wished to save her tender feet, never forsook the side of the former, and with a scratching enjoyed the fruit of scratching; for as often as the blind hen turned up a corn, the seeing one deplored it.

To Depress and Enlarge the Dismal Swamp Canal.

BALTIMORE, Md., Oct. 10.—The Manufacturers' Record reports that bonds have been placed to the extent of \$750,000 in Baltimore for deepening and enlarging, on a very considerable scale, the Dismal Swamp canal extending from Norfolk to Carolina.

Must Great Universities be Founded to Gratify the Robbery of Plutocracy.

Mr. Morrison Caldwell Tells some Interesting Facts—As the Professors of the Chicago University—Its Best Instructor of Political Economy—Was Called on by Plutocracy to "Close."

For the Caucasians.

CHICAGO, N. C., Oct. 18.—I read, with unusual interest, the comments in THE CAUCASIAN of October 17 upon the dismissal of Dr. Bemis from the Chicago University for his lectures upon the dangers of trusts and monopolies. It is indeed a sad commentary upon our universities, when it must be admitted that freedom of speech and freedom of thought are not to be trusted. The money power has control of the secular press of the country to an alarming extent, and it would appear that in free America that control is not to be trusted.

The great modern university, is after all merely a colossal conglomeration to gratify the vanity and glory of the Rockefeller, the king of the Standard Oil Trust.

In confirmation of this view, permit me to draw your attention to the fact that the chief professor of political economy in Chicago University is J. Lawrence Laughlin, the famous goldbugger, who is the author of "The Standard Oil Trust," the author of "Coin's Financial School." He is the man who still holds himself proclaimed to the world that he "had never attended any such lectures," that it was all a "base fabrication" and "forgery," when any child could see that "Prof. Goldbug" was a "goldbug" and therefore required no affidavit to prove his audience and conversations merely allegorical. He had the temerity to tackle Harvey in a public debate on a financial question, and was so completely knocked out that he had to call on his goldbug friend Horr to challenge Harvey. This was a complete victory for the invincible logic of "Coin's Financial School." This fellow Laughlin has a \$7,500 job in Rockefeller's university, and he is the author of a text-book upon political economy from the standpoint of the capitalist.

I read his political economy from beginning to end, and I was so completely knocked out by his fallacious reasoning to my classes in political economy, and I therefore know whereof I affirm, and I assure you that in the hands of students of political economy, because they lead irresistibly toward plutocracy and toward democracy.

If on any subject we are to teach that trusts and monopolies are not dangerous to the liberty of the citizen, because a few millionaires have eased their consciences and gratified their avarice by munificent donations, these institutions should be emphatically shown that freedom of thought and freedom of speech cannot be suppressed by the writing of professors of plutocratic selection.

MORRISON CALDWELL.

TORIES AND GOLDBUGS.

They could not bear to hear Pritchard's sentiments on the subject of the people, and the Silver Meeting in Charlotte while Senator Butler was talking about the Declaration of Independence.

For the Caucasians.

CHARLOTTE, N. C., Oct. 19.—The communication in your issue of the 17th inst. last week, showing that it was the Ransom machine and the Cleveland-goldbug officeholders who planned the disturbance at the free silver meeting in Charlotte, and the goldbug W. R. Henry commenced to speak. It was the only answer that Ransom could make to the terrible castigation which Henry gave him in his treatise on the subject of the people.

Senator Butler spoke first. In the course of his speech he told how patriots in old Mecklenburg looked upon the British and the famous Mecklenburg Declaration of Independence at the risk of their property and their lives. He told how these same patriots were so grieved and determined to fight not only British soldiers but also Tories and traitors at home. He pictured the great battle of Kings Mountain, and how the British soldiers showed that not a British soldier was in the fight but that it was Tories and traitors that patriots had to fight. Senator Butler looked at the speaker and said, "are any of the descendants of any of these Tories now living in Mecklenburg county? Are there any of them in the State? AN OPEN LETTER TO MR. JARVIS

In Which He is Told He Tries To Expound Things He Does Not Comprehend.

A Few Facts—A Little Hint of Some Far-fetched Conclusions—A Limited Extract of Some Speeches and Actions Which is Suggested as a Plan to Intentionally Mislead—Reading a Sermon.

OXFORD, N. C., Oct. 21.

DEAR SIR.—The trying heat of a few weeks past has been ascribed to the near approach to this planet of "Faye's comet," but on further consideration cannot the high temperature have arisen from causes political? Be this as it may, the mushroom growth of the silver heresy within the Democratic party, culminating in the Raleigh fiasco, was undoubtedly the precursor of the late killing frost.

In Morganton, on August 27th, a speech was made early, in which the speaker said he did not know the meaning of the financial question; then he proceeded to demonstrate the truth of the foregoing by trying to instruct his hearers on a subject which he confessedly

DID NOT HIMSELF COMPREHEND.

The resort of ignorance is abuse—which was freely indulged in. The communication signed "Merchant," a comprehensive and logical statement on the currency, which appeared in the Charlotte Observer, was termed "rot," and the remark was made that the speaker did not expect to see it. Here is proof in the speaker's own words that he

DID NOT SEEK KNOWLEDGE,

but to awaken the unreasoning prejudices of his audience.

Further, as he told his trip to Washington had cost "\$45.00 of his own good money." (The word "appliance" seems to have been omitted by the press reporter after the expression of this noble sentiment.) However, the most ought to be made of it, as it is the only tangible result of that abortive conference held in the above named city.

Shortly after there was printed a letter dated Greenville, September 9th, which was generally accepted as an explanation of the speech preceding it. If such an explanation was not so conducted in his own language of not meaning what he says, or not saying what he means. In other words, he stands in the light of a man who cannot intelligently express himself, or of a cunning one.

WHO INTENTIONALLY MISLEADS

those whom he is addressing. On September 17th our daily of "greatest circulation" said: "T. J. Jarvis has written of the new blood that is constantly coming from the country in less than fifty years the cities would be intellectually impoverished.

Without a constant infusion of men and women from the country, the cities would degenerate into the dearest formalism. Let agriculture flourish, country schools multiply and country churches continue to be erected, and the cities will be safe, prosperous and happy.

"In selecting a subject for this occasion I could think of none that would be so helpful to us as the one presented in the text—An unselfish and self-denying concern for the welfare of our fellow man, the only solvent of our social problems.

"Such is the new blood that is constantly coming from the country in less than fifty years the cities would be intellectually impoverished.

THEY COME FROM THE FARMS

More Incomparable Integrity Among the Men Who Till the Soil Than Elsewhere.

A SERMON TO FARMERS

By Rev. Dr. Hawthorne, of Atlanta—In Which He Says Agriculture is the Basis of Everything—And that to Legislate Against the Farmer is to Weaken the Foundation of Everything.

Rev. Dr. Hawthorne, of Atlanta, preached a sermon to the National Farmers' Congress during its session in that city.

"Text, Philippians ii:15: 'Look not every man on his own things, but every man also on the things of others. Let this mind be in you which was also in Christ Jesus.'"

"Agriculture is, and ever will be, the basis of all other material interests. To foster this industry is to benefit every other industry and to cripple it is to impair every industry which contributes to the welfare of the people. The race could possibly live without manufacturers, merchants, or dentists, or physicians, or lawyers, or even without politicians, but without the farmer it would soon become extinct. The absolute essential thing for every human being is bread, and the production of that is the farmer's duty. To legislate against him is

TO WEAKEN THE VERY FOUNDATION OF every lawful and useful industry.

"Nine-tenths of the men who have risen to enviable distinction were born and reared on the farms of the country. The majority of them were born in farm houses and had some actual experience in cultivating the soil. Look into the catalogues of our American colleges and you will find nine-tenths of the medalists and first honor graduates were from the country and country villages. Without the new blood that is constantly coming from the country in less than fifty years the cities would be intellectually impoverished.

Without a constant infusion of men and women from the country, the cities would degenerate into the dearest formalism. Let agriculture flourish, country schools multiply and country churches continue to be erected, and the cities will be safe, prosperous and happy.

"In selecting a subject for this occasion I could think of none that would be so helpful to us as the one presented in the text—An unselfish and self-denying concern for the welfare of our fellow man, the only solvent of our social problems.
