

Governor Kitchin has just issued a proclamation convening the State Legislature in extraordinary session, to meet on June 16th. This is made necessary because the issue of bonds of more than three millions authorized to be sold by the last Legislature has been sold only in part. Th public has refused to subscribe for the bonds. Only one million two hundred thousand have been subscribed out of a total of three million four hundred and thirty thousand offered. To this condition has the credit of the State been brought by incompetent Democratic manage-

It is still fresh in the minds of the people that the last Governor had to call the Legislature in extraordinary session on account of either ignorance or incompetency of a former Democratic Legislature with reference to the adjustment of passenger rates.

When this Legislature meets it ought to, if possible, try to devise some means to induce Democratic State officials to enforce the laws of the State and to check the carnival of increased crime that is now sweeping over the State. It ought to amend the State anti-trust law so as to put some teeth in it, and then it ought to put some courage in the Governor and the Attorney-General, if possible, to enforce it.

They ought to also either devise some way of enforcing the prohibition law and stop the blind tiger scandal, or they ought to give up the attempt. But Democratic politicians seized the prohibition question as a popular campaign issue when they could no longer use the negro scarce-crow effectively. Now, that they have gotten the prohibition law adopted they are winking at the whiskey element and the violators of the law until a most outrageous and scandalous condition has arisen in

every quarter of the State. We take it that this Legislature will undertake to fool the people be fore it adjourns by declaring that they have not abandoned the great fundamental principle of local selfgovernment. Already one wing of the Wake County Democracy has un dertaken to steal that plank from the Republican platform, while the other wing of the Wake County machine has attempted to steal the officers salary plank from the Republican party.

It is a good thing for the State that the Republican party has grown strong enough to drive the Democratic politicians into pretending to accept and advocate great correct principles of good government which they have to take from the Republican platform. The voters will, no doubt, decide, however, that it is best to trust the Republicans to put these principles into law and enforce them than the Democrats who have made such a miserable mess and failure of the government of the State.

SHALL THE PARTY BECOME A COMPLETE POLITICAL TRUST?

The Washington correspondent of the Charlotte Observer says:

"An interesting story comes here from the eastern section of the State. It is to the effect that J. A. Sims, of Salisbury, formerly of Concord, and later of Charlotte, is feeling the Republicans, at the instance of A. H. Price, of Salisbury, for National Committeeman E. C. Duncan for the Chairmanship of the State Executive Committee to succeed Judge Spencer B. Adams. This, if true, will add to the gaiety of the summer months. It has been rumored for a year that Mr. Duncan, who is an artful politician, would like to be Chairman, but this is the first definite story connecting him with the

contest." Here is information that a scheme has been worked under cover for some time, and has now just become public, to combine into one political boss not only the office of National Committeeman, but also the important position of Republican State Chairman. This would make the smallest possible kind of a close corporation, and indeed delight to the fullest every member of the small pie-counter ring.

If this scheme could be put through, it would of course be notice to every recruit that came to the party in the last campaign that he was not wanted, but must get out. It would be notice to every independent a \$55 debt and shot the debtor. It alarming increase of crime as one of

the sea.

State and who wants to see the State made Republican, because that would mean greater prosperity for the State. go to the primaries and send their truest and best men as delegates to every Congressional Convention and to the State Convention. Let the siogan be "Down with the pie-counter ring," in order that the party may rise up and grow and prosper and place North Carolina in the column of the great national party of progress and prosperity.

MR. HOLTON'S SPEECH AT SHEL-BY.

The Union Republican, in its last issue, publishes a very able and effective speech made by Hon. A. E Holton at the Republican County Convention of Cleveland County. That paper, in commenting upon th speech in an editorial, says:

"In this issue of The Republican is printed the speech of Hon. A. E. Holton, of this city, which was delivered at Shelby, N. C., at a meeting of the Republican convention of Cleveland County. It can be called the first gun of the 1910 campaign and as such demands the interest of every voter. Mr. Holton is a recognized leader in the Republican party in North Caro-As State Chairman some years ago he led the party to victory, and if it is the will of the State Convention which meets at Greensboro, August 10th, he can be prevailed upon to serve again in this capacity, which would signify an aggressive campaign and a very probable victory again for Republican candidates and policies at the November

The Caucasian hopes to have its equipment all in so that it will issue its enlarged edition next week, and in that issue we will publish Mr. Hol ton's speech in full.

Every voter in the State ought to read that speech, and we trust that our present readers will get up large clubs of subscribers for the next is sue. At least send for a bundle o sample copies to distribute to your neighbors. Every issue of the paper from now on will contain campaign facts and material that every voter will want to read and keep for use in the campaign.

The National Congressional Committee is getting out some campaign material, especially for distribution in North Carolina and the South which we also intend to publish a an early date.

We have ordered new supplies for enlarging The Caucasian and hope to make the change with our next issue With its increased size we also hope to increase its usefulness.

We hope that every friend of the paper, and the cause we advocate will now go to work and send us as many subscribers as possible before our next issue so that they will receive the first copy of the paper after it is in enlarged. We can assure our readers that the next issue will be brimful of interesting reading, and, in fact, every issue of the paper from now until after the election will be chock full of news of great interest to every person who wants to keep

A TERRIBLE INDICTMENT. The Raleigh News and Observer in an editorial in its issue of May 3rd, has this to say of Democratic "good

government" in Wake County:

"There comes a time every now and then when there must be a party house-cleaning. That time has come in Wake County. The Democratic machine that governs the county has no thought except to keep in power. It cares for roads only to please favorites and make votes. It has never taken any interest in education. It is chiefly responsible for debauching the suffrage. In a score of petty ways it outrages the rights of the people for the small coterie it favors. People will not vote bonds or larger tax for roads because they know that politics will dictate the expenditure by which much will be wasted. Nobody ever heard of any of the machine favoring schools, and yet they wish to dominate the school boards. Politics-selfish and small politics-is permitted to sacrifice the real interests of the people. Long lease of power has made them arrogant and they make appeal chiefly to vice

and cupidity."

The Wilmington Star of last Sunthe prevention of the election of such day, in an editorial, attempts to give and only boss might distribute all of ence to local self-government. That the patronage from the mountains to leading Democratic daily, while claiming that local self-government Fortunately, the party has already is a Democratic doctrine, yet admits The exposure of this scheme means it. It is remarkable that the Star by so doing; yet the fact is that its editorial is a sample Democratic ar-

The editorial in full is as follows:

"Local self-government? Why, it hits us "a gwine and er comin'." Some people want local self-government when they can use it to their advantage and don't want it when it is not to their advantage. Local self-government is a thing that will work both ways-one way for the eastern part of the State and another way for the western section. Local self-government is all right in its place.

"Local self-government is a hummer in some counties and a humbug in some others. It is a fine political war cry and it is the best thunder the Democrats ever had when the conditions suited. When they do not suit, the Democrats don't work at it much, and then is when the Republican party tries to work the game. However, this ancient Democratic policy still belongs to the party, even if it should be laid on the shelf at times when it is not wanted or needed for business. The Hon. Marion Butler, anti-machine Republican, labors under an egregious mistake when he thinks that the Democrats have discarded it, but he should know that it is a Democratic hot tomale.

"Col. Butler is showing signs of badly wanting and sorely needing local self-government for a Republican campaign slogan, because he thinks it can now be used to the advantage of his party in the State. However, if it were to be seriously proposed to apply it to the election of Federal offices in a Democratic State when a Republican administration is on deck at Washington, he would drop the hot tamale like it was a hot potato. The Ex-Senator has heard that some folks are State Democrats and National Republicans, and he is now manifesting a decided impression that some folks might be National Democrats and State Republicans.

"We suppose that enough has been said to show that the local self-government question is a little confusing. In fact, it is a double-barrel blunderbuss to be fired in two directions and is a double back-action boomerang that will butt in from all directions. People know that they can have local self-government when it will really get them something, but Col. Butler need't think he can fool them into believing that they need it bad enough to get the Republican party into power in North Carolina.

"No old-line Republican will ever be caught inconsistently standing for local self-governwhen he belongs to a party which don't even recognize States' rights so as you would notice it. If Col. Butler can catch many unthinking people with his attempt to spring the Democratic local self-government idea as a Republican issue now, he might be caught a little later in an effort to make the G. O. P. swallow State's rights.

"Local self-government is a powerfully good thing when it will keep Republicans out, but it will not be accepted as a plea to get Republicans in. That will be the case so long as long-headed North Carolinians know that Republicanism is the issue and not local self-government.

"We are not inclined to believe that any Democratic flies will allow themselves to be caught in Butler's molasses

It would now be interesting to see and regulation of trusts.
