SIX MONTHS..... THREE MONTHS.....

TROUBLE WITH THE PHILIPPINOS The Phillipinos, according to predispatches, are preparing to rebet against American military govern ment of the Islands. They claim that they have a duly established govern ment, performing all of the functions of a civilized governing power, and bave directed their representative in this country, Senor Felipe Agoncillo to demand recognition of them as such by this government, and that this gov ernment should treat with them as at indeperdent Republic. The President has declined to do this and has issued orders to General O is, in the form of a proclamation, stating that all thoswho rebel against the military govern ment by the United States, will bdealt with as rebels and the strong arm of the government used to suppress them.

But the Phillipinos claim that they bave already established a government, that they are imposing and col lecting revenues, adminis ering justice, maintaining posteffices, caring for public instruction, in fact performing all of the functions incident to civil-z-d control Now, if they continue in their opposition to the conthe President has said they must be put down by the strong arm of this government, which means that they will be slaughtered into submission. Now these same Fillipinos, whether right or wrong, rebelled against Spanish rule, and Spain endeavored by her strong arm to suppress them, and in doing so met with the condemnation of this country; but it seems that this country will also have to adopt stren uous methods of suppression in con trolling the Islands. In doing so will we appear in any more favorable light before the world than did Spain. We suppose it is not a matter of choice for the Fillipines, claiming to fight for in the first instance a nation of kindred tongue were trying to force them wholly different from and uncongenial

PREVENTING RAILROAD ACCIDENTS. Sceeptably. cars with safety couplers, air brakes, ling public against frequency of ratiroad accidents. This bill was passed after a hard fight the railroad companies strongly opposing it because it would put them to considerable extra cost. Mr. Edward A. Moseley, Secretary of the Interstate Commerce Commission, in a recent hearing before the Industrial Commission is Washington, stated that in 1897, on the railroads which had provided themselves with the safety appliances, the statistics showed that notwithstanding the increase in business of these roads, 1,067 fewer men had been killed,

at work, than in 1893. The Supreme Court of North Carolina held last fail that it was the duty of the railroad companies to provide self-couplers and air brakes, and that when employees and travellers were killed or injured by failure to furnish them that the company was liable. The statistics show that last year nearly 70,000 were killed or wounded in the United States by reason of the failure of railroads to provide these safeguards; and, in North Carolina, near ly one thousand were killed or wounded from some cause. Notwithstanding these figures and the court's decision. however, as soon as this Legislature met a bill was introduced to require railroads to furnish these appliances after January 1st, 1900, and with the power to the Railroad Commission to further extend the time. This railroad measure seeks to take from the 9,060 railroad employees in North Carolina the present Secretary of State in additegrity. It will rid North Carolina thus contradicting what Dr. Dixon and the travelling public the protection to the salary allowed him by law. forever of a neisance." tion they now have, under the adroit guise of giving it some time in the fu- would have smacked less of partisan ture. The people of the State should spite, if it had read, investigate the watch such measures as these.

TRYING TO APOLOGIZE.

The Charlotte Observer and the News and Observer are almost each day in editorials trying to apologize for the legislature in advance for not reducing taxation and appropriations. In the last campaign one of the stock campaign cries of the Democrats was that the fusionists had not reduced faxation and had increased appropriations. In reply it was pointed out raised it from corporations and moproperly and sufficiently by the Demwere further challenged to point out a ple" directly concerned, single appropriation made by the legislatures of 1895 and 1897 that was not necessary and wise. All of this, saw which way the wind was blowing though, went for naught. Their howl it comes out flat-footed against Capt. continued that appropriations had Day's appointment. Tortured By Rheumatism.

Remedy is the Only Cure.

If the people generally knew the true cause of Rheumatism, there would be no such thing as liniof the blood-it can be reached. therefore, only through the blood. But all blood remedies can not cure Rheumatism, for it is an obstinate disease, one which requires a real blood remedy-something more than a mere tonic. Swift's Specific is the only real blood remedy, and it

HIS PATHER WAS NOT A MEMBER.

The Morning Post says:

"We were sincerely sorry for a bright little boy when last evening he said to us, aimest choking with the motion. "They are not going to appoint any Raleiph boy apegin the people are not willing to be a page and would have made a good one.

Surely this boy was mistaken. No one would do such (?) thrugs, but Populists. D-mocrats did once, but have goiten (!) too patriotic. Repersonsible party who is prepared to do the work. After careful scrating the promptly, and at the lowest resonsible party who is prepared to to the work well and now would do such (?) thrugs, but Populists. D-mocrats did once, but have goiten (!) too patriotic. Repersonsible party who is prepared to do the work required for the public service they do concent the most obstinate case.

A few years ago I was taken with institution. J. H.
