sented by the proposed amendment is one that must be determined by the judgment and conscience of each indiidual voter. Therefore, we do not make it a party question. We state the of all parties to pass their verdict in the light of these facts. The question is above party, and no one should be more active and anxious in our judg-

ment to defeat it than the rank and file of the Democratic party. The People's Party is and has always party in North Carolina a white man's party, and is more anxious than any ther party to solve the race problem, and to force all parties to a discussion of the great economic issues so vitally affecting the welfare of all wealth producers of the State and nation and de-

tion of the race question that is possible as long as the 15th amendment to the Constitution of the United States stands—a solution which deprives no white man in North Carolina now or hereafter of his right of suffrage, to-

Amend Section 6, Art. 6, of the Co stitution of North Carolina by inserttion inclusive.

If the Democratic Legislature which meets in June will offer this safe, constitutional and wholesome amendment indieu of the present scheme it will have our hearty support. If they will not, we appeal to the people to rally to our assistance to elect a Legislature pledged to support such an amend-ment.

We congratulate the people of North Carolina upon the decision of the State Supreme Court in the case of Harris vs. Wright (121 N. C. R., 172), declaring that the General Assembly has power to provide different systems of county government for various counties of the State. Acting under this decision, we pledge the People's Party to the maintenance of the system of local self-government in all the white counties, towns and cities in the State as established by the General Assembly of 1895, and at the same time to provide and maintain a legislative syntem of county government for all the negro counties of the State, so that there can never be any question that the white people shall always have full and complete control of county in the State. local self-government in all the white
