THE TIMES is a newspaper for intelligent men and women who want to read all the news of the world every day. The paper has distinguished merits of its own. It is neither sensational nor dull. It is not sour-tempered. It is not frivolous or visionary. It tells of the bad when it must, but not unwholesomely. It prints with fullness the record of human endeavor in many fields outside of business, politics, and war—in literature, religion, science, art, sports, and household matters. No paper in the country prints so many book reviews and so much book news. No paper has so complete a financial page—a daily annual for investors and officers of financial institutions. Its market reports, wool, cotton, breadstuffs, farm products, etc., are the best in the country.

The Democracy of THE TIMES is of the old-fashloned sort as old as Thomas Jefferson, majority rule, no bossism, no machine tyranny, the divorce of politics from private money-making, a sound currency, industrial emancipation. and every-day honesty. To promote the advance of the Democratic Party along these lines it labors with heart and conscience and all its might. Do you seel weak and debintated?
