THE PRESIDENT'S GREAT TRIUMPHS

ENPRECEDENTED IN THE HIS-COUNTRY.

A Great Contest Over Railroad Rates Ahead-The Recent Triumphal Trip -Tributes to the Man Roosevelt, as Well as to the President-The Chicago Banquet-The President - The Southern Republican Patronage Mathines-A New View of the Third Term Talk.

cerial to the Caucasian:

Washington, D. C., May 12, 1905. Last night, a little after midnight. President Roosevelt returned from his x weeks trip. It has been a trip unique, remarkable and unprecedented in the history of this country. The return trip was a series of continuous evations, even greater than the outward trip to Texas. The reception of the President at the Rough Riders reunion in Texas was most hearty and enthusiastic, Democrats vied with the Republicans in doing the I esident for Roosevelt, the man.

SIGNIFICANT BANQUET IN CHI-CAGO.

The banquet tendered the President by the Iriquois Club, the great Demoeratic club of Chicago, was most significant and remarkable. These Democrats, while belonging to a different political party, are forced, in fact, to arree with and endorse many of the President's most important public acts, which have appealed to the true American spirit, regardless of party, from ocean to ocean. Besides, they have been moved to a great personal admiration for the President's courage, integrity and sincerity, as shown by his every public and private act. The fact is, the whole people of the United States today lift their hats to him as the strongest individual personality today for good in the whole world.

THE PRESIDENT LOOKS MUCH RE-INVIGORATED.

The President is looking unusually healthy and vigorous and browned by his outdoor exercise and sport. He says THE PRESIDENT'S WONDERFUL that he has had the most enjoyable trip of his life. Summing up his trip today he said "I left Washington a fairly good American; I come back a far better American." And it is certain that all who saw and heard him on his trip are also better Americans. "He's all right. This is the first time I ever saw him, but he's my man he eafter." This, or some similar expression, was heard frequently in every crowd that essembled to greet the President from the time he started until he returned last night from his leng

would give to the Commission the had he been President? / power to fix a reasonable and just rate, and that rate to go at once into effect, subject to final determination by the courts. He said that he knew that such power in the hands of the commission might be abused, but that the present abuses should be corrected, and that it up. The President evidently knows that was safer to put this power in the these patronage machines, which conhands of sworn officers of the Govern- trol the so-called Republican organizament, who would be freed from personal interest, than to have it in the the curse of the Republican party in hands of those who had an interest in the South, and the real cause that preabusing such power. He said that the vents the party from growing in that power of taxation was liable to abuse, but that was no argument why the Government should not have the power and exercise the responsibility.

THE RAILWAY CONGRESS OB-JECTS.

At the time the President made this speech, there was in session in this city, great Congress,-a congress of the eading railroad men of this country and of all the world. Some of the American railroad men here took issue with the President's speech, and it is evident that they are already organiz-TORY OF THIS OR ANY OTHER ing to send a strong lobby down to the people's Congress next winter to fight the President's effort to regulate railroad rates. It will be a battle royal. and we will see which Congress-the Railroad Congress or the people's Congress-is in the supremacy in Governmental affairs.

> SOME OTHER RECENT TRIUMPHS OF THE PRESIDENT.

Theo-lore Roosevelt won a most notable victory during the recent session of Congress. He persuaded the House to pass a bill to regulate railroad rates and stop the discriminations in favor of trust interests by giving rebatcs. High rates are an oppression to all infustries and rebate discrimination is a cumulative evil, in that it bestows layers on one business enterprise and punishes another business enterprise with a higher rate. This is what proluces "trusts." Even an excessive high rate will not produce trusts if each industry and each individual pay the

The House caucus approved the President's rate and rebate bill, and it was promptly passed by the House. This is the most effective and intelligent action taken to crush and break up the oppressive frusts. It is to be hoped that the Senate will also pass this, or a similar-measure, at the next honor, and in showing their admiration session. But, as stated above, it is clear that the great railroad systems instead of agreeing to stop such abuses and join with the Government in attempting to enact a law fair to both the roads and the people, are determined to fight. We think they are wrong. We think it is their duty as American institutions to join with the President in attempting to establish justice and equity between the public and the great common carriers of the

> MR. BRYAN SHOWS WISDOM AND PATRIOTISM.

Mr. Bryan has come out in an interview endorsing the President's position on the railroad rate and rebate question. This is to Mr. Bryan's credit, but it is to be regretted that only a very few Democrats in Congress have shown any disposition to follow the lead of the President in this important matte the most important matter before Congress in a quarter of a century. The action taken by the President in this matter is the most aggressive, patriotic and important position taken by ; President in the interest of the whole public since the days of Andrew Jack

The President is not only proving himself a Napoleon in politics, but his broad patriotism, backed by marked wisdom and courage, each day is impressing all the people more and more If the election were to take place again tomorrow the President's majority would be at least a million more votes than it was last November.

THE VICTORY OVER THE BEEF TRUST.

Only recently the Supreme Court of the United States, in an unanimous de cision, sustained the President's con tention that the Beef Trust is an ille Probably nothing in the President's gal and oppressive combination. This THE INVESTIGATION OF THE GREAT OIL TRUST.

MARKETS

Ships and Materials For the Canal Are to Be Bought

NO JOBBERY WILL BE TOLERATE

A Howl is Expected to Follow, But Secretary Taft and the Executive Committee Decide That the Money Consideration is Too Great to Be Ignored.

Washington, Special-The executive committee of the Isthmian Canal Commission has decided to purchase in the markets of the world the material and supplies necessary for the building the Panama canal.

This important decision was reached with some reluctance, because it was appreciated by Secretary Taft and the executive committee that there would surely be a great outcry from two great interests in this country, the producers of material and the ship owners if the purchases were not limited to the American products. But it was decided that the money consideration was so great that it could not be ignored, for it was held that in some cases fully fifty per cent. more goods could be purchased for in Europe. Chief Engineer Wallace, for instance, showed that two ships, in addition to those running between New York and Colon, and owned by the Panama Railroad Company, were absolutely necessary to carry the food supplies and material needed for the when it came to buying ships, Secretary Taft said that while he could buy two of 6,000 tons ships in Europe for \$750,000, it would cost \$1,400,000 to

build ships here. As to material needed for canal construction, the committee decided that by reserving to itself the right to purchase in the world's markets, it would at least oblige American manufacturers to bid against their foreign competitors if they wish to sell goods to the commission.

Fleets Have Moved On.

Saigon, By Cable.-The Russian fleet which re-appeared off Hon-Kohe Bay. a short distance north of Kamran's Bay. sailed northward early in the morning of May 14. No warship has been sighted there. Admiral De Jonquieres, the French naval commander at Saigon, telegraphs from Nha Trang, Annam, htat he has visited all the bays as far north as Turan and found no Russian yessels.

NORTH CAROLINA CROPS

Conditions as Given Out by Department of Agriculture.

The week ending Monday, May 15, was characterized by very warm, sultry weather, frequent and in places excessive rains, and some very severe local thunderstorms with destructive winds. The mean temperature for the State averaged nearly 76 degrees, or sierce Fighting on the Island of Jolo 8 degrees daily above normal, with the highest temperature exceeding 90 on two or three days. Between the showers there was abundant sunhine and warmth and moisture favored rapid growth of vegetation. Showers were frequent; in the central southern portion of the State there was generally altogether too much rain, soaking the soil, keeping the water courses full, and entirely preventing the most necessary work of the farmer at this time, the cultivation of rapidly growing crops. The most severe local storms occurred on the evenings of the 10th and 12th over Wayne county, Harnett, Johnston, Wake, Alamance and Guilford, and in the west in Rutherford, Davie, Alexander, Surry and Iredell. In these much damage was done to land and crops by washing rains, and high winds blew down many forest and fruit trees, fences and barns. Damaging hail occurred in Wayne county. Over most of the extreme would be charged for material needed eastern and northern counties the rainin canal construction than the same fall was moderate and all conditions

very favorable. In many counties farm work was entirely prevented this week, the cultivation of crops, which have become very foul, has been seriously delayed, and also the late planting of corn and work. No American ships could be cotton. Dry weather is needed. Crops bought at any reasonable price, and are flourishing, however, growth having been very rapid, though many fields are in danger of being smothered by the more vigorous development of grass and weeds.

Much cotton has still to be planted; the germination of seeds has been very rapid; chopping is under way generally and good stands are assured. but many fields are very grassy, and need work, but the soil is too wet; as yet very little corn has been planted on bottom lands, cut and bud worms are damaging corn on low lands. Results in the Rout of Pala, a Noted Slave Trader and Warrior, the American Losses Being Seven Killed and 19 Wounded.

Manila, By Cable-Fierce fighting has been going on the last two weeks on the island of Jole between the outaw Moro chief Pala, with 600 wellarmed followers, and troops under the personal command of Major General Leanord Wood. Pala's losses thus far ire 300 killed, while those of General Wood are seven killed and nineteen wounded. Pala and his remaining folowers, in accordance with Moro tralition, prefer death to capture.

General Wood, with detachments rom the Fourteenth Cavalry, the Seventeenth, the Twenty-second and the Twenty-third Infantry and Constabuary Scouts, has driven Pala and his 'ollowers into a swamp, which has been surrounded.

Pala was a noted slave trader and warrior when the Americans occupied the islands. Later, he escaped with nis followers to the Island of Pula Sekar, near Borneo. One of Pala's leaders deserted and took refuge in the British settlement at Lahad. Pala, liscovering his whereabouts, landed and demanded of the British magis rate that he turn the deserter over o him. The demand was not complied with and Pala ordered a massare. Twenty-five persons, including several Britons, were killed. Pala escaped to the island of Jolo and organized the present uprising.

It is reported that the Borneo au thorities requested General Wood to apprehend Pala, dead or alive, and urn him over to them.
