### RALEIGH, N. C., THURSDAY, DECEMBER 12, 1895.

## THE PRESIDENT'S MESSAGE.

It Recommends the Retirement of Treasury Notes and the Issuance of More Bonds.

IT STRIKES AT SILVER.

And Makes an Appeal For More Privileges for the National Banks-The "50 Cents Worth of Silver" Whine Has a show-A Goldbug, Bondholder's Plea From Beginning to End.

The President's message, sent to Congress last week, is one of the longest ever written. It is here condensed there being little abridgement, however interest before the people, viz: the inancial issue. Elsewhere may be een such opinions as the CAUCASIAN has to offer on the document.

We are informed that the Argentine tepublic appreciates our efforts to exand the sale of its wool in this country by offering free importation.

The missions boundary dispute between the Argentine Republic and Brazil, submitted to Mr. Cleveland for arbitration, has been decided in favor of Brazil.

Negotiations are progressing for the revival of the United States and Chilian claims commission. It is stated that the resumption of specie payments by thile is a step of great importance. It is stated that the energetic policy of our government has made American

nterests safe in China. Fairer trade relations are demanded with Germany, and a retaliatory policy s suggested if our cattle and food products are to be discriminated against.

The speedy adjustment is recommended of the damages claimed for the seizure of British vessels by our vesels in Bering sea. The fixing of the Alaskan boundary

line is recommended, and also the Canadian boundaries.

To further insure the cancellation of these notes and also provide a way by which gold may be added to our currency in lieu of them, a feature of the plan should be an authority given to the secretary of the treasury to dispose
