DOCTOR NEGLECTED SICK MAN AT BURLINGTON.
Has Been Sick With Typhoid Fever—Neglected by Physician and Druggists at Burlington, N. C., Nov. 9.—A revolting story, involving serious charges against an alleged quack physician, comes from Burlington, a cotton manufacturing town twenty-five miles east of this place. Mr. Eugene Holt, a wealthy mill owner, missing one of his employees, a young white man, Henry Jordan, made inquiries and ascertained that he had not been seen by any of the other employees for several weeks. He at once visited Jordan's boarding place and found the young man in a pitiable plight.

For eight weeks Jordan had been suffering from typhoid fever, and for the major part of that time had been almost entirely without care or attention. He was exhausted to a horrid degree and was in a shocking condition. G. Agnew had a doctor called. Mr. Holt learned that the people in the house had given Jordan no attention beyond calling a quack doctor when he was first taken ill, when the young operator's health was so exhausted, left him with a cure, retaining even to dress his bed sores.

Mr. Holt had Jordan cared for, and says he will see to it that those guilty of such inhumanity are properly punished. The case has stirred up intense indignation and the authorities are investigating.

SUICIDE CAUSED BY WORRY.
Mr. J. D. Neal Kills Himself Though He Had a Good Deal of Money.
Charlotte Observer

Mr. J. D. Neal, of Rutherfordton, committed suicide yesterday afternoon at 3:30 o'clock. It is stated that he has been worried for some time over business troubles and his manner yesterday morning on the day previous had been strange but there had been no suggestion that he intended to do violence to himself. The Observer's informant, who was in Rutherfordton at the time of the suicide, states that Mr. Neal shot himself as he was walking along the public highway in the principal residential part of town. He died almost instantly.

Mr. Neal was a native of Louisiana. He had lived in Lancaster, S. C., for some time, and over a year ago moved to Rutherfordton, where he had made his home with his wife's brother, Mr. Haynes. He was about 45 years of age. It is understood that despite his worry over business he left a good deal of money.

How to Tell Good Flour.
New York Sun.

The first thing of importance in bread making is to have good flour, and a sure test for flour is the following: If it is white with a slightly yellowish tint it is good. If it is very white, with a bluish cast, it can hardly be good. Wet your fingers and knead a little of the flour. It will be dry and elastic if good. On the other hand, if the flour is not first rate, it will work soft and sticky. The other two essentials are good yeast and an oven of the right temperature.

A Famine Predicted.
London, Nov. 9.—In south of official circles it is stated that the Petersburg correspondent of The Daily Mail "there is no doubt that the inadequate harvest will produce a famine in the governments of Kherson and Bessarabia."

NECRO MOTHER DROWNED HER BABE.
Threw it into a Well and Held it Under Water With a Pole Until It Drowned.
Dunn, N. C., Nov. 13.—A most cruel and unnatural murder, near here, was unearthed yesterday by the discovery of the body of a child drowned in an old well in the edge of Cumberland county. It was found to be the two-year-old child of a negro woman, living near town, by the name of Melchie Clegg. Upon being arrested, the healthful mother confessed that it was her child; that she carried it while asleep and threw it in the well and took pole and held it under water until it drowned. She gave as her reason that she could not take care of it and wanted to get rid of it. The murderer will be sent to Cumberland county jail to await trial in that county.

His Proper Name Never Spoken.
From the Golden Penny.

In China the Emperor's proper name is never mentioned as to pronounce it is a criminal offense. On ascending to the throne the ruler of the "Middle Kingdom" takes a name by which he becomes known to his people and to history. The present Emperor's real, or personal, name is 'T'ai-chen' but, on being placed on the throne in 1875, he was given the title of Kuang Hsi, which in English signifies "illustrious succession."

Leg Ground in a Cog-Wheel.
Reidsville, Nov. 11.—An accident befell Mr. Monroe, at Cummings Mill, yesterday afternoon at 3:30. He was taken by a cog wheel, which caused the loss of one leg, and which perhaps resulted in his death.

Mr. Moore was engaged in building a covering over a water wheel, when he dropped his hammer and in attempting to recover it stepped into the cog wheel. His leg was ground up to the knee. He caught the shafting above him and screamed for help. The machinery was stopped and friends hurried to the mill, cutting the leaders of the belt, and releasing him. Dr. E. H. Brooks was summoned and amputated the leg at the knee joint.

Fifty Thousand Copies
OF TURNER'S N. C. ALMANAC will be issued for the Year 1901.

To advertise is simply to make known, who you are, where you are, and what you have to sell. How to do this effectively, and at the smallest possible cost is the problem for you to solve. The failure to obtain desired results from advertising is due to the way some people do it, and they invariably say "It does not pay." The judicious way is to use a medium that has reputation, circulation and permanency. Turner's N. C. Almanac has been the State Standard for 64 years, and has an annual circulation of 50,000 copies, and remains a standing advertisement for a year. Advertising rates upon application.
