## IN THE UNITED STATES SENATE.

In the United States Senate Tuesday, Senator Warner, of Missouri, spoke on the discharge of the colored troops charged with shooting up Brownsville, and upheld the action of the President.

Senator Warren presented the report of the conferees on the bill to increase the efficiency of the army medical corps, and it was agreed to. Senator Hale called up the naval appropriation bill, but did not press

it in view of the fact that Senator Warner had given notice of an address on Brownsville.

# VIRGINIA REPUBLICANISM.

Dominion.

(From the Richmond News-Leader.) Many times this newspaper has expressed the conviction that a respectable minority party in Virginia would be a public lessing. The News-Leader staff correspondent who is reporting the proceedings of the Lynchburg convention, says that the delegates are Virginians, that they are there for business. The negroes are not enough to give the convention even a tinged appearance. All of which leads to the conclusion that the Republican party n the State of Virginia is stronger, n character at least, than it has been since the war. That being the case, the question may well be asked, Why does not the party organize in other districts as it has done in the Ninth and make a serious fight against the Democrats? The most interesting answer that we have heard is that the bosses in the Ninth are abundantly satisfied with the situation as it exists. It is estimated that the Federal patronage enjoyed by the Republicans of Virginia-inside the State and in Washington-amounts to \$600,000 a year. This is controlled by the oligarchy in the Ninth and we are informed that many Republicans from that Miss Mollie Tuttle, a daughter of section hold Federal offices in other
