ELECTION FRAUDS, INTIMIDATION AND MURDER.

THE MOST PAINFUL VOTE I EVER GAVE IN MY LIFE WAS FOR THE CONSTITUTIONAL AMENDMENT. I DID NOT GIVE THAT VOTE AS A DEMOCRAT NOR FOR THE SUCCESS OF THE DEMOCRATIC PARTY; BECAUSE I VERILY BELIEVE THAT IT WOULD BE BETTER FOR THE DEMOCRATIC PARTY FOR THE NEGRO TO CONTINUE AN ISSUE IN POLITICS. BUT I GAVE THE VOTE BECAUSE I FELT IT WOULD BE BETTER FOR THE POOR NEGRO WE HAVE LEARNED TO LOVE FOR HIS FAITHFULNESS. I VOTED FOR IT TO PUT AN END TO ELECTION FRAUDS, TO INTIMIDATIONS AND MURDER. I GAVE THAT VOTE FOR THE GOOD OF MY POPULIST AND WHITE REPUBLICAN FRIENDS WHO COULD, IF THE NEGRO WAS ELIMINATED FROM POLITICS, DISCUSS THE GREAT STATE AND NATIONAL ISSUES WITHOUT BEING CALLED "BLACK-HEADED." SENATOR OSBORNE, IN THE LEGISLATURE OF 1899.

LEGISLATION BY THE PEOPLE.

The most democratic method of legislation known is the New England town meetings. At these New England town meetings everybody turns out at a public hall or a public square, and by popular vote, determines all important questions of government for the town. It is admitted by everyone familiar with these meetings that it is the most perfect form of government and results in most economic, efficient, and honest town governments. In no town that is governed by the town meetings has there ever been any corruption or bribery or scandal of any kind. Town aldermen, members of the legislature and members of Congress may be corrupted, and enough of them may be corrupted to effect legislation, but the people in mass have been corrupted and never will be.

If our State Legislature could be enacted in the same way that legislation is enacted in the New England towns by the New England town meetings, then we would have the best, most efficient and most economic state government in every state, where the people would rule absolutely. We take it that everybody will admit this to be true; but in reply to this the politicians say it is impossible for the voice of the people to be directly utilized in state legislatures, and that therefore state legislation must be enacted through representatives. They admit that these state representatives (members of legislatures) often misrepresent the wishes and desires of the people, but they say that that is one of the evils of popular government and we must submit to it, for it is the best we can do.

If this statement were true the answer would be conclusive; but it is not true, for there is a method and a means by which state legislation can be enacted in practically the same way that the New England towns are governed by the town meetings. It is through the method known as direct legislation, or the Initiative and Referendum. This is a method by which a part of the legislative power of a state is reserved by the people themselves instead of vesting all of it in a legislature. That is: for the people to reserve the right to petition a legislature to submit any given question to a direct vote of the people whenever a certain per cent. of the voters sign a petition, and also the right to have any law passed by a legislature submitted to a direct vote of the people before it shall go into effect whenever a certain per cent. of the people petition for this to be done. This would be a great check upon legislative bodies. When members of legislatures know that the people can at once undo anything that they do, or can, by petition, force them to do what ought to be done, whether they will or not, then legislatures will at once become more responsive to the popular will. As a rule, every legislature knows exactly what the people want done. Therefore, if the legislature knew that the people's will could not be balked they would often respond to the popular will. Hence with the initiative and referendum in force it would not often be necessary for the people to resort to it.

At its last election, the state of South Dakota adopted a constitutional amendment, reserving this right to the people. The recent legislature of Utah, just before adjourning, submitted to the people a constitutional amendment providing for the adoption of the initiative and referendum. When this system shall have been adopted in every state, as it ought to be, and we trust will be, then indeed will the people rule. So far, the People's Party is the only party that has been in favor of intrusting the people with this power. Each day, as the people learn more and more about the People's Party, they will know that it is truly and verily the party of the people.

Nearly every newspaper that one picks up is nowadays filled with news items and editorial utterances about trusts. The alarming growth and the menacing evil of the gigantic combinations which destroy competition, break down individual enterprises, and breed stagnation and hard times, have so attracted public attention that every newspaper has found itself forced to discuss the question. Even newspapers that are believed to be friendly to trusts, are forced to take note of the alarming increase of trusts and to offer false and bogus remedies for an evil they dare not defend openly. The politicians of both parties have already begun to declare that the other party is responsible for trusts.

THE CAUCASIAN has been pointing out these evils for years, and it is glad to have suddenly received so much help, whether it is the sincere awakening of those who have in the past been asleep, or whether it is the shrewd underwriting of the mouthpiece of the trusts attempting to mislead the people with false lights. There is no necessity, however, for anybody to be in doubt about how to get rid of trusts, or for anybody to be fooled by those who offer false remedies. Every evil has a cause. The first step in getting rid of an evil is to find the cause; the next step is to remove the cause, and then the whole job is done. THE CAUCASIAN will support any party or the candidates of any party that will pledge itself to remove the causes that produce trusts.

THE OTHER DAY when depositions were being taken in Wilmington, in the B. Hamy-Dockery contest, members of the hardware firm of Jacob and Sons testified that they did not sell any more fire arms during the last campaign than during other campaign years when there were no riots or murders. THE CAUCASIAN was very much surprised at seeing this testimony, for our information was just to the contrary. A few days ago we learned from a certain country merchant living not more than one hundred miles from Wilmington, that he was in Wilmington just preceding the election and that he heard members of the Jacob firm and others boasting that they could not order firearms in great enough quantities to supply the demand. That they said further that before one consignment could reach them the demand was so great that they had to send new orders. That they boasted further that these were all sold to white men and not to negroes. Not only this but that the Red Shirts would not allow any merchant to sell firearms or powder or shot or ammunition of any kind to negroes, and that one small suburban merchant who did sell some powder and shot to a negro was waited upon and informed that if such an offense was committed again he would be run out of the town. We have no doubt that this information is correct, for it is in harmony with everything else that we heard during the campaign about that hotbed of revolution and anarchy that has disgraced the State and put a blot upon the fair city by the sea. Hence our great surprise at reading in the Wilmington papers the strange testimony of members of these hardware firms. O! Good government! what crimes are committed in thy name.

Every day somebody is asking, "How are we going to get rid of trusts?" The answer is easy. Remove the causes that breed them. Are you in favor of doing that? We must not let our rebellious subjects in the Philippines and our proteges in part in Samoa cause us to overlook or forget to keep tab upon our fellow citizens, the Chinese and Japanese in Hawaii.

When you ask for Dr. M. A. Simmons Liver Medicine cure the ailments you get it and not some worthless imitation.

Every since the last legislature adjourned there has come light each week two or three serious or ridiculous blunders committed by that wonderful legislature which claimed to have a monopoly on the patriotism and brains of the State. The last blunder discovered, No. 13, is the Dispensary laws. It seems that there was slipped into the bill a provision requiring a physician's prescription before whiskey could be bought at a dispensary, and another provision imposing a tax upon the dispensary so heavy as to tax them out of existence. Was this a blunder, or did the whiskey trust have its finger in the pie?

The legislature of Nebraska, just before adjourning, passed a resolution instructing the Senators from that State and requesting its members in Congress to vote at the next session of Congress for the adoption of a system of postal saving banks. In this connection, let it be remembered, that at the last session of the United States Senate, the Committee on Postoffice and Postroads reported favorably the bill introduced by Senator Butler to establish such a system. Those interested in the subject should write to their Senators and Congressmen and urge them to vote for that bill. They should also write to their Senators and Congressmen and ask them to send them the committee report in support of that bill. The report is known as Senate Document No. 1,504, 3rd Session Fifty-fifth Congress.

In the more than one hundred years of the history of North Carolina, this is the first time that the State has on its hands a legislature that did not know when it was through, or how many errors it had committed; and was forced to appoint a future date of meeting again to review its work. Of course there is no provision in law and could be none under the Constitution by which they could draw mileage and per diem for this bastard session, to be held next Jan., unless the Red Shirts organize and by revolution and bloodshed usurp the government as in Wilmington, Geo. Bro. Worth, and take the money from the treasury and pay themselves ad libitum. But this will hardly be necessary, because there are too many corporate interests in the State that are vitally interested in this legislative mark for kidney troubles and all diseases of the bladder and kidneys. The experience of Mr. J. Brake, Petrolia, Ont., Canada, is well told in his letter which follows:

DEAR SIR:—Four years ago I had a severe attack of Bright's disease, which brought me so low the doctor said nothing more could be done for me. When one of your lectures on the above disease was read to me I began to take Peruna and Man-A-Lin, and found it acted just as represented. In three months I was a well man, and have continued so ever since. Seeing the good effects on me, numbers of people of this town have called on me who were suffering from dyspepsia. They have taken your medicine with the best results.

Peruna is the scientific remedy for catarrh. Bright's disease is catarrh of the kidneys. Diarrhea is catarrh of the bowels. Write to the Peruna Medicine Co., Columbus, O., for Dr. Hagan's free book on catarrh, in which these things are clearly explained.

Mr. A. W. Conle, manager Gem nickel mines, Hillside, Col., writes: "I tried Peruna for catarrh. My hearing was almost gone in one ear, and one bottle of Peruna cured me."

To the negro problem of the South is to be added the Malay Problem of the East. Have we found the first of such easy solution that we must consider it a pleasure and advantage to assume the responsibilities of the latter? We think not.

Will the newspapers and writers denounce and ridicule the People's Party doctrine of government and municipal ownership of all public utilities as a crazy scheme of Populist cranks, explain to us why it is that the city of Toledo, Ohio, is so filled with these cranks that in a recent municipal election they rolled up a ten thousand majority over both Democratic and Republican candidates for mayor in favor of the Independent candidate who made his light upon the platform of city ownership of all public utilities? And while they are at it, they might also explain what has caused the phenomenal growth of sentiment in favor of this People's Party doctrine and the vast increase in the number of cranks favoring it in all of the large cities of the United States.

The man who attends to his own business and does not meddle with the affairs of others, is pretty apt to steer clear of personal difficulties. Just so with a nation. For an hundred years and more the United States has followed this wise policy, and it has remained for the present Administration to take forcible possession of territory in the Orient, the battle ground of nations. Unless this new policy is discontinued, we will sooner or later be drawn into international strife.

When we have subjected the Philippines we will have finished our first war of conquest. It is no excuse to say we purchased the islands from Spain, and that therefore it is not a war of conquest. The fact remains that we have to conquer the natives before we can have a peaceful title. And this being done at the cost of great loss of life to our American soldier boys.

WHY OVERWORK?

It is hard for men of energy to keep their devotion to their business within bounds. The spur of necessity or ambition disregards health. Overworked men are an easy mark for kidney troubles and all diseases of the bladder and kidneys. The experience of Mr. J. Brake, Petrolia, Ont., Canada, is well told in his letter which follows:

"A MONSTROUS ABSURDITY."

The correspondent of the Charlotte Observer, writing to that paper from Fayetteville, under date of March 4th, says: The Observer correctly gauges public sentiment in throwing out a word of warning against taking for granted the carrying of the ballot box of the suffrage constitutional amendment. It will require hard work from the rank and file and leaders of the party. There is certainly no cloud on the title of the Cape Fear River oarman to orthodoxy, but the writer is surprised at the number of leading Democrats whom he meets opposed to the amendment. The clause about the "grand son of his grand father" is especially decried as a monstrous absurdity.

The suffrage amendment referred to above, which was adopted by the last Legislature, is as follows: SECTION 1. That Article VI of the Constitution of North Carolina, and the same is hereby repealed, and in lieu thereof shall be substituted the following Article of Said Constitution:

ARTICLE VI. Suffrage and Eligibility of Officer—Qualifications of an Elector. SECTION 1. Every male person born in the United States, and every male person who has been naturalized, 21 years of age and possessing the qualifications set out in this Article shall be entitled to vote at any election by the people in the State, except as herein otherwise provided. SEC. 2. He shall have resided in the State of North Carolina for two years, in the county six months and in the precinct, ward or other election district, in which he offers to vote four months next preceding the election: Provided, That removal from one precinct, ward or other election district to another in the same county, shall not operate to deprive any person of the right to vote in a precinct, ward or other election district from which he has removed until after such removal. No person who has been convicted, or who has confessed his guilt in open court upon indictment, of any crime, the punishment of which is, or may thereafter be, imprisonment in the State prison, shall be permitted to vote unless the said person shall be first restored to citizenship in the manner prescribed by law.

SEC. 3. Every person offering to vote shall be at the time a legally registered voter as herein prescribed and in the manner hereinafter provided by law, and the General Assembly of North Carolina shall enact general registration laws to carry into effect the provisions of this Article. SEC. 4. Every person presenting himself for registration shall be able to read and write any section of the Constitution in the English language; and, in addition thereto, shall have paid on or before the first day of March of the year in which he proposes to vote, his poll tax, as prescribed by law, for the previous year, and he shall exhibit his receipt therefor when he offers to vote. Poll taxes shall be a lien only on assessed property, and no process shall issue to enforce the collection of the same except against assessed property. SEC. 5. No male person, who was on January 1, 1867, or at any time prior thereto, entitled to vote under the laws of any State in the United States wherein he then resided, and no lineal descendant of any such person; shall be denied the right to register and vote at any election in this State by reason of his failure to possess the educational qualifications prescribed in section 4 of this Article: Provided, He shall have registered in accordance with this Article prior to December 1, 1908, and no person shall be entitled to register under this section after that date.

The General Assembly shall, at its first session after the adoption of this amendment, provide the manner in which the classes of persons provided for in this section shall register. SEC. 6. All elections by the people shall be by ballot, and all elections by the General Assembly shall be viva voce. SEC. 7. Every voter in North Carolina, except as in this Art. disqualified, shall be eligible to office, but before entering upon the duties of the office he shall take and subscribe the following oath: "I,, do solemnly swear or affirm, that I will support and maintain the constitution and laws of the U. S. and the constitution and laws of North Carolina, not inconsistent therewith, and that I will faithfully discharge the duties of my office as So help me God."

SEC. 8. The following classes of persons shall be disqualified for office: First, all persons who deny the being of Almighty God. Second, all persons who shall have been convicted or confessed their guilt on indictment pending, and whether sentenced or not; or under judgment suspended, of any treason or felony, or any other crime for which the punishment may be imprisonment in the penitentiary, since becoming citizens of the United States, of corruption and malpractice in office unless such persons shall be restored to the rights of citizenship in a manner prescribed by law. SEC. 9. The set hall be in force from and after its ratification.

HAVE YOU WEAK LUNGS?

Every sufferer from Lung Weakness, Consumption, Asthma, Catarrh or Bronchitis Can Be Cured. Complete FREE Course of Treatment consisting of Four Preparations - The Stocum System -

Nearly everybody who meet will regard it as a kind of insult to be asked if they have weak lungs. All seem to have a solid faith in the soundness of their own breathing machine. In cases of trouble they will admit there is a "heavy cold," "a touch of bronchitis," or even "a spell of asthma," but as to weak or unsound lungs, never, NEVER. Even the poor consumptive, who scarcely speaks without coughing, whose cheeks are wasted, hollow and bear the hectic flush of doom, will assure you with glittering eyes that he could do as the mend and he will be all right when the weather changes. It is simply terrible to think how far we may be guilty by our indifference to the lung troubles of those near and dear to us. It is also a sad thought that we may lug a delusion as to our own health that we only get rid of when life itself must pay the forfeit. Nobody can afford to think lightly of lung troubles. Nobody can afford to be mistaken about their possible danger. Nobody can afford to neglect them, or "let them wear out," or "get better in the spring," or any other foolery that leads only to wreck and ruin. Lung troubles don't move backward. Weak lungs don't grow strong by themselves—you must heal them and strengthen them, and rid them of the very earliest germ of disease, or you are simply committing a form of suicide. Either you must cure your

lung troubles or THEY WILL KILL YOU. That's the whole situation in a nutshell. Never was there a cure for lung troubles equal to the newly discovered Dr. Stocum treatment. This forms a system of Four Remedies that are used simultaneously and supplement each other's curative action. It cures weak lung bronchitis, asthma, coughs, consumption and every other ailment of the pulmonary region. It destroys every germ that can affect the respiratory system and even in advanced stages of lung trouble positively arrests the tubercular growth, while it also builds up the patient so that his system is enabled to throw off germs, rheumatism, catarrh, and other wasting diseases. Thousands of cured cases already prove these claims. Thousands of grateful people bless the discovery. The Doctor wants everybody to know the surprising merits of his system. He has arranged to give a free treatment (Four Preparations) to all sufferers. Full instructions for use accompany each treatment. Write at once to Dr. T. A. Stocum Laboratories, 96 and 98 Pine Street, New York City, giving full express and post-office address, and mention this paper. Delay only makes your trouble worse.

LAUREL, N. C., April 18, 1900. Mr. Editor:—As you request to hear from "Populist," I write to give my views of the amendment, etc. I will never vote a ballot that says that any nigger is more honorable and better qualified to vote than my illiterate white Christian neighbor, who, through the sweat of his brow and economy, has accumulated one thousand dollars' worth of real and personal property and pays the taxes punctually when due.

The idea of taxing the economic class of wealth producing citizens of North Carolina without representation is anarchy in its worst form, and all on account of the class of Feltile cake with big dices that the "dear old Democratic party" has learned to love so well (same party born 10th and 11th).

I see they have called in help from Georgia to look over the nigger ballot suffrage and Jim Crowism of legislature, in which he gives me as many faces as Ptolemy could assume shapes. This Georgia help prevent the bitterest campaign on record, with cyclones, tornadoes, red shirts, negroes and their accomplices. White men of the west, all the vicious legislation is for you. Will you take this drunk potage? Bill Arp says of the 1,000 negroes in the Georgia chain gang that 75 per cent of them are educated and the chain gangs of the other States are the same, so statistics show. Now you see the model of nigger suffrage set up this immaculate legislature of 1899. This is the salary blasted so much in the campaign. Bill Arp says that a Georgia politician says the moon is running left-handed and going South rapidly. Arp accounts for this to explain a cause. I do not agree with him for I think the man in the moon is steering clear of the zenith meridian of North Carolina for the same reason that Zeb Vance said he held his nose when he went over Washington City.

WOMEN SHOULD KNOW IT. Many women suffer until they are weary because the nature of the disease is not correctly understood. They have been led to believe the worst trouble or female weakness is made miserable with kidney and bladder trouble in the back, weakness of urinary system, profuse or scanty supply of urine with strong odor, urinary desire to pass it with stinging or burning sensation, sediment in urine after standing in bottle or container for twenty-four hours, are signs of kidney and bladder trouble. The above symptoms are often distributed by the patient herself or by her physician to female weakness or womb trouble. Hence, so many fail to make recoveries of the original kidney and bladder trouble, but a remedy.
