More Proof That the Simmons Diefranchising Machine is After the White Man More Than the Negro. For the Caucasian:

Whiteville, N. C., July 7 .- The Democratic registrar in Fairbluff township is refusing to register white men without any cause. 1 mention a case in point:

Mr. John Edmund, a man who is forty years old, a farmer, and who has lived here all of his life and voted at every election has been denied registration. He answered correctly every question and complied fully in every respect with the law. After the registrar had sworn him he proceeded to enter his name on a slip of paper. When Mr. Edmands called the attention of the registrar to the fact that he ought to register him by putting his name in the Registration BOOK and not on a separate piece of paper, the registrar got mad and refused to register him at all. This registrar is no doubt acting under instructions from Mr. Simmons. Thus we see that this political machine has begun already to disfranchise white men even before they get their infamous disfranchising amendment adopted. Their high handed conduct has caused much indignation here and will cause the amendment to lose many votes. This is a case where truly "Whom the gods would destroy they first make mad,"

Since then we have received information from many other places showing that negroes have been appointed by the wholesale. The list would fill a column of THE CAUCASIAN.

We give a few more illustrations: In Pitt county, out of fourteen poll holders, to which the Populists were entitled, the Democratic election board appointed NINE negroes. when the Populists offered and recommended the names of good and intelligent white men.
