Spells vs. Principle.

SAINT LEWIS, N. C., May 21, '96.--What is the matter? There seems to be a great clamor or warfare going on along the political line, especially along the fusion line. Is this war dangerous? They tell me that this war is declared by old man "Principle" and Spoil Hunter against old man "Principle." Well, if old man Party and Spoil Hunter were not in war in their own camp as in 1890, old man "Principle" might feel himself in danger; but knowing that he is the savior of the party that will save the party and country, backed by "Mary Ann," THE CAUCASIAN and a host of other patriots, he has nothing to fear. And if this is not the time for old man "Principle" and his supporters to stand firm and still and see the salvation of the Lord in destroying old parties and spoil hunters in behalf of principle, he never has been, politically speaking, in any danger. Suppose old man Principle had fused with "Party and Spoil Hunter" in that period, (1890), would that fusion not have destroyed the mission and principle of the "third" (abolition) party? "Party and Spoil Hunter" and the many reform patriots "keep in the middle of the road" with one eye on the Tory at the same time; keep their powder dry and the victory, in the name of God and principle which will save the people and country, will be easily won.

From a Life-Long Republican.

MAY 21, '96.--The people of this community highly endorse the course of our young Senator, in introducing such bills as we think are for the benefit of all (I mean all parties). I am a life-long Republican, but I appreciate the bills and votes of the young Senator and those who stand by him better than anything I see from the other parties.

Gaining Ground.

BLADEN COUNTY, N. C., May 21, '96.--I am a Pop four years old and have come to stay. We Pops in this vicinity mean nothing but "the middle of the road" and no fusion. We have a few Demays in this country, but they are not free to vote as they will not vote a gold ticket and will support a man who will. We heartily endorse our "Mary Ann," our gallant leader, in his honest defense of the poverty stricken people, and further more we are gaining ground in the political arena as fast as the political wheel turns over. There are honest Democrats in my township and I believe they will be more for the welfare of the people and their rights than they have in the past.

All Wood and a Yard Wide.

KEY, N. C., May 22, '96.--I am well pleased with the course our committee took on April 16th and 17th. That move was all wood and a yard wide, and no discount on it. I think it will fit Pops everywhere. Three cheers for our Senator, and may he stay "in the middle of the road" and continue to lead the cause for reform. And as for that paper of yours, may it never die.

Why Can We Not Unite?

GRANTVILLE, N. C., May 20, '96.--The Populists are listening and watching. They are quiet as yet, but will act together when the time comes.

Was Sent By Republicans.

MORNINGTON, N. C., May 23, '96.--We understand that E. A. Cobb, of this place, has represented the Peoples Party in the Republican convention (Gill Amos convention), and if he has we will protest against it. I have consulted with more than fifty members of our party since Monday last, and have not found a man who knew anything of his going. He was sent there by the Republican party. We are with you in your stand on the matter of fusion. We cannot fuse with any party that is not in favor of free coinage.

The Question Is, "How to Get It."

FAIRWOOD, N. C., May 23, '96.--I feel as an Alliance man, it is the duty of every man who feels he has an interest in the government of his country, to give his views on the financial question of to-day. It is no longer a question, should we have free coinage of silver, but the question is how to obtain it. I admire Senator Butler's plan. I think he is aiming to make an effort to get the silver forces together. It seems that is the only hope to save our country from financial ruin. He has done as much, not more, to educate the masses than any other man in North Carolina, although some politicians are trying to ridicule him, but predict that he will prove a traitor. They are only measuring Butler's courage in their own hearts, for no man can tell what a man is doing to do but a prophet, and a false prophet can't do that.

Approved By the Eighth District.

CORNELLY SPRINGS, N. C.--We, the people of the 8th Congressional District, fully concur in the action of the State executive committee as regards fusion.

STANLEY, N. C., May 23, '96.--I want to thank you for the editorial, last week entitled, "Some Inside Facts."

They Fear a Stand For Principle.

STYLVA, Jackson Co., N. C., May 23, '96.--I am glad to hear we are getting along here. The Populists of this county are with Senator Butler on his policy of cooperation. Both the old parties are badly demoralized. They plainly see that the "Populists" are for principle and that is what they fear more than anything else. Both the office gangs have had no principle but to get office. The Populists stand solid for principle instead of office.

Separate Coaches For Colored People.

The Supreme Court of the United States has affirmed the constitutionality of the Louisiana statute providing separate coaches for white and colored passengers on the railroads in that State.

For the Caucasian.

On the 19th, court adjourned for dinner giving two and a half hours for the speaking. The bell was rung, and the crowd anxious to hear the great orator, soon filled the court house, standing room and all. After being introduced by the county chairman, Mr. Henry arose, and a perfect sea of faces turned on him in silence; and for two hours he held

It is a wonder that gold is in demand and that the gold nations of the earth are constantly sending it. Is it a wonder that there is little or no gold in circulation when the nations are thus hoarding it? Is it a wonder that the gold manipulators to whom this interest is paid some of them principal paid, insist upon sticking to the gold standard which thus enriches them and puts the money of the world practically in their control?

MAJ. GUTHRIE'S BOMBSHELL.

A GREAT NORTHERN PAPER TELLS HOW IT WOULD MAKE NORTH CAROLINA A GREAT STATE.

The Results of the Proposition Would Be Tremendous--The Idea is an Inspiration--It is a Plan by Which the Great People Can Reach Out the Golden.

The Philadelphia Item, one of the ablest and most widely circulated papers of the North, approves Maj. Guthrie's suggestion for the States to exercise their constitutional rights in making gold and silver coin legal tender money. It goes into interesting details in the following editorial:

Another Great Scheme.

Major W. A. Guthrie, in the Raleigh (N. C.) CAUCASIAN of the 14th instant, opens up a bonanza to States in favor of the silver standard, that may, if carried out on the lines he suggests, cause a tremendous uproar throughout the entire country.
