

THE CAUCASIAN.

Raleigh, N. C., April 16, 1896.

We make some sacrifice in reducing the rate of subscription. Can you take enough time to ask five of your neighbors for 20c each to get THE CAUCASIAN three months?

NO MISTAKES SHOULD BE MADE

The People are Willing to Burst Old Party Ties For General Good.

Do Not Fail to Read For Old Party Interests. Nominate a Populist For The Next Governor. Let His Name Be Guttered.

For The Caucasian.

OLD FORT, N. C., April 8, 1896.

For the past thirteen years I have not been active in politics, much concerned in matters of politics and have rested—but this year I feel that no good citizen should remain passive or careless, but should work to help straighten out the crookedness of things and do all he can to bring the country back to prosperity, studying the situation over it is easy to observe one good sign. The people are willing to burst old party ties and unite together for a principle of common-sense—the general welfare of our good citizens would sacrifice their promptings for the "party's good." Just now it is very important that no mistakes should be made by the two parties forming the fusion movement in this State. It is, in fact, a matter of vital importance that each party should get the good of the State. Let us all get out of the woods before we begin to talk "turkey" or before we begin to quarrel with each other. Let us all get out of the woods before we begin to quarrel with each other. Let us all get out of the woods before we begin to quarrel with each other.

Of course there must be leaders in every party, and all allies should be recognized, but it is this country that the plans must be formed by the people, and not the late battle—it is the fight now on that must be arranged. Let us all get out of the woods before we begin to quarrel with each other. Let us all get out of the woods before we begin to quarrel with each other. Let us all get out of the woods before we begin to quarrel with each other.

Seeing and talking with the people and understanding that they are in earnest if they are permitted to have their way about this matter, but they are powerfully independent and do not mean to be used for party interest. They are for an honest election of the Republican and Populist parties to save reforms already secured and to be further protected, and for the financial relief and conduct of the State in advance against goldbugs in the two old parties straight. There must be a fusion to succeed, as past experience well shows.

Then, the people want a Populist for Governor, and they want Pritchard for another silver Republican for Senator. It is absolutely essential to show good faith and mutual confidence, that a Populist be named for Governor. Of course a Populist acceptable to the Republicans must only be named. Looking over the field and hearing the people talk it is easy to see who the best man is and the best man the reader has named in his mind Hon. Wm. A. Guthrie before he reached it with his eye on these lines. In this regard no other name is in his mind. He has no enemies anywhere in any party. He has friends everywhere. He is now all over the State as a liberal, noble gentleman and a friend to all the people. He is no hide-bound party politician to sacrifice public good for party good. Intellectual, cultured, patriotic, patriotic and fearless, he is pre-eminently a man for this occasion and he would make the most popular Governor the State ever had, not excepting the immortal Venable. He has many thousand votes stronger than any other man in any party in this State, and his nomination and canvass will win it. Let us all get together and nominate Mr. Guthrie for a good State ticket and carry this election just to see if the times don't get better soon. O. H. BLOCKER.

VOICES FROM THE FAR WEST.

Republicans and Democrats Begin to Declare For Financial Reform.

Democrats in Oregon and Republicans in Utah Speak in Positive Terms. They Declare For Silver at 16 to 1—Western Silver Senators Cordial in Assent.

PORTLAND, Ore., April 12.—The Democratic State convention met here at 11 o'clock to-night and elected a credential committee, appointed a credential committee and took a recess until this afternoon. When the convention reassembled the committee on platforms presented a majority and minority report on the platform. The majority report favored the free and unlimited coinage of silver at the ratio of 16 to 1, while the minority report simply endorsed the Democratic National platform of 1892. After the adjournment of this three hours the majority report was adopted.

Whereas the present depressed condition of the country and shrinkage of values are largely due to the financial system which has controlled the nation for more than twenty years past, we hereby declare ourselves as unalterably opposed to a single gold standard, and demand immediate return to the constitutional standard of gold and silver, by the restoration by the general government independently of any foreign power, of unrestricted coinage of both gold and silver into standard money at the ratio of 16 to 1, and upon terms of exact equality as they existed prior to 1873, the silver dollar to be full legal tender equally with gold for all debts and duties, public and private, and we denounce all discrimination by the government against either gold or silver currency of the country. We demand that the Secretary of the Treasury shall coin into standard silver dollars as soon as practicable all silver bullion now in the Treasury of the United States, which represents silver seigniorage or coinage, profit to the government, and all silver bullion that may hereafter be offered for coinage. We instruct our delegates elected to represent us in the National Convention to support a candidate in favor of the free and unlimited coinage of silver at the ratio of 16 to 1. SALT LAKE, Utah, April 7.—The Republican State Convention was called to order at 11 o'clock by Chairman Danley in a few well chosen remarks outlining the issues of the coming campaign. The platform, confined almost entirely to protection against bimetalism, is expressed in the following language: "We believe in a protective tariff; we believe in reciprocity; we believe in bimetalism, which is the full recognition of gold and silver and the free coinage in the mints of the na-

tion at the ratio of 16 to 1. We contemplate with sorrow and shame the spectacle which our country presents to-day because of the attempt to substitute for a protective tariff a tariff for revenue, and because of the tariff structure of silver as a money of final redemption. We hold that a policy which has filled the land with idle men, which takes from labor its honest reward, which doubles the burden of debt, which, amid doubtful harvests, in a time of profound peace, makes necessary the issuing of hundreds of millions of dollars worth of interest-bearing bonds in order to meet the current expenses of the government, is an impious and unwarranted intelligence and integrity of those who control our government. We cordially endorse the stand taken in the National Legislature by Western Senators and Representatives, in behalf of holding bimetalism and protection together as one. We ask our delegates to go to Louisville to do their utmost to secure in the National Republican platform a full acknowledgment of the imperative need of a return to real bimetalism, a promise of its swift adoption without resort to other nations, by opening our mints to the free coinage of gold and silver at a ratio of 16 to 1.

A DOCTOR'S SPRING MEDICINE. In Good Council There is Safety—A Medical Hook Free.

John H. Hall, of Newton, Ga., writes: "I was bedridden for four months. Nothing gave me relief until I tried Pe-r-u-na. All my doctors failed; all doctors failed. The Pe-r-u-na cured me. I am now 68 years old and am in good health; Pe-r-u-na did it. It is a wonderful medicine. Each bottle is worth its weight in gold. I recommend it to all sufferers." While the multitude of sarsaparillas are vying with each other as to which is the sarsaparilla, the people go right along and use Pe-r-u-na as the ideal spring remedy. If the digestion is good, nerves strong, and sleep normal, all is well. Pe-r-u-na will secure all these. What more can any medicine do? Medicine can not take the place of food, rest, or exercise. Another thing which makes Pe-r-u-na such a popular remedy is the fact that it is the regular prescription of an eminent physician and surgeon. Dr. Hartman is too well known to fail to inspire confidence in all who take Pe-r-u-na.

POLITICAL POT-POURI.

Republican primaries were held in Robeson county last week. Reports of the results are conflicting. The following note was written to the News and Observer: "To the Editor: For the truth's sake deny the statement that Russell carried the primaries in Robeson County. Those already held stand, Russell 2, Dockery 9. Some of Russell's workers are telling ignorant country negroes that Dockery wrote the letter calling negroes voters."

O. H. DOCKERY, JR., Lumberton, N. C., April 8.

Mr. Josiah Patterson, member of Congress from the Tenth Tennessee District, is Mr. Cleveland's goldbug champion for Tennessee and adjacent parts. He is also the gentleman to whom Mr. Carlisle wrote that pre-emptory letter stating that only 8 millions of silver dollars had been coined by this government up to 1890, the impression conveyed to the ordinary reader being that only 8 million dollars worth of silver coins had been coined in that time. On Saturday, as we briefly noted at the time, Mr. Patterson was defeated in every voting precinct in Tipton county.—Fayetteville Observer.

J. Fisher Correll, Chairman of the committee, says the result of the primaries in Mecklenburg shows 71 delegates for Russell and 21 for Dockery.

Doctor Norment says Robeson for Dockery. Cherokee instructed for Russell and McKinley.

Every delegate in every precinct in New Hanover, with the largest attendance at the primaries in twenty years, is for Russell.

"The Democrats in Eastern North Carolina," said Mr. P. M. Pearsall, of Newbern, at the P. M. recently, "are more in earnest than I ever saw them before, but they are determined upon one thing, they will never vote for any man who is not for silver. The best Democrats in my whole section, the most intelligent and well-to-do men, are declaring openly and above-board that they will bolt the National ticket if any man of the Grover Cleveland school of finance is nominated. On the other hand the Populists and a few of the Republicans are equally pronounced in their views on the money question and it matters little what Butler or Pritchard says about fusion they will not fuse if it means to vote for a goldbug or any other man who would himself vote for a goldbug like Pritchard who is advocating McKinley on a gold standard platform.—News and Observer.

In all the Republican county conventions held last week in this State, McKinley was favored for President and Pritchard for Senator, except in Forsyth, which county voted down a resolution favoring McKinley. The odd feature of most of the conventions is that they declare for fusion with the Populists. If this declaration is an assumption that the Populists are going to support McKinley or any goldbug Republican for any office, the Republicans will find such an assumption based on air.

The Mecklenburg county Republican convention was held last Saturday at Charlotte. It proved to be rather stormy meeting. It split squarely into. It is reported that fifty-six delegates bolted leaving seventy-four in the regular place of meeting. The seventy-four favor McKinley for President, Russell for Governor and Pritchard for Senator. The fifty-six bolters declared for Dockery. Both factions elected delegates to the State Republican convention.

The following telegram was generally published last week: "ASHEVILLE, N. C., April 11.—All sixteen counties of the Ninth (Asheville) District have held Republican conventions, passing unanimous resolutions instructing for McKinley, Pritchard for the Senate, and Pearson for Congress. Many prominent men, heretofore Democrats, participated for the first time in their lives in a Republican convention and renounced Democracy."

The Democrats have been having a high old time down in Alabama. Mr. J. F. Johnson, a free silver banker, is candidate for the Democratic nomination against Congressman Clarke, a goldbug. Returns from the primaries show that Clarke has been "wiped out." Mr. Johnson sends out the following telegram: "BIRMINGHAM, Ala., April 12.—The State Convention will be composed of 504 delegates. We have returned from all the counties except five, having an aggregate of thirty-four delegates. My returns show that Clarke has carried twelve counties, having eighty-four delegates, and that I have carried forty-nine, with 386 delegates."

A telegram from Montgomery, however, says: "It is believed, however, that the State Convention, which meets here on the 21st, will adopt a sound money platform and endorse the administration of Mr. Cleveland."

Buncombe county Republicans endorse V. S. Lusk for Governor.

The Republicans of Cleveland county are for Russell for Governor.

Robeson county Republicans favor Dockery for Governor, but delegates are not instructed.

Dockery gets the endorsement of Richmond county Republicans for Governor.

J. M. Moody is declared to be the first choice of McDowell county Re-

PAIN'S CELERY COMPOUND.

Mrs. J. A. Sample Ows Her Strength to This the Best of All Remedies.

For the unfortunates who lie awake, staring at the ceiling and counting the strokes of the clock, every sleepless night is an eternity. Mrs. J. A. Sample, of 1558 Broadway, New York, was afflicted with insomnia until her nerves were on the verge of prostration. She thinks her condition was due to indigestion. Here is what Mrs. Sample says: "I have used Paine's celery compound with marked and decided benefit. It is especially useful in insomnia, arising from indigestion and poorly nourished nerves. "I should add that my granddaughter, Vera Haffegh, was so thin and pale at the age of ten as to cause us the greatest anxiety. We had no difficulty in inducing her to take Paine's celery compound. Today the roses bloom in her cheeks, and I never saw a healthier, stronger child than Paine's celery compound has made her. "The brain is the centre of the nervous system. Sleep alone rests this

vital organ, together with the nerves. During the waking hours the nervous system works incessantly. Poor sleep means a poor nervous condition and prolonged insomnia leads in every case to prostration, and too often to dread insanity. The mischief that results from weakened nerves is much greater and more destructive than most folks even dream of.

The all-important thing for nervous, run-down persons, and for those who are losing sleep is that Paine's celery compound builds up the whole physical system, and by improving the digestion and regulating the nerves it insures sound, refreshing sleep.

In winter most women and many men lead hot-house lives. A flagging appetite, a disposition to pick at this dish and that, rather than to eat a square meal, is among the early indications of failing health. Then comes delay in falling asleep and the fretful, uneasy feeling next day. Deliverance from such a miserable condition by the use of Paine's celery compound has caused men and women from every section of the United States to write sincere,

hearty words of praise and thankfulness for this grand invigorator. People enjoying perfect health sometimes wonder at this gratitude; but whoever has suffered from prostration of the nerves, of which insomnia is one of the symptoms, will understand how hard it is to overstate the torment of this condition. And whoever has been made completely well by Paine's celery compound feels that no words can overstate the joy and gratitude such persons feel.

This is the state of mind of thousands of nervous, sickly, broken-down persons who have used Paine's celery compound and been made well.

Mrs. Sample tells of the happy result in the case of her grandchild. One of the most conspicuous instances of the remarkable power of Paine's celery compound over debility is shown in the relief it has afforded children. Of course the dose is adapted to the age of the little patient. The compound purifies the blood and corrects any tendency to constipation. Pale, puny children are made vigorous, rosy and healthy by this incomparable remedy.

publicans for Governor. Dockery is second choice.

The New Hanover Republican convention unanimously adopted the resolutions endorsing McKinley for President, Russell for Governor and Pritchard for Senator.

At the Cherokee county Republican convention the delegates were instructed for McKinley for President and Russell for Governor.

Polk county Republicans endorsed Dockery for Governor.

Did You Ever Make Money Easy? MR. EDITOR:—I have read how Mr. C. E. B. made so much money in the Dish Washer business, and think I have beat him. I am very young, yet I have had little experience in selling goods, but have made over eight hundred dollars in ten weeks selling Dish Washers. It is simply wonderful how easy it is to sell them. All you have to do is to show the ladies how they work and they will buy one. For the benefit of others I will state that I got my start from the Mound City Dish Washer Co., St. Louis, Mo. Write to them and they will send you full particulars.

I think I can clear over \$3,000 the coming year, and am not going to let the opportunity pass. Try it and publish your success for the benefit of others. J. F. C.

One Honest Man. DEAR EDITOR: Please inform your readers that if written to confidentially, I will mail in a sealed letter the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, Loss of Manhood, Lack of Confidence, etc. I have no scheme to extort money from any one, whatsoever. I was robbed and swindled by quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all. Having nothing to sell or send, C. O. D., I want no money. Address JAS A. HARRIS, Box 805, Delray, Mich. [ap961y]
