THANKS, FRIENDS.

We thank our friends throughout the State for the interest they are manifesting in the work THE CAUCASIAN is doing. Every mail brings us kind words and new subscribers.

HOW IS IT, ANYWAY?

Is there a county in the State that now has twenty-five negro postmasters in it? This is the report being scattered over the State. At least, we heard a traveling gentleman telling this, and making the impression that that was his reason for wanting the amendment adopted.

A GRAND SENTIMENT.

Hon. S. B. Adams in accepting the Republican nomination for Governor, among many other good things said: "I see in the Democratic papers that the gentleman on the Democratic ticket had made the assertion that there are three ways by which the Democratic party can win in this election, one by force, one by fraud, and one by law."

A COMPARISON BETWEEN CANDIDATES.

The people of North Carolina have learned by sad experience to look askance upon the promises of the Democratic party. That party's pledges and solemn promises made in the last campaign have been unblushingly broken, their oaths trampled under foot, and now while appealing to you to assist in their nefarious scheme to disfranchise thousands of white men in North Carolina, they are holding out the promise that under their control the public school system shall become more efficient, its scope be extended to 4 months. The Constitution already commands 4 months schooling, and the Democratic party only promises to carry out the Constitutional provision.

THE LOUISIANA ELECTION LAW—NOW IT WORKS.

The election law in Louisiana, like the one we are asked to vote on in North Carolina, has not settled the trouble in Louisiana. It's true it gave the Machine the recent election and all they asked for, but at the same time it gave the law and its supporters the most profound contempt of all honest citizens of that State. "Ring rule" is proving a failure in that State at first pass.

THE FARMVILLE GAZETTE.

The Farmville Gazette, the organ of Governor-elect Heard, has seen the folly of it, and says there is entirely "too much red tape, which the coming Legislature should take steps to remedy." Continuing, it says: "Believing that the ballot box should be as free and untrammelled as possible, we think that the ability to register should be the only doorway to the right to vote. Then there should be no hindrance to his casting his ballot just as he pleases."

MR. J. C. STEVENSON.

Mr. J. C. Stevenson was called upon to introduce Gen. Thomas F. Toon, of Robeson, candidate for Superintendent of Public Instruction. Mr. Stevenson complimented Gen. Toon's record in the civil war. Gen. Toon referred in terms of gratitude to the action of the Democratic State Convention in recognizing in him the Confederate soldier, now passing away. He expressed his sympathy with the objects aimed at by the constitutional amendment, and pledged himself to extend and improve the public school system.

Y GODS, WHAT A SPECTACLE!

The party of brains and intelligence nominated a man for Superintendent of Instruction whose only qualification is that he could kill Yankees thirty-five years ago. Superintendent Mebane had referred to the great army of school children in the State. So the Democratic party thought that they needed a soldier, not an educator, to drill them.

A MOVE IN THE RIGHT DIRECTION.

In Alabama, the churches in their conferences, etc., are preparing to discuss publicly and practically the race problem in the South. This is right. Why they have not done so before, is a question over which the world is stumbling into skepticism. All political questions are—or should be—based on some great moral principle. If they are not, then good people can not in any way encourage them—they must be "hands off." When the light of Divine Truth, the spirit of Christ, is turned upon the race question, then we may look for justice to both races. Then we may expect, and will have, "white supremacy" for that means more than the color of the skin or the success of any party, or the mere getting of offices. Then we will have fair discussions of all questions and fair elections. Then such things as red shirtism will be universally condemned as a relic of the dark ages, and a blot and a disgrace on Christian civilization. The Church can not longer remain silent without reaping the consequences of its having existed in vain.

THE RESULT OF FAIR DISCUSSION.

The Semi-annual debate between the Democratic and Philanthropic Societies of the State University took place a few days ago. The question at issue was "Resolved, that the Amendment as proposed by the last Legislature, should be made a part of our State Constitution."

THE CHARLOTTE OBSERVER.

The Charlotte Observer says the amendment should be adopted for two reasons: (1) "To give North Carolina what it never had before—an educated electorate." (2) "When the ignorant vote (those who can read will vote) is eliminated, men will be free to think, speak and write as they feel—THIS THEY CAN NOT DO NOW."
