nicutt, of St. Matthews. County Commissioners-F. W Mahler, of Raleigh; J. W. Underhill, of Little River; C. H. Collins, of Holly Springs.

Coroner and Surveyor-To be named by Executive Committee,

#### PRESIDENT TAFT'S STRONG AND FORCEFUL LETTER.

We publish in this issue of The Caucasian President Taft's letter to Congressman McKinley reviewing the work of the administration. It is a clear, comprehensive statement of the great achievements of the Republican administration, which shows that this administration has accomplished more during its first year than any other administration in the history of the country.

Every voter in North Carolina, and especially every Democratic voter, should read every word of this strong, forceful and fascinating document. It is far inating for the great truths which it states, about the statement from the President is a conclusive argument as to why a patriotic American citizen should support the Republican ticket.

The Charlotte Observer, in commenting upon this letter, says that it is the strongest paper that has yet emanated from President Taft.

#### A CRAWFISH GOVERNOR - A SPINELESS ATTORNEY GENER-AL-AND A TOOTHLESS ANTI-TRUST LAW.

Where is the anti-trust law with teeth which Governor Kitchin promised? Where is his Attorney General with the backbone to enforce the law? Where, Oh, where!

The fact is the people have been betrayed. What we have gotten is a toothless anti-trust law, a spineless attorney general, and a crawfish Governor. Read in another column the miserable record of brazen hypocrisy and broken promises of the Kitchin administration.

If this bold treachery is condoned it will encourage other hypocrits of the Glenn and Kitchin stripe to a tempt to work other confidence games upon the brave and patriotic people of the State.

The editor of a weekly paper in North Carolina has prominently post ed in his office glaring head-lines from the News and Observer issued on the morning of the last Presidential election,-but before the votes had been cast. It reads:

an is our next President."

ple of News and Observer 'facts.' "

#### PENSIONS FOR CONFEDERATE SOLDIERS.

A number of Democratic speakers are attempting to claim for themselves and their party a monopoly of interest in the welfare of the Confederate soldiers. How much sincerity there is in these loud professions made on the stump to capture the vote of the Confederate soldier can be judged by the fact that the Democratic party in this State has done much less than the State was able to do and should have done for the Confederate soldier. Indeed, our State has done much less than most of the State had done as much as or more than any other Southern State, the truth is that no State system of pensions for Confederate soldiers will ever give what the crippled, suffering, and destitute heroes of the civil war deserve and need for the support and comfort of their declining years.

All Only the guilty fear the truth. diers would spurn such pensions if these facts were brought out and they were offered them, and besides. that the Southern States were amply able to take care of these soldiers.

In reply, Mr. Butler showed how

meagre was the provision made by

each State for the Confederate soldier, and also showed that today the taxes paid by the people of the South went equally with the taxes of the people of the North to pension the Northern soldiers, and that they were back in the Union, under the Stars and Stripes, to stay, that every one knew if a call was made for volunteers, as in the case of the Spanish war, that no Northern State would respond with more soldiers than would the South for our common flag. and that this being so, there was no excuse for spending a dollar to support the man wounded or maimed on to do. progress of our wonderful country. is, that they had a constitutional justice and assisting indicted men to out the light of day. #### WHICH DEMOCRACY DOES NOT. AT PRESENT, ESPOUSE."

The Charlotte Observer, in commenting on the Republican State platform says:

"Its declaration for local selfgovernment in North Carolina must favorably impress every believer in the fundamental Democratic principle which North Carolina Democracy does not, at present, espouse."

This is a truth known to all men The question now arises, what does Democracy now stand for?

It is a significant fact that wher-

a number of pages. That debate be- nais. This in face of the fact that WHY MAINE WENT DEMOCRATIC. a saving of time and money to enable the farmers to receive their man be ing much more mail, especially date

One of the next most important measures that will bring similar blessings to a large number of buy people in rural communities and small towns, as well as cities is the great system of postal savings banks, which was established by the last Congress. The beardount effects of this system will not only be to encourage children as well as men in saving money that is now wasted but it will add materially to the progress and prosperity of our counrial way the beneficent influences of free rural delivery.

There was also pending in Congress when the last session adjourn. ed, several bills for the establish ment of a system of parcels post. This system, when established, as it will be if the great progressive Republic can party stays in power, will be the third great step in the uplift of the farmers and wealth producing elament of our nation.

The Democrats in the last Congress opposed the establishment of postal savings banks. They will obpose the establishment of the system of parcels post, just as they always oppose every great reform or any new measure for the development of our country and the advancement and uplift of our people. Indeed, that is the traditional history of the Democratic party, in this State.

It is well known that the Democratic party opposed the great plan of internal improvements, which was championed by Governor Morehead and carried forward with such success in his administration. The Democratic candidate in that campaign opposed internal improvements and denounced it as an unconstitutional scheme. After the system of internal improvements was started and became popular, then the Democratic party dropped in line and declared that they had always been in hour of such a measure. In short, the record of the Democratic party is to oppose any form of progress, but it always drops into line after the thing

has been done. Let those who want to see a parcels post established, and other great reform measures along the same line for the advancement and uplift of all of our people, cast their votes for the party that has the wisdom and This is why the depublican party, with its record of achievement, and its great constructive policies looking to the future, appeals so strongly to

of every State in the Union. The young men of North Carolina are today coming to the Republican party by the thousands, and they will continue to come and place our old State in the column of the great national party of progress and prosperity, and when they do no State in the Union will become richer and greater faster than the Old North State.

#### THOUSANDS OF DOLLARS SQUAN-DERED ON PET DEMOCRATIC ATTORNEYS.

Attorney-General Gilmer, during the term of his office, looked up the These are the facts and conditions number and the size of fees which

It is said that when certain polikeep quiet and not let the facts get out, because if they did it would be

sure to ruin the Democratic party. This question of enormous fees to numberless Democratic pet attorneys is only a drop in the bucket of the long story of Democratic incompetency, mismanagement and misrule It is time for the people to see the books and to also have a chance to
