moved up before our next issue, in a recent issue of The Caucasian oppored an article signed "X Rays" supposing a substitute for the amend most. This has attracted a good deal of attention, in that it has directed attention to a view of the matter that has not before been discussed by the press so far as we are inraned. In this issue will be found another communication setting forth further reasons for the adoption of a substitute. We bespeak for this article careful perusal and earnest consideration.

In spite of hundreds of requests yearly from doctors in all parts of the world, asking for the privilege of using Dr. Hathaway's method of treatment, he believes it wiser to allow none beside himself the knowledge of his remedies, as he is too well aware of the mischief which may be done by the unskillful use of any system, never mind how perfect.

Why a Texas Farmer and Compress Man Cotton Company's Package.

The following letter from Mr. J Adoue, of Calvert, Texas is interesting as showing the attitude toward the American Cotton Company's Roundtap bale of a man who is a cotton farmer as well as the owner of a square

bale compress.

Dear Sir: A few days ago I noticed a bill introduced in the Legislature proposing to tax your company 40 per cent, of its gross receipts. I presume the bill is intended to confiscate your property or drive you out of the State. "Your machinery compresses the cotton in a smaller and better package than the present compresses You are in the field now offering to save the notton growers fully \$100 per bale by reason of compressing the cotton

at the gin and the saving of bagging and ties, ardage, etc. "No doubt it is the intention of the Legislature to protect the present compresses from your iniquitous competition and as a compress man I want them to do it.

As a farmer, however, I hope you will not be driven out; I want to contime to sell you my cotton at about \$1 00 per bale more than if put up in equare bales.

Yours truty, (Signed) J. ADOUR, CALVERY, 1 . XAS, Feb. 24, 1899."
