DOES DANIELS SPEAK FOR BRYAN.

"We will not permit Butler to take any part in the Democratic campaign for Bryan," said Joseph Daniels, Democratic National Committeeman for North Carolina. "He cannot speak upon any Democratic stage, and will be repudiated by us."—Washington Star.

Simmons admitted receiving campaign money from the Southern Railroad as follows:

"I HAVE NEVER APPEARED FOR THE SOUTHERN RAILROAD IN ANY CAPACITY. IT HAS NEVER PAID ME A CENT OF MONEY IN MY LIFE EXCEPT A CONTRIBUTION MADE TO ME AS CHAIRMAN OF THE COMMITTEE IN 1908, WHICH WAS SPENT FOR THE BENEFIT OF THE PARTY."
Extract from Simmons' letter in the News and Observer, Sept. 15th, 1909.

BECOMING ASHAMED.

E. W. Poff, moderate candidate for Congress in the Fourth District, in a speech in Raleigh, last week, said:

"The Democratic party is a conservative party. Anarchy is abhorrent to us."
Let us repeat the last sentence: "Anarchy is abhorrent to us." Heaven save the mark!
The Democratic machine in the campaigns of 1898 and 1900 indulged in anarchy in various parts of the State, and now comes forward this beneficiary of such methods who declares that "anarchy is abhorrent to us."
We are truly glad to learn that even the chief beneficiaries of anarchy and red-shirtism are becoming ashamed of themselves.
But the speaker is certainly putting the North Carolina brand of Democracy in a most false light when he declares that "anarchy is abhorrent" to it. Without anarchy, riot, red-shirtism and violence the present organized Democracy would never have obtained power in this State.

AN APPEAL TO THE NEGROES.

The more one reads the average machine papers in the State the more is he convinced of the ridiculous inconsistency of these papers on the negro question.
While pretending to be opposed to negroes voting, yet they never lose an opportunity to appeal for their support, or to announce publicly whenever a negro declares his purpose to vote the Democratic, or recent issue had an editorial appealing to the negroes to vote the Democratic ticket.
This journal also urged the negro to hasten to educate himself in order to be qualified to vote when the amendment goes into effect.
We quote from that paper as follows:
"The adoption of this amendment should make the negro feel the pressing need of educating the rising and succeeding generations of his race."
Why should the Southerner deem it a "pressing need" for the negro to educate himself in order to vote, if that paper is honestly opposed to the negro in politics.
Why should that paper appeal to the negro vote and then urge him to educate himself if he is such a disturbing element in politics?

SCARCITY OF LABOR.

From the last issue of the Tarboro Southerner we clip the following:
"As illustrative of the scarcity of labor in this county, or some portion of it, there are fields of cotton which have never been picked."
That paper does not assign any particular cause for the scarcity of labor, but there was not such general complaint of a lack of farm labor, both being waged solely on the "big get" issue.
Many negroes have resented the attacks on them by leaving the State, and this is the cause of the scarcity of labor in various sections of the State. If farmers have any trouble in securing labor next year they should place the blame on the Simmons machine, where it belongs.
But the best element in the Democratic party are tired of the demands of the Simmonsites for they see and know that they are injurious to the material welfare of the State. No one can blame the negro for leaving, but it is to be hoped that for the material good of the State he will remain here.

SOME OF THE SIMMONS ORGANS

Some of the Simmons organs took delight in ridiculing Gen Carr for daring to enter the race against the man who won the election by the most despicable methods known to politics. At one point in the State where Gen Carr went one of the Simmons organs accused Carr of being "undignified." A man who opposes the methods of the machine immediately becomes the target for abuse, vilification and obloquy. Doubtless Gen Carr and his supporters have learned this.

THE STRIKE IN ALAMANCE

Some time since quite a number of mill operatives in Alamance county went out on a strike. The mill owners posted notices about their property that no operative could secure employment in their mills if he joined, or retained his membership in the Textile Labor Union, an organization formed for the purpose of protecting the rights and interests of the operatives in the event of disagreement with their employers.
There are three or four thousand employees thrown out of employment as a result of the issuance of this order by the mill owners.
These mill men are grossly incensed in trying to deny the right to the operative to join an organization for his protection and benefit, while they at the same time, unite with the Cotton Mill Associations for the purpose of increasing the price of their mill products.
If the mill owners have the right to join an association to aid them, then also the employees own with equal consistency and propriety, to unite with any organization that protects and secures justice for themselves. "Equal rights to all and special privileges to none," is good Jeffersonian doctrine that should be the touchstone and living principle for the guidance of all men, in the various relations of life, in dealing with each other.
The great plain man, who was the friend of the "plain people," said, "Labor is prior to, and independent of, capital. Capital is only the fruit of labor, and could never have existed if labor had not first existed. Labor is the superior of capital and deserves much the highest consideration."
There is an interdependence between labor and capital. One certainly can not exist without the other. If the noble ideas of Lincoln prevailed throughout this country there would be no such thing as a strike or lock out. The capitalist and laborer would truly "dwell together in unity."
Peace, harmony and good feeling would always prevail.
The strikers in Alamance, it is said, have the sympathy of the people in that section in their contest for the right to maintain an organization for their protection.
Furthermore, the National Textile Union has professed aid to the strikers, and will see the fight to the finish. The operators have rights that employers should respect, in common justice.

THE GOEBEL ELECTION LAW REPEALED.

The Kentucky Legislature called into extra session by Governor Beckham for the purpose of repealing the Goebel Election Law, has repealed that law, and enacted one that gives representation to opposing political parties.
The Goebel law, it will be remembered, ignored the rights and was the direct source and cause of all the anarchy, bloodshed and bitterness in Kentucky last year.
It was so manifestly unfair and inequitable that it brought about an open revolt of great numbers of Democrats in that State, who rallied to the support of former Governor Brown, on the issue of "Down with Goebelism and dishonest election methods."
Many Democrats, however, supported the Republican candidate for Governor, in order to make sure the defeat of Goebel, who secured the nomination for Governor by foul and dirty methods.
The Republican candidate was declared elected even by Goebel's own election board, but when the legislature assembled, that body proceeded to obey Goebel's mandate, and they declared him elected Governor. The trouble then began. Everybody who read the papers is familiar with the tragedy, "wars and rumors of wars" that were daily published to the world.
Now, in this State we have on the statute books an election law which in many of its features is a precise counterpart of the Goebel law.
All over the State the opposing parties were absolutely denied any representation of men of their own selection at the polling places in the last election and in a great number of counties, ignorant or purchasable negroes were chosen by the Democratic boards of election to sit in judgment upon the highest privilege conferred upon the white man—that of voting.
And these same Democratic boards of election were daily crying "negro domination," yet at the same time placing negroes at the ballot boxes to keep guard over the rights of their white fellow citizens. This act alone stamps their cry with falsity and hypocrisy.
The negro issue having been settled, as the Democratic papers now declare, then there is no reason whatever for the odious election law to remain on the statute books, for it is a disgrace to any civilized state, and should be immediately repealed. Then one should be enacted that gives fair representation to all political parties. This should and will be done unless the Simmons machine intends to try to perpetuate their rule in the State by resorting to ballot stuffing at every election.
Can honest men endorse or acquiesce in the continuance of fraud and corruption in politics in this State.
Can we expect people from other States to locate here where fraud,

corruption and perjury are constantly resorted to in elections?

Repeat the present law, enact one that is fair and honest and the stigma of dishonesty will be removed from our State.

CONDEMNING BALLOT STUFFING.

Senator James K. Jones, who is chairman of the Democratic National Executive Committee, gives a severe blow to the ballot stuffing machine in this State, as the following dispatch would indicate:
Note of Warning.
Chicago, Oct. 21.—Senator Jones, Chairman of the Democratic National Executive Committee, speaking of Croker's recent suggestion that "Democratic voters be segregated at the polling places on the evening of election day, and on the day thereafter, if the election returns for Bryan do not tally with their count, go into the polling places and throw those follows in charge of the returns to the street," said:
"I don't see anything wrong with that suggestion. Senator Hill, I believe, suggested a baseball bat as being peculiarly appropriate to render justice to a corrupt election judge. In my opinion, the best way for Democrats to be at the polls when they are opened and remain there in good, strong relays until the count is completed. It should be the duty of these Democrats to watch the judges and the count, and to see to it that no fraud is committed, and if any fraud is attempted to stop it then and there."
The Democratic party is opposed to violence, but at the same time it is arraigned in saying that the Democrats fully intend to reap the fruits of their victory. If intimidation is attempted at the polls or fraudulent counting tried by the election judges, there will be Democrats in the vicinity ready to take just such action as may be necessary to stop it.
There will be no intimidation at the polls, ballot box stuffing or fraud of any kind during the year. If either is attempted it will be stopped there and then. And if any one gets hurt in this process of prevention, I hope it will not be the honest man who is doing his duty fairly and well. The Democrats have made an honest campaign. We have appealed to the hearts and heads of the American people. We have won the fight, and by heaven, we will not be defrauded out of our victory by the chicanery of election judges. If our Republican friends will be honest there will be no trouble, but intimidation in the counts will be met by such methods as may be necessary and entirely effective."

Mob Violence Feared.

Louisville, Ky., Nov. 3.—James Howard and Henry Yousey, convicted of the murder of William Goebel, will be removed from Frankfort to Louisville jail. The official reason is not stated, but it is said to be a fear that mob violence might be attempted against them in the event of Yerkes' election as governor, which it is freely predicted, would mean their pardon.

Hazed Student Dies of Injuries.

Charleston, S. C., Nov. 4.—Thomas Finlay Brown, two-year old, died from injuries received while being hazed at the Porter Military Academy. He was the oldest boy, following their former custom, dropped him into a cemented swimming basin twelve feet deep. The basin was dry at the time, and the child received internal injuries from the fall.
Before he died he did not give the names of the cadets who had ill-treated him, and it is said that no action will be taken in the matter.

Horrible Fate of Lady Missionary.

London, Nov. 5.—Dr. Morrison, writing to the Times from Pekin, November 1, says: "The evidence in the Pao Ting Fu trial to fix the responsibility for the massacres, showed that an American lady, before execution, was led naked through the city, and that her breasts were cut off. The destruction of two temples is not an adequate punishment for such inhumanity."

Fire in Newport News.

Newport News, Nov. 3.—Fire this afternoon fanned by a severe northeastern gale, completely gutted a large store and apartment building situated in Washington Avenue in the business part of the city. Many families are rendered homeless and destitute. During the conflagration several dancing rescues of inmates of the building were made by citizens and newspaper men. The loss on the building and personal property is estimated at \$20,000, with very little insurance.

SOCIETY LADIES

Use Peruna for Catarrhal Derangements.

Mrs. C. H. Buck, 225 Douglas street, Omaha, Neb., writes:

"I have used Peruna and can cheerfully recommend it as being the best remedy for catarrh and general debility that I have ever used." Yours gratefully,
Mrs. C. H. Buck.

Mrs. Helen Murphy, a popular society woman of Omaha, Neb., is an ardent friend to Peruna. The following is a letter written by Miss Murphy, and gives her opinion of Peruna as a preventive as well as cure for catarrhal ailments:

The Peruna Medicine Co., Columbus, O.; Gentlemen—About three months ago I contracted a severe cold as an evening cold, which settled on my lungs and threatened to be very serious. As my mother has used Peruna with good results, she sent for a bottle for me and I found that it gave me blessed relief. Before the second bottle was consumed I was well.
"We keep a bottle of it on hand all the time and when I have been out in inclement weather, I take a dose or two of Peruna and it prevents my taking any cold and keeps me perfectly well." Yours truly,
Helen Murphy.
"Health and Beauty," a book treating on diseases peculiar to women, sent free to any address by Dr. Hartman, Columbus, Ohio.

Mrs. Lillian Roehfeld, a graduate from the Conservatory of Music, Paris, is the violin soloist of the Chicago Germania Club. Miss Roehfeld used Peruna as a tonic, when run down by overwork. She speaks of it in the following glowing terms:

Chicago, Ill.
Gentlemen—I cannot give too great praise to Peruna. Last winter my nervous system became so overtaxed from constant overwork with my violin that my right side seemed partially paralyzed.
"I naturally became very anxious and consulted my physician. After giving me a couple of prescriptions without effect, he advised me to try Peruna, and I am glad to say it effected a speedy and permanent cure.
"Although the past year has been a severe tax on me Peruna has kept me strong and vigorous." Yours truly,
Lillian Roehfeld.

Peruna is applicable to catarrh of any mucous surface of the body in all stages. From the slightest catarrhal attack or cold to the most chronic or pronounced case of hypertrophic form Peruna is effective.

Men and women are subject to catarrh than men. This is due to many causes. The chief cause is the delicacy of her organization, as compared to man. The extreme sensitiveness of the mucous lining of every organ of a woman's body is well known to physicians. This explains why, in part at least, so few women are entirely free from catarrh. A vast multitude of women have found Peruna an indispensable remedy.

Chronic Diseases

It is on this class of diseases that suffers experiment, and not only the sufferers themselves but doctors as well. All sorts of drugs and patent medicines and "family remedies" are tried; medical "Institutes" and "Compounds" are resorted to but the condition becomes worse rather than better.
It is the nature of the disease itself, together with all its complications, which must be studied before any system of treatment can be prescribed. It is an individual personal treatment which is needed in every chronic case, whether it be Loss of Manly Vigor, Varicose Structure, Blood Poisoning, or any form of Genital or Urinary Complaint. It is such treatment only that Dr. Hathaway gives his patients, and such treatment only that has been proved by the uniformity and invariability of his cures for the past 21 years, a record which has placed him far in advance of all other specialists in the treatment of Chronic Diseases.
Call at his office or write him for free consultation and advice, for a copy of his new 64-page book, "Manliness, Vigor, Health," by NEWTON HATHAWAY, M. D., 22 1/2 South Broad Street, Albany, N. Y.
