

SUBSCRIPTION RATES. One Year, \$1.00. Six Months, .60. Three Months, .35.

WHAT OF THE FUTURE? There is no reason why a Populist should feel discouraged over the political outlook. On the contrary there are abundant reasons why he should feel emboldened at the prospect and look with hope for the future.

The principles of the People's Party will continue to grow in public favor, for they are the very essence of Jeffersonian Democracy. Mr. Bryan, in a great measure, stood for our principles, but his defeat was compassed by the treachery of prominent individuals within his own party, who declared publicly that they would support him, yet secretly stabbed him.

Mr. Bryan was defeated, but the Populist principles which he advocated will be stronger in the next campaign than ever before. Defeat for them can only be temporary. The Cleveland element will be compelled to seek other quarters, or they will obtain entire control of the machinery and policy of the Democratic party.

GOOD ROADS THE GREATEST NEED.

Report of the Commissioner of Interior for Porto Rico.

Washington, Nov. 25.—The Commissioner of the Interior for Porto Rico, Wm. H. Elliott, in his annual report to the Secretary of the Interior, says much expert language as well as descriptive language will be needed to untangle the mass of crooked titles and concessions and unauthorized occupations of public lands which have grown with the centuries of rule in the interest of the favored few. The archives of the island are in a disordered condition.

The first great crying need of Porto Rico, the report says, is good roads. At the time of American occupation there was only one really good road, that from San Juan to Ponce, and most of the island was and practically remains without other means of reaching a market or communication between towns than over dilapidated and dangerous trails, often impassable for days, as all streams there are torrential. The productiveness of the soil is so great and the necessity for extensive and inexpensive multiple irrigation so imperative that people can and do live and multiply in mountain districts, but remain forever poor and ignorant.

Senator Restored to Health

Peruna as a Nerve and Catarrh Tonic the Talk of the World.

Hon. W. V. Sullivan, U. S. Senator from Mississippi.

Hon. W. V. Sullivan, United States Senator from Mississippi, in a letter recently written to Dr. Hartman, from Oxford, Miss., says the result of Peruna as a catarrh remedy:

"For some time I have been a sufferer from catarrh in its most insidious stage, so much so that I became alarmed as to my general health. But, hearing of Peruna as a good remedy, I gave it a fair trial and soon began to improve. Its effects were distinctly beneficial, removing the annoying symptoms, and was particularly good as a tonic." "I take pleasure in recommending your great national catarrh cure, Peruna, as the best I have ever tried."

Peruna cures catarrh wherever located. Peruna is not a guess nor an experiment—it is an absolute scientific certainty. Peruna has no substitutes or rivals. Insist upon having Peruna. A free book written by Dr. Hartman, on the subject of catarrh in its different phases and stages, will be sent by The Peruna Medicine Company, Columbus, Ohio, upon request.

COAL MINES DESTROYED.

A Hillside Cave in Causing Destruction of Five Coal Mines and Great Loss.

Parkersburg, W. Va., Nov. 24.—Terrific rumblings and reports started the citizens of Binghamton Creek, some distance from Shington, at 5 o'clock yesterday. They rushed from their homes and held the hillside caving in and a great avalanche of earth, stone and coal rolling toward the creek. It seemed that the crust of the whole earth was being broken by some tremendous force and the spectators contemplated an earthquake with dire results. At daylight it was seen that five coal mines in that vicinity had been utterly destroyed. The strata of limestone above the coal had been rent and the bluff of the hill half a mile long and 20 feet deep was precipitated into Binghamton creek below, a distance of 100 feet, forcing the stream out of its natural course some distance. Many of the bowlders in the avalanche were 30 feet long and 10 feet thick, and contained 3000 cubic feet. Many large trees came down with the rocks. The bluff just adjacent has a crevice about 40 feet long and eight feet wide at the greater end. It is expected to fall shortly and destroy another mine.

Quite a number of miners employed in the mines that were destroyed were on their way to the mine when the disturbance occurred and were fortunate in such a narrow escape from death. They could not have been rescued. The destroyed mines had been worked a great many years, but were properly stopped and in excellent condition. The cause of the avalanche is unknown. The damage is estimated to involve a loss of about \$300,000. Many men will be thrown out of employment indefinitely, owing to the destruction of the mines.

OPINIONS OF LEADING POPULISTS AS TO BEST METHODS OF ADVANCING REFORMS.

An Opinion From Minnesota and One From Massachusetts.

St. Paul, Minn., Nov. 15, 1900. Dear Sir:—With the experience of 1896 and 1900 before us I am convinced that the only way to bring about a change of the present administration, through the medium of a National convention, is no longer practical or desirable. Fusion is only applicable to local conditions and circumstances. The United States is too large to hold the party under obligation to fuse with the same element in all localities. Had the Populists at Sioux Falls nominated a candidate of their own for both President and Vice-President, Mr. McKinley would have received fewer electoral votes than he has to be elected.

W. A. T. (a Populist) writes: "I have left the three great parties in their respective fates in such states as Pennsylvania and Missouri. I vote cast for Bryan in such states as Nebraska, Colorado and Kansas a union of strength and I have been secured on the anti-McKinley voters to a favorable advantage than was obtained in the recent campaign. Without our own party Mr. Bryan would have polled a much stronger vote in such states as New Jersey, Delaware, Maryland, Connecticut and New York. With an independent ticket of our own in the field Mr. McKinley would have polled a much smaller vote in South Dakota, Kansas and Nebraska. In the east, Democrats voted against Mr. Bryan because he was a Democrat. They would quite our forces we have weakened them. Let us do our own thing and let the parties have held each other's hands while making Bryan our foe on the National ticket we have driven a wedge between the two parties and they are fighting each other and we are the ones who are to be elected."

THE CAUCASIAN DESIRES TO PUBLISH FROM TIME TO TIME THE OPINIONS OF POPULIST CHAIRMEN AND COMMITTEEMEN, AND ALSO THE OPINIONS OF "HIGH PRIVATES" FROM THE RANKS OF THE PARTY AS TO THE BEST METHOD OF ADVANCING THE GREAT ECONOMIC REFORMS FOR WHICH THE PEOPLE'S PARTY STANDS.

We publish this week a letter to Chairman Butler from Mr. Austin, a member of the National Committee of Minnesota, and an interview from Mr. Washburn, Treasurer of the National Committee.

NERVOUS URINARY and GENITAL

Dr. Hathaway treats exclusively. For 30 years he has confined his practice to this class of complaints in men and women, and the uniformity of his cure has won for him world-wide fame. Men who have had long-standing chronic diseases made strong and whole again by this thoroughly constitutional treatment of Dr. Hathaway's. No medicine with temporary effect can cure you; you need a treatment which will go to the foundation of your trouble and wipe it out, mentally, nervously and physically.

Dr. Hathaway, 215 South Broad Street, Atlanta, Ga.
