ARE THE DEMOCRATS SINCERE ON

THE WHISKEY QUESTION! During the campaign the majority of the Democratic candidates claimed they were for temperance, bars. Senator Grady has introduced who make wine to be allowed to Ward bill came up in the Senate last Friday several of the Senators let the cat out of the bag. They wanted the Ward bill passed so as the manufacture and sale of whiskey in this State. For this reason many of the politicians have offered to join forces with the temperance forces and thereby lead the temperance forces into the trap of the salary they would have reof giving control of the whiskey business in the State to the Democratic party. The chairman of the be trampled upon, and if this mat- sembly, at least the committee on anti-saloon league in the State is ter goes too far, our Democratic counties, cities and towns of the aiding them in their scheme to control the whiskey business. We do into office. You had better let the not say he is doing so knowingly, people control their local affairs." but nevertheless his cooperation with the Democratic force has been the means of helping to give them control of the manufacture and sale of whiskey in the State. The chairman of the anti-saloon claims that he is for ultimate pronibitionhe will never get it through the Democratic party while the present machine is in power. Their record proves that they do not want prohibition. The majority of the whiskey men in the State have given money and whiskey to the Democrats for compaign purposes in every campaign. In this county, not many years ago, a man, supposed to be a prohibitionist, on the Democratic ticket, promised, or at least his friends did, the whiskey men of Raleigh that if they would support him he would not bother their business. They supported him and he that the way to secure prohibition? The dispensaries in the State are only recruiting stations for the Democratic party. The managers of these dispensaries are not trying to reduce the sale of whiskey, but some even advertise in the papers to increase their sales, so as to justify them in drawing larger salaries. If they think whiskey is an evil why didn't they support Butler's amendment in the House or Senator Gilliams offer to introduce a bill for State prohibition in the Senate last Friday. Not a Democrat rallied to his support. No, this would put several democrats out of employment, who are now standing by the machine, and it would also knock the Democrats out of several thousand dollars in campaign funds. This is not our fight. We are willing for the people to rule, that is for them to have what the majority and says he represents the people, it
