fortunately they are not generally prime movers or the leaders in the cause, and they soon find themselves engaged in a political contest having no connection whatever with the cause of prohibition, and which they had no idea would be thrust upon them when they entered what they were led to believe was only a movement for a moral reform."

prohibition out of politics, but un-

We remember when the Anti Saloon League was organized that the Democratic poli.icians attended the meeting in great force and spoke very encouragingly of the movement and asked the temperance forces to let them, the politicians, make their fight for them. After winning the confidence of some of the real temperance leaders the poli ticians set about to stay off prohibi tion and have dispensaries established instead of prohibition. Of course these politicians knew that the dispensaries would be managed by their political henchmen and would be used as recruiting stations for the Democratic ring. The political leaders have staved off an elec tion on prohibition in Raleigh as long as possible, and have used all kinds of methods to prevent the election from being called, but when they saw it was going to be called over their protest, they at once jumped on the band wagon and began whooping it up for prohibitio n Of course, it is needless to say that the News and Observer is now for

prohibition in Raleigh. The election has been called for

the 26th of December, and while we do not favor the dispensary, especially under present day management, we hope that every man will be accorded the right to hold his own views on the question without being harassed by either side. Morally speaking, the dispensary is a miserable failure; fluancially speaking, it is a blooming success.

Raleigh, August 17th, 1904, said that the height of his ambition was to be Governor of North Carolina. But since Mr. Glenn has been Gov-
