Many women and doctors do not recognize the real symptoms of derangement of the female organs until too late.

"I had terrible pains along my spinal cord for two years and suffered dreadfully. I was given different medicines, wore plasters; none of these things helped me. Reading of the cures that Lydia E. Pinkham's Vegetable Compound has brought about, I somehow felt that it was what I needed and bought a bottle to take. How glad I am that I did so; two bottles brought me immense relief, and after using three bottles more I felt new life and blood surging through my veins. It seemed as though there had been a regular house cleaning through my system, that all the sickness and poison had been taken out and new life given me instead. I have advised dozens of my friends to use Lydin E. Pinkham's Vegetable Compound. Good health is indispensiable to complete happiness, and Lydia E. Pinkham's Vegetable Compound has secured this to me.' -MRS. LAURA L. In Madrid the right of cremation has been conferred by a royal decree, while even in Russia the government proposes to issue a decree in favor of making cremation optional. In France a large crematorium is situ-

In the United States are twenty-six crematories, twenty-four of which are in operation. A larger number of persons are cremated yearly in the United States than in any other country. In Canada cremation is practically unknown as yet, the only crematorium in the country being one at Montreal.

THE SAYINGS OF CHILDREN.

Queer and Amusing Ideas Formed by the Youngsters.

The queer conceptions of things that come to children cause them to advance such strikingly original ideas that their elders are more than astonished. A little boy who lives down in the country not far from Chicago was driving out through the farm lands with his parents. On the way they passed a place where a house was being erected. The builders had completed the floor of the porch, but had not as yet put up the pillars. The little fellow looked at the house for a minute and then exclaimed:

"Oh, mamma, there's a porch without any handles."

Another little chap, three years old, stepped out into the yard with his mother on a cold evening not long ago. Suddenly he grew silent and then burst out with: "Why, mamma, I'se a-foggin'."

He had been watching his breath freeze in the cold air.

Still, another youngster, this time a little girl, is exceedingly fond of pumpkin pie. All year she has watched diligently for the pumpkins and finally when they arrived this fall her delight knew no bounds. Rushing up to her mother, she begged:

"Mamma, please kill a pumkin and make a ie."

News Notes.

The best ten chapters course of Bible studies, which is being given in the chapel of the Fifth Avenue Presbyterian church, New York city, on Sunday evenings at 7:30 o'clock, is arousing unusual interest. Three hundred and sixty-five persons were present for the study of the fourteenth chapter of John and about the same number of the third chapter of Joha. Five of the "best ten" chapters are found in John, and the other five represent five other books of the Bible
