SCIENTIFIC MONEY VS. THE GOLD STANDARD.

fact that Senator Butler has changed further from the truth than this. all no doubt grew out of an interview which he gave to the Morning Post recently in Washington. In another column we reproduce the interview so that our readers may see just what he did say. The interview is just as it was published in the Post with a few slight corrections to make the sense clear.

It will be seen that the interview contends for the same principle for quantity sufficient and having it money out of as dear a thing as gold stitutional. or even as dear a thing as silver when Government greenbacks are much better in every way, but inasquantity of gold to prevent the goldbugs from cornering the money of the world.

If the present output of gold continues, the godbugs will soon be clamoring for the demonetization of gold. Then they will make a fight to have all money made of paper and to have the banks issue it and control its volume. When that time comes there will be a battle royal between the banks and the people. The people will be fighting for Government paper money known as greenbacks, and we believe the peo ple will win.

TILLMAN VS. McLAURIN AGAIN. Our readers will remember that and McLaurin both sent their resig-Carolina and requested that he accept their Senator.

Governor McSweeney in a pub-dict. lished statement declined to accept these resignations. Thereupon Senator McLaurin promptly withdrew his resignation and Senator Tillman replied to the Governor in a vigortion be accepted and declaring that the Governor has no right to refuse to accept the same.

No doubt, Senator McLaurin feels that by the end of his term he would be in a stronger position to measure lances with Senator Tillman than he is now and this probably explains his haste in withdrawing his resignation. For the very same A NEW TRIAL IN THE GATTIS reason, Senator Tillman 4s anxious that the resignations should not be withdrawn.

She had tried physician after physician, and remedy after remedy, without any permanent improvement. Her treatment had cost her husband, who was a poor man, hundreds of dollars. They had been obliged to deny themselves many com-

forts of life in order to get money enough to pay the physicians. Picking up the paper one day she hap pened to read an item which contained the news that Dr. Hartman would treat such cases free of charge by letter. She immediately wrote the doctor, describing her case, and giving him all her symptoms. She soon received a letter telling her exactly what to do and what nedicines and appliances to get. She began the treatment (the principal remedy being Peruna) at once, and in a few weeks was well and strong again and able to do her own work. Another woman who used Peruna
