DEMOCRATIC METHODS.

The Peoples party State Committee manages to keep informed of what the Democratic machine is doing. Below are extracts from some letters showing DEMOCRATIC METHODS:

Machine "Red Shirts" from a Disfranchised State.

"The reports you allude to about bulldozing and intimidation of our voters from the South Carolina brigands are certainly correct

"The conspiracy is led by one Knox Livingston, a very prominent lawyer of Bennettsville, and Press Gibson, of the same place. Livingston is making inflammatory speeches in our county, and Gibson has come out in the public prints of the county of ring to head one thousand "red shirts" from Bennettsville to intimidate and scare our vot-rs. Other towns and villages along the line are offering squads and companies, head-d by rich merchants and corporationists. They are operating through and with a political organization knows as White Unions. They are meeting with these White Unions and make night hideous with their drunken revelry. In my neighborhood they make life burdensome for a Populist.

"This has been going on about three weeks, and getting worse every day.

Severs His Connection With Them.

I have beretofore been a DEMOCRAT, and have always given the nominees of that party my true and loyal support; but seeing that the leaders of the party have ABANDONED EVERY PRINCIPLE OF TRUE DE-MOCRACY, as proclaimed by Jefferson and Jackson and the founders of our grand and noble system of government-simply retaining the name without the principles - I can no longer conscientiously support them, and take this occasion to sever my connection with them. In short, that party seems to have cast aside all its once boasted high principles and descended into mug-slipging, abust and the false err of mercer ended into muc-slinging, abuse and the false cry of "negro" to obtain office. It is plain that this cry of negro, negro, is resorted to to deceive and mislead the people into again restoring them to power. I dare say there is not an intelligent man in the party that entertains any fear of negro rule in the State or pation, and when all appears to be peace and good feeling between the races, the machine appeals to prejudice and passion to engender hatred and ill-will. It is clear to my view that the Democratic leaders are concealing

from the people their real intention or purpose, which is to take power from the people, as they did in the legislature of 1876-77, thus depriv-ing them of the election of most of their officers. Upon their return to power again, they will not only do this, but will virtually disfranchise at least one-half of the voters of the State by the enactment of an election isw similar to Mississippi's. This action will not only disfranchise the negroes, but white men also, for no discrimination can be made on account of race.

Hence I would appeal to all conservative, fair-minded Democrats (I mean the massess, not the leaders and strikers of the party) to awake to a realization of the situation-not lie supinely upon their backs and listen to the siran song of "white supremany" satil they are stringed

The Democratic machine politicians who are paid by the railroads to yell "nigger," are trying to buildoze and frightened voters. Every voter ought to be afraid for such a machine to get in power, and the more they try to buildoze, the harder he should work to defeat such men and methods. The Democratic party of North Carolina "respectfully declined" to make a fight for nine free silver congressmen and for a State legislature that would not be under the influence and control of railroads and other corporations.
