make a nomination at St. Louis at all. After this warfare between the goldbug and the silver Republicans, Senator Allen took the floor and on behalf of the People's Party Senators offered to vote for the Republican tariff bill if they would put a free silver coinage provision in the same bill. After mak ing the proposition Senator Allen said : "I desire to have answer from some

Twice believe that you are bimetallists and now when you are put to the test you will not take silver with this tariff bill, and you will not take it with the McKinley bill, and you will sent with re-inforcements. Before he not take it under any circumstances." "Now, to test your integrity and good faith I offer this bill. It is your tariff bill, without a "t" uncrossed or an "i" undotted, except in the title. And I near Adowa, he was overwhelmingly say to you that if you are ready to beaten and his army of 23,000 men show the good faith of your assertions routed, 5,000 being killed and 60 pieces for silver and link it with the tariff of artillery captured. The excitement bill, we pledge you six l'opulist votes." This proposition was flatly refused by the goldbug Republicans who con-

stitute a majority of that party. If there were more Republicans like Teller and Carter it would be impossi-

ble for the old parties to make a sham battle over the tariff and to elect a goldbug President next fall.

The five free sliver Republican Senators who took a stand on this great question were Teiler, of Colorado; Carter, of Montana; Dubois, of Idaho; Cannon, of Utah and Mantle, of Montana. They will not support a gold- cated and her power manifested, or her bug Republican for President in the coming campaign.
