### ELECTION FRAUDS, INTIMIDATION AND MURDER.

"THE MOST PAINFUL VOTE I EVER GAVE IN MY LIFE WAS FOR THE CONSTITUTION AL AMENDMENT, I DID NOT GIVE THAT VOTE AS A DEMOCRAT. ## TWO ANTI-TRUST LAWS.

The Missouri Court of Appeals has just rendered a decision in a true case which is attracting wide atten tion, and which, just at this time, i view of the miserable make-shift o an anti-trust law which the last leg islature passed, is of peculiar inter est to the voters of North Carolina The details of the case were as fol

The National Lead Company, ; trust, brought suit to recover a deb of \$1,700 due it by the S. E. Grot-Paint Store Company of St. Louis The lower court decided in favor o the trust, whereupon the Grote Company appealed and won. The de fence was that the National Lead Company, being a trust, was opera ted in violation of the Missouri anti trust law of 1891, which says tha "any purchaser of any article o commodity from any individual company or corporation, transacting business contrary to the preceding sections of this act (the Missouri ap ti-trust law) shall not be liable fo the price or payment of such articles or commodity." Under this decis ion trusts in Missouri cannot resor to the courts for collection of debi due them. And herein is the differ ence between the anti-trust law o Missouri (which seems to be as effec tive as it is possible for a state lav dealing with Trusts to be) and the anti trust (?) law of North Carolins THE CAUCASIAN has several times called attention to the fact that thoriginal bill introduced in the legis lature (which contained really effec tive anti-trust provisions) was shore of all of its power to reach trusts and that the law as finally passed was nothing but a sham and a fraud One of the provisions stricken out o the proposed bill was one prohibiting the trusts from using the courts fo the enforcement of contracts and the collection of debts. This is really the most effective way in which state can deal with the trust prob lem, as evidenced by the Missour decision above referred to; and o course such a legislature as North Carolina's last one, containing as i did so, many corporation lawyers did not pass a bill containing this effective provision or in fact any provision that was likely to prove objectionable or troublesome to the trusts. Without this provision the Missouri court could not have rendered an adverse decision to the trusts; without this or any other effective provision, the anti-trust law, as it now is, may remain upon the statute books forever without accomplishing any result except an extravagant waste of the paper upon which it is written.

Philadelphia Bulletin. Sensible and broadly patriotic Americans will not regret the announcement that Libby Prison which

was moved to Chicago as a feature of the Columbian Exposition, is to be demolished, probably never to be rebuilt. No good purpose can be served by the preservation of this structure, with its attendant memories of suffering and hatred. In spite of differences in political opinion the North and South have been knit closely together in the bonds of common Americanism by the stirring events of the last twelve months. The nation applauds the courage of Joe Wheeler, of Alabama, and Winfield Scott Schley, of Maryland, as heartily as the heroism of George Melville Dewey, of Vermont. Northern and Southern men an-

swered the call of the President with equal promptness and equal loyalty. There was no sectional distinction among the fighters who aimed the guns that sunk Cervera's ships or in the ranks that stormed the stubborny held Spanish positions at El Cadev and San Juan hill. The old flu is honored all over the country to day, and while the people of the North and South have a mutual oride and interest in the battle fields where the soldiers of both contended for mastery, it is far better that ity as Libby Prison should be abolished. There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much bette off to-day if they had never allowed them selves to be dosed on mercury and potest, the only remedies which the doctors ever give for blood poison.

this vile poison, and only attempt to heal up the outward appearance of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant does of potash and mercury.
