ACCIDENTAL SHOOTING.

Tragedy Occurred in Wilmington at Colonial Inn--Both Parties Claim Shooting Was Accidental.

Wilmington, N. C., Jan. 30.—An element of mystery surrounds what purports to be the accidental shooting of Eugene A. Hughes by Miss Vera L. Turner, both of Hillsboro, at the Colonial Inn in this city this morning about 7 o'clock.

Mr. Hughes, who is understood to be a deputy sheriff of Hillsboro, and a son of Sheriff Jno. K. Hughes, of Orange, arrived here yesterday morning and went at once to the Colonial Inn where Miss Turner had been a guest for several days. He is said to have been under the influence of liquor, and it is stated that during a buggy drive to the sound Monday afternoon Miss Turner took a pistol from Hughes. This morning the man is said to have gone to Miss Turner's room, knocked, and upon the lady's appearance requested a return of the weapon, saying he was going to leave on an early train. Both say the pistol was accidentally discharged, the ball entering Hughes' chin, knocking out two teeth and ranging upward into the jawbone, whence it was later extracted at the hospital to which the young man was taken.

Miss Turner left ostensibly for the railway depot, but she was not on any of the afternoon trains that departed. Her whereabouts are unknown.

A police officer who went to the hospital to investigate the shooting received from Hughes that there was no occasion for an arrest. A number of sensational rumors are afloat, but none have been verified.

RESERVE ARMY OF FIFTY THOUSAND WANTED.

May Live in Any Part of Nation, But Must Assemble Ten Days Annually.

Washington, Jan. 30.—Secretary Taft today sent to Congress drafts of several important bills designed to increase the efficiency of the army. The bills were introduced today by Representative Hull, chairman of the House Committee on Military Affairs.

One of these bills is designed to establish a partial reserve for coast defense in case of actual or impending war. The bill provides for a force of not to exceed 50,000 men, who will have served not less than one complete enlistment in the regular army.

They are to be enlisted for five-year terms, and to be carried on the rolls of the military secretary's office, to be allowed to live where they please in the United States, subject to call by the President of ten days each year for instruction, and on the outbreak of a foreign war to be called into active service.

The total cost is estimated at about \$2,000,000 a year.

Editors must have a nice time in St. Petersburg. The workmen threaten to blow them up if they don't print a manifesto and the government locks them up if they do. —Graham Tribune.

Need Better Roads.

Now would be a good time to vote on roads—while they are so bad. We need better roads in Davidson county more than anything else. We will have these some day but it may be after other counties have gone ahead of us on account of their good roads.—North Star.

The new King Frederick the Eighth now rules over Denmark. His ascension was hailed with enthusiasm but great sorrow was expressed at the death of King Christian the Ninth.

Business men generally, whose affairs are in good shape, should remember the party whose policies has brought about these conditions when they look over the political horizon this year.—Union Republican.

New Magazine Fiction.

The deluge of short stories in the magazines is so overwhelming that it is usually quite useless to attempt to point out the merit of any particular story. But in the February number of the Cosmopolitan Magazine there is a tale so remarkable for its laugh-provoking qualities that it seems necessary for the good of the jaded magazine reader to call attention to it. It is signed with the curious name, Malvolvo Jones, obviously a non de plume.

Why a quiet and perfectly respectable old lady should want to go over Niagara Falls in a barrel, and why this proceeding seems perfectly reasonable is told with the most whimsical touch in this story. It looks like the coming of a new and distinctive humorist.

THE YELLOW FEVER GERM

New England Mutual Life Insurance Company.

Chartered 1835. Boston, Mass. Assets About \$40,000,000

In reply to a request for Campaign Contributions the Vice-President of the Company replied as follows:

I cannot advise any subscription by the Company to the campaign fund for any purpose. The money held by the Insurance Company in trust for its policy holders cannot be used for political, educational or religious purposes, and any vote by the directors authorizing a subscription would be beyond their authority, and for any money paid under such vote, the directors would be personally liable, and at the suit of any policy-holder the Court would require them to reimburse the Company.

ALBERT D. FOSTER, Vice-President. Boston, Oct. 5, 1896. This is not only good sense, and therefore good law and equity, but it is plain, everyday common honesty—a quality which seems conspicuously to have been lacking in the management of the other Companies.
