Following is the Popular platform of the respective country commissions to the principles declared by the founders of the Republic and also to the fundamental principles of just government as enuncial principles of the party in 1892. We recognize that through the connivance of the present and preceding administrations, the country has reached a crisis in its National life as predicted in our declaration sembly hostile thereto. We realize that while we have political independence our financial and industrial independence is yet to be attained by restoring to our country the constitutional control and exercise of the functions necessary to a people's government, which functions have been basely surrendered by our public servants to corporate monopolies.
