Buchanan, who resides at 95 Spring Street, in the heart of a prominent residence section of the city and within two blocks of the governor's mansion, was the victim this morning of an outrage which has caused much excitement in Atlanta. My Condition Could Have Been No Worse. In the fall of 1897 I contracted a skin disease which was attended by itching, eruptions on the skin, more throat, copper-colored epistaxis, rapid bowels, and hair falling out. Symptoms will follow unless the blood is promptly and effectually cleansed of this violent destructive poison.

I decided to try S. S. S. and, after taking only a few bottles, the itching and eruptions on the skin, more throat, copper-colored epistaxis, rapid bowels, and hair falling out, were completely cured.

I am now in excellent health, and my hair is growing again. I can only say that S. S. S. is the only safe and infallible cure for this disease, the only antidote for this specific poison.
