MR. WATSON'S ACCEPTANCE.

(Continued from last page)

the national bank of the power, privilege to profit by supplying the country with paper currency. Instead of using its own credit for the equal benefit of all the people, the government lends this credit to the national banker to be used for the benefit of the banker. Thus, the national banker becomes the beneficiary of special privileges; and, basing his notes upon the credit of the government, charges his fellow citizens for the use of them. He, the privileged, fattens upon usury at the expense of the unprivileged. There are now about five thousand national banks, which keep in circulation more than four hundred million dollars of their notes. At 50 per cent, this represents a yearly profit of more than thirty million dollars, which they derive from the special privilege of using the public credit for their private benefit. Clothed with the sovereign power of creating what is practically a legal tender currency, they can contract it or expand it at will whenever they please; and, if they decide to give the country a taste of their despotic power, as in 1893, there is no power which can protect the victim. No class of citizens should be clothed by law with such terrible advantages over their fellows.

TRANSPORTATION

Another example of class legislation is found in a study of our transportation systems.

We have given to the various corporations which control our telegraph, telephone, express and railroad business such enormous powers that the government itself is a dwarf among these giants. Their revenues are greater than those of the government. Their power to tax falls not only upon the public, but upon the government itself. In the late conflict with Spain, the manner in which they preyed upon the government was something frightful in its capacity, and the constant practice they have of charging the government for the annual use of a postal car, a greater sum than the cost of car, is but the evidence of the undisputed fact that the government does not deny them anything. They almost openly use the "frank" of members of Congress to add to the weight of mail matter during that annual period, when the mail is weighed to adjust the "average." Hundreds of tons of junk are thus handled during those few days, and upon this fraudulent mail matter the average for the entire year is based. The tax payers have to pay the congressman who lend them selves to this scandalous practice and other good things. In express charges, freight charges, telephone and telegraph tariffs, the public is plundered every day in the year, and the manner in which they submit to it is one of the marvels of the age. No other people among civilized nations are so cursed with corruption tyranny as ourselves; and we never seem to think that any remedy is possible. Half a dozen corporation kings can meet in the office of J. P. Morgan, and can tax the life out of any town or city in the United States. By a spurt of the pen, they can add hundreds of millions of dollars to the burdens of the people. They enable the trusts to slay their rivals by granting rebates, or special rates, which make competition impossible. They detach public morals by their methods of gaining what they want from Governors, legislatures, judges, editors, politicians and members of Congress.

GREAT FORTUNES.

"Napoleon's once rose from a study of interest tables with the remark: "When I consider the deadly principle which lies hidden in these tables, I marvel that it has not devalued the human race." That deadly principle does devour a portion of the human race every year. The big fortune, by the law of its nature, tends to grow bigger. Each colossal accumulation represents what one victor gained and ten thousand victims lost. For, in a fortune of a hundred millions, there can be no such thing as fair reward for productive labor. Such a fortune, or anything like it, represents, as a rule, the spoil of the successful marauders in the fields where others had toiled. Such a man is a free booter; and his board often costs the losers more lives, more tears, more broken hearts and ruined homes than are to be found in the track of actual war. When those Standard Oil knaves robbed the people of \$36,000,000 in one day, they felt entitled to the admiration of the business world. On the same day, perhaps, hungry women stole bread for hungry children, and went to prison for it. J. P. Morgan, Andrew Carnegie, Charles Schwab, and other conspicuous captains of industry, increased their unwieldy fortunes by pocketing \$500,000,000, which other less conspicuous persons confided to the Steel trust. No one was punished and at one of those libraries which Carnegie has been establishing all over the country, admission was denied to one of the best books of one of the best Russian authorities, because it gave a vivid description of the peasantry in Rus-

sia. Himself a monstrous product of governmental favoritism and "protection," no book which exposes and denounces class legislation can be satisfactory to this man, who has in his pockets so many millions, which should have been left in the pockets of those whose honest industry produced them."

PARKER AND ROOSEVELT

Mr. Watson then defends himself against the charge of ulterior motives in making the Democratic nominee the principal object of his attacks.

"The ballot is one of the weapons with which we must hold our ground. The contention of the People's party being that both the old parties are wrong, we wage war on both. Ours is the two-edged sword. In our campaign it may happen that we do greater damage to the Republicans than to the Democrats—as in 1892, when Mr. Bryan and other Western Democrats were instructed by the Cleveland managers to vote for Weaver. In another campaign, it might chance that the greater damage is done the Democrats. In the one case, as in the other, we would not concern ourselves about the matter. Such a result is the accident of war, not the purpose of the campaign. It is our business to preach sound Populism, which is sound Jeffersonian Democracy, and to hit the Republicans on the one hand and the Democrats on the other. We must hew to the line, letting the chips fall where they may."

"The statement has been made that in a speech in Atlanta I expressed a preference for Mr. Roosevelt over Mr. Parker. Neither I do so now nor in any other, have I done so. Being a candidate for the presidency myself, I would have made myself a sideshow to which ever of the other two candidates I expressed a preference for—whereas I am in full, militant, aggressive control of an independent show of my own."

After declaring that the Populist party was "brutally insulted" by Chairman Jones and other "Southern Democratic bosses" in 1896, and referring to the St. Louis convention as a "sell out to Wall street," when a winning fight might have been made, Mr. Watson undertakes to demonstrate that Judge Parker's letter and the Democratic platform are in no essential respect different from President Roosevelt's letter and the Republican platform except in a few insincere appeals to popular favor. He declares that in the matter of the executive pension order, Parker merely says Roosevelt did the right thing the wrong way; that his attitude on Philippine independence may be construed at most any way; that on the subject of reciprocity he is only pleading for greater favors to the manufacturers by letting in raw materials free, and that a Democratic administration would no more retrench expenditures than a Republican one. Again, he says, the trusts control the Democratic party. McCarren he assigns to the Standard Oil Company; Gorman, to the sugar trust, and Belmont to the Louisville & Nashville Railroad. After calling on Parker to speak out on the race question, he concludes this portion of his letter by saying that, besides all the foregoing, no faith should be put in a party so little united of conviction, so many broken pledges, as he charges that the Democratic record showed. The claims of his own party are then advanced as follows:

POPULIST CREED

"The People's party is Jeffersonian to the core. It has never emancipated its creed to curry favor. It has preferred to win its way into minds and hearts by earnest advocacy of fixed principles. Its chief reliance has been on political education, and for every abuse offers a remedy. It seeks to reform, to repair, to renovate, to restore. We would, if we could, go back to the system of our forefathers. The class legislation, which is the bane of our government at this time, obtained the upper hand in our republic twice before, and was twice driven out. Jefferson did it once; then Jackson. Democracy in Jackson's day paid off the national debt, overthrew the national bank, revoked many of the privileges of favored classes and put the reins of power back into the hands of the people. The protective principle who struck down, and the Walker tariff inaugurated an era of prosperity. Charles Dickens, who visited this country previous to the civil war, wrote to his home that a flaming sword in the air would not excite more amazement than a beggar in the streets of Boston; and he expressed his astonishment at the general prosperity of the people. That was when genuine Democracy was ruling the land and inspiring its legislation.

CONFESSIONS OF A PRIEST.

Rev. John S. Cox, of Waka, Ark. writes: "For 12 years I suffered from Yellow Jaundice, and consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters and feel that I am now cured of a disease that had me in its grasp for twelve years." If you want a reliable medicine for Liver and Kidney trouble, stomach disorder or general debility, get Electric Bitters. It is guaranteed by all druggists. Only 50 cents.

CONFESSIONS OF A PRIEST.

"Such rascality as that of the copiers, or the steel combine should either be made impossible, or the administration of law so invigorated that the criminals who steal millions shall wear the ball and chain, side by side with the thief who stole

a pig. "We believe in the money of the constitution. We do not bend in superstitious reverence to silver and gold. We believe that any currency which the government declares to be legal tender will be 'sound money' as long as the government is sound." We have less fear that the government will ever issue too many paper dollars than we have that it will issue too many bonds. A government must govern; and the creation of money is a part of the sovereign power. The government must decide how many soldiers shall come to the flag; must decide how many battleships shall hold the ocean lists against the world in mail. It is no more likely to make a mistake by issuing too much money than it is to make a worse mistake by calling too many bread-winners into the military service.

Suppose that the corporations had determined to control both the old parties, and were, in fact, controlling them, what would be the evidence of it?

1. That some of the corporations and trusts joined the Republicans and others the Democrats. 2. That both parties drew their campaign funds from the trusts and the corporations. 3. That the platforms of the two parties were made as much alike as possible—so much that one of the candidates on the national ticket admitted that they were almost identical. 4. That the environment of the candidates of the two parties was exactly the same. 5. The political record which proved that both the old parties had united to defeat any measure of reform. 6. The fact that the record showed that both the old parties had united in establishing, step by step, the system as we now have it. These proofs are all at hand. Any well informed citizen can see the facts if he will.

FINAL APPEAL

To the courage and the intelligence of the voter, I appeal. If you think I am right, vote that way, or you are a moral coward. Do not fear that your vote will be "thrown away." Your vote is never thrown away until it ceases to be the representative of your honest convictions."

HON. THOS. E. WATSON

Will Speak in Tarboro October 27th at 12 O'clock.

Hon. Thos. E. Watson, the People's Party candidate for President, will speak in Tarboro, Oct. 27th, at 12 o'clock. He is a good speaker and all that can should go to hear him.

THE GREAT STATE FAIR.

October 17-22, Indications Point to a Record Breaker This Year. The State fair opens October 17th and continues to the 22d. The present indications are that we will have one of the best fairs in the history of the association. There will be a convention of the cotton growers at the State capitol on Wednesday night to discuss the cotton situation.

There have never been as complete a network of special train service for the State Fair as has been arranged for this year, even the Atlantic Coast Line in the extreme eastern part of the State having decided to furnish a special service for the fair. The people are sure to be here and there will be the greatest attraction for them at the fair in the history of State fairs in this State. The exhibits of agricultural products and agricultural implements will be by far the largest and most complete ever seen in the State and the display and demonstration of labor saving machinery will alone prove of incalculable benefit to the farming interests of the State. This same degree of completeness and excellence of display will characterize every department of the fair so that every man woman and child can spend time pleasantly and with great profit in the fair buildings among the exhibits.

As for the midway it will be strictly up to date right in line with the great "Pike" at St. Louis. It will be clean and bright with plenty of "get up and git." The great free attractions will surpass anything given at any previous fair headed by the famous Flying Picketts who have been engaged at a great expense for the special purpose of providing free attractions.

Of course it is repeating what has been stated so often before that the trials of speed will be the best and most sensational ever seen on the track here. And the records are sure to be materially lowered, the \$40,000 purses guaranteeing the presence of the best racing stock on the turf.

JUDGE SEABURY WILL NOT VOTE FOR PARKER.

NEW YORK CITY JURIST SAYS THE DEMOCRATIC PARTY HAS BEEN GIVEN OVER TO PLUTOCRACY IN FLUENCY.

WHY HE WILL VOTE FOR WATSON.

The Best Way to Reform a Party that has Sold out to Plutocracy is to Defeat It.

Judge Samuel Seabury, of the City Court of New York has written a letter saying that he will not vote for Parker but for Watson. His letter is as follows:

"I shall not vote for Parker and Davis. The action of the convention in approving the crime committed in Illinois, the facts being clearly presented and being undisturbed, showed that the convention preferred the rule of the political corruptionist rather than recognize that political conventions should be honestly conducted and that the majority should rule.

"Judge Parker's persistent silence before he was nominated and his tricky telegram as soon as he had safely secured the nomination showed him to be an apt pupil of the political methods of David B. Hill. The deception to which Judge Parker and his friends resorted to secure the nomination and the repudiation of the compromises entered into in relation to the platform will, I believe, before the campaign is over, be made perfectly apparent. When the facts are appreciated they can excite no other feeling than disgust and contempt.

CONTROLLED BY MONOPOLISTS.

"The convention was controlled by a union of monopoly and proslavery elements. It was impossible that any really democratic action could have proceeded from such a combination. * * *

"In the contest between Roosevelt and Parker no political issues are involved. It is a mere personal contest for place and power. This is the lowest plane upon which a political campaign can be fought. "The fact that Grover Cleveland and others who deserted the party when it became Democratic in 1896 and are in control of the party is a sure guarantee that the party will be administered for the benefit of a corrupt plutocracy, as it was during Cleveland's last administration.

UNWORTHY OF SUPPORT.

"The indictment which Mr. Bryan brings against the element which now control the Democratic party is in an respects true, and the fact that it is true shows that the party is unworthy of support. It seems to be unreasonable to assert that the Democratic party stands at present for policies which are destructive of free government and at the same time to support that party upon the theory that the best way to reform a party is to intrust the plutocratic element in the party with the control of the government.

CHOICE OF TWO EVILS.

"From my standpoint a choice of two evils is presented, and I shall choose neither. If Parker is defeated the Democratic party will be forced to adopt progressive and liberal democratic principles, or go out of existence and give place to some party which will give expression to these principles. "The principles are more important than the party. Mr. Watson, nominated by the People's party, is a worthy representative of the principles which I conceive to be truly democratic, and the adoption of which I believe to be essential to the preservation of democratic institutions in this country. "He is the only representative of these democratic principles in this campaign. I shall, therefore, cast my vote for him. I am informed that a full Watson electoral ticket will receive a large vote.

CURED

At 70 of Heart Disease Contracted During Civil War—Veteran Grateful.

Dr. Miles' Heart Cure Effected Cure.

Heart disease is curable, but in people of advanced age it does not readily lend itself to ordinary treatment. There is, however, hope for all sufferers in Dr. Miles' Heart Cure, which we know from watching hundreds of cases and from the letters of grateful sufferers, will cure where all else has failed. It is not only a wonderful cure for weak and diseased hearts, but it is a blood tonic, a regulator of the heart's action and the most effective treatment ever formulated for improving the circulation of the blood.

"During the Civil War I contracted heart disease, and in 1865, while living in the grand old town of Lexington, Va., I grew so much worse, I left there with my wife to visit my sister-in-law, Mrs. T. Kirby, at Roanoke, Va. While I said nothing to anyone I never expected to live to return to the dear old town. On reaching Mrs. Kirby's, she insisted I should try Dr. Miles' Heart Cure. I procured a few bottles of it, also the Nerve and Tonic. After using one or two bottles, I could see no improvement, and I despaired of ever being better, but my faithful wife insisted on keeping it up, which I did. Improvement soon began to appear, and I took in all fifteen or sixteen bottles. I was restored to perfect health and while I am 70 years old, I am comparatively a boy. You are a benefactor, and I cheerfully recommend Dr. Miles' Heart Cure to suffering humanity."—J. L. SLUGHTER, Salem, Va.
