This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed. Cancer can not be cured by a surgical

poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S.
