The California King Gold Mines Company owns 23 claims in Picama Basin, four miles from the Colorade River in California, and 20 miles by direct road from Yuma, Ariz. Development work has been in progress for the last six years, and

more than 10,000 feet of shafts, drifts, levels and cuts have been completed and paid for by the owners. Upwards of fifteen million tons of ore are now ready for the mill all of which will be mined by open cats at a nominal cost.

A contract has been entered into for the erection of a mill and cyanide plant capable of handling 1,000 tons of ore daily, which will be completed this year. The directors guarantee that this plant will be placed in operation, regardless of the amount of treasury stock subscribed. The net profit after commencing operations will exceed \$60,000 a month, and purbably reach \$100,000 a month, within a year. The ore

in sight will supply such a plant for more than forty years.

The property is owned by the directors. There is no promotion stock or promotion money. No salaries to officers.
