ON THE INCREASE IN THIS STATE. -Wilmington Messenger (Democratic).

DEMOCRATIC EDUCATION COMES

In another column will be found an article, headed: "Startling Facts." that every voter in North Carolina should read.

The Democrats have been making all kinds of wild statements as to what they have done for education, but the reports of their Superintendent do not bear them out in their statements. The school legislation of 1897 increased the school term in North Carolina two and one-third weeks without any extra tax or ap propriation. The Democratic Legislature of 1899 made an appropriation of \$100,000 for public schools and promised the people a four months' school, but the report of the State Superintendent shows that the white schools of the State were not increased a single day by this extra appropriation, and the colored schools increased only about one hour.

Did it cost \$100,000 to increase the negro school term one hour? What became of this extra appropriation? The tax payers have a right to know.

Did the Democratic politicians spend it in going over the State telling the people how much they had done for education?

Are the Democratic politicians innocent of the facts in the case, or are they trying to get votes by ans?" making false statements?

The Durham Herald (Democratic) is credited with the following:

everybody, black and white, who in the nation. did not own as much as \$300 worth of property. What do our laboring friends think of this for Democratic aristocracy."

And this brings to mind that Winston, in 1899, begged the Democrats to sink their conscience and vote for the bill for the constitutional amendment. Does he want them to sink their conscience again day. this year and vote for him for Lieutenant Governor?

Democrats are appealing to the Populists in this State to vote the Democratic ticket this year, but it is safe to say that no Populist, with as your thumb, will vote for Bob Glenn and Francis D. Winston this year. They have not forgotten the vile abuses heaped upon them by by Secretary Hay. these peerless (?) leaders of democracy.

The Democratic leaders in this in denouncing the trusts, but they don't mean a word of it except for political effect. If so why haven't they looked after the trusts in this State and prosecuted some of them during the past four years of "Democratic good government?"

Why Vote For Rooseveltf

Having been severely tried he found to be scrupulously honest wonderfully alert and uncompromising in dealing with evil doers.

Circumstances have conspired to make the problem of successfully guiding the ship of State the most complex in the history of any country in any age of the world, and yet he comes forth with flying colors waving over a happy and ted applause of the great nations of the earth. In addition to his superior skill in dealing with discord-

prosperous prople amid the unstinant elements at home he has secur d for America full recognition in all civilized countries across the seas of nations, so that today no monarch feels waranted in taking an impertant step in diplomacy without first sounding American opinion.

The achievements of this country

under the guidance of the master hand and brain of Theodore Roos velt are so great and far reaching yet with him re-elected, as he is most likely to be next Tuesday, those who have marveled at his great feats of diplomacy will view with increasing admiration the great ness and glory of the best governed as well as the richest and the most commanding world power which the evolution of the ages has produced. What would he do if elected President? Is there any assurance that wizzard Hill would not own and use him in future and thus gratify his own ambition to be President? Hill is shrewd while Parker is not. In deed, if he has average ability as politician his friends have been un able to induce him to show it.

STARTLING FACTS.

The School Legislation of 1897 Increased the School Term in North Carolina Two and One-Third Weeks, Without Any Extra Tax or Appropriation.

REPUBLICAN AND DEMOCRATIC RECORD.

Democrats Made an Appropriation \$100,000 for Public Scools Without Increasing the Terms of White Schools One Day-What Became of the Money!

The Legislature of 1897 did not increase the rate of taxation for public schools, nor did it borrow money and issue bonds for that purher true position in the family of pose, but by abolishing the old Democrat school law, and enacting a new one, they increased the school term in North Carolina two and one-third weeks, and this without one cent of cost to the tax-payers of the State. This law was passed by the Legislature of 1897, but the effect of the law on the schools of the State was not felt until the following year, 1898. Supt. Mebane's as to almost stagger credulity, and Report, on page 159, and Supt. Joyner's Report, on page 389, show that the school term of the State in one year, from 1897 to 1898, made this remarkable increase. To show that this increase was entirely due to the repeal of the old school law and the enactment of a new law the above reports on the pages cited show that the school term had not increased one day in this State during the twelve years prior thereto, notwithstanding the successive Legislatures during this period had in creased the rate of taxation for pubtic schools from 121 to 18 cents on property, making about 50 per cent. increase in tax.

THE LEGISLATURE OF 1899 WAS DEM-

schools, and promised the people to thereby provide for them a fourmonths' school. What was the result? The reports of the State above, show that the white schools of the State did not increase a day by this extra appropriation and the colored schools increased only about one hour. Think of it! The negro schools apparently got all of this \$100,000 in 1899, and for that only one hour extra school term for the entire year. In 1899 it cost about \$13,000 to run the white and colored schools in the State for one day, and for this extra \$100,000 the school term for both races should have been increased one and one-half weeks, but the reports show only one hour increase for the negro schools, and no increase whatever for the white schools!

The same reports show that the

tax-payers of the State were required to pay \$134,795.98 more for public schools in 1900 than in the year lion dollars. 1899. See Mebane's Report, page 157, and Joyner's Report, page 337; and these same reports show on pages 159 and 339 respectively, that this enormous sum increased the length of the white schools three days and the colored schools about trations but the rate of taxation for one and one-fourth days, making the average cost of one day's school cent. for both races about \$63,433.34. If the money had been wisely and judiciously expended, it should not have cost cost more than \$13,000 "General Nelson A. Miles, the per day. NORTH CAROLINA. The school law of 1897 was endorsed by every prominent educator in North Carolina, and the l'eachers Assembly of 1897 gave the law their hearty approval, and it was favorably commented upon by the Press Association of the State, which met at Morehead City that summer. That law gave North Carolina the greatest educational impetus it had had since the Civil War. The Legislature of 1899 did not dare repeal that law, but tried to do so, and were prevented by the leading educators in the State. They did amend the law and thereby weakened its effectiveness. Chairman Simmons says in his Hand Book and circulars, as quoted above, that "that law caused a decided decrease in the enrollment and attendance of the white schools." Let us see what Supt. Joyner's Report, on page 338, shows: The en-

DEMOCRATIC SCHOOL LAW The average attendance was even worse. There were 144.346 white children in 1898 and only 140 162 white children in 1899, making a difference of 4,184, and in 1900 there were 6,322 fewer children in average attendance than in 1898. The Democratic school law, prior to 1897 had in office 7,620 negro school committeemen, who had the dispensing of nearly one-half of all the school fund of the State. The school law of 1897 removed from office over 7,000 of these negro committeemen, leaving the others for the purpose only of taking the census of the negro children and placed the entire control of both the white and colored schools in the hands of competent white men, and by adopting the township, graded system, gave North Carolina two and ene-third weeks longer school term without extra cost and saved the tax payers of the State more than one-half mil-

Dr. Miles'Heart Cure and Nervine Cured Me.

There is nothing more necessary to health han sleep and rest. If these are denied tou, f you rise in the morning more tired than the nerves plainly present. If your heart is weak, or there is an inherited tendency is that direction, your weakened nerves will soon so affect your heart's action as to bring on serious, chronic trouble. Dr. Miles' Nervine is a nerve tonic, which quiets the nerves. so that sleep may come, and it quickly re-stores the weakened nerves to health and strength. Dr. Miles' Heart Cure is a great blood and heart tonic which regulates the a-tion of the heart, enriches the blood and inproves the circulation.

"Some time ago I was suffering severely with heart trouble. At times my heart would with heart trouble. At times my heart would seemingly stop beating and at others it would beat loudly and very fast. Three to four hours sleep each night in ten months was all I could get.
